

Z<sup>®</sup>  
2024

## Thrill, raised to the power of Z<sup>®</sup>

It's been a revolution since 1969, and it hasn't stopped since. It calls to you with a 400-horsepower,<sup>1</sup> twin-turbo V6, a quick-shifting 6-speed stick, and the ideal balance of rear-wheel drive. Wrapped in a stunning body with a cockpit that's focused on the drive, it's a pure sports car the way only a Z can be. And for 2024, Z NISMO<sup>®</sup> raises the bar and serves up the ultimate thrill. Welcome to the revolution.

## Accelerating what a driver's cockpit should be

To create a great drive, Z<sup>®</sup> combines a pure sports car cockpit with advanced tech that takes you to the next level. You're held in place with a driver's seat sculpted for the way you move while everything from the steering wheel to the shift lever has been studied, shaped, and crafted to feel great in your hands. Advanced technology serves up what you need to know, keeping you informed quickly, brilliantly, and stunningly. Iconic yet advanced, the Z is the place a passionate driver would love to be.

## 400-horsepower, twin-turbo V6 engine

At the heart of the Z<sup>®</sup> is this 3.0-liter twin-turbocharged 24-valve V6 engine. An aluminum-alloy block and heads keep things light, while a water-cooled intercooler helps reduce the temperature of incoming air. Tech brings power with 350 lb-ft of torque starting at under 1,600 rpm.<sup>1</sup>

## 6-speed manual and 9-speed automatic transmissions

A 6-speed manual transmission with available SynchroRev Match<sup>®</sup> means pure driving thrills. An available 9-speed automatic with shift-by-wire controls brings cutting-edge technology and response. The hardest part? Choosing only one.

## A chassis built to respond

Z is designed to handle your favorite roads with monotube shocks and suspension tuning for enhanced response. Strong and lightweight aluminum and carbon-fiber composite components<sup>7</sup> plus massive 19" RAYS<sup>®</sup> super-lightweight forged wheels with performance tires<sup>4</sup> will give a G-induced smile in every turn.

## Launch control and mechanical limited-slip differential<sup>4</sup>

Z's available launch control helps reduce wheel spin and hop by holding the engine at a pre-set rpm and modulating power as you pull away, to give you the fastest, most consistent acceleration every time. Adding to the thrill, no-lift shift technology helps you stay in the powerband. Combined with Z's mechanical limited-slip differential,<sup>4</sup> it lets you enjoy every last rpm that the powerhouse serves up.

## The apex predator

Developed by the legendary motorsports arm of Nissan, the Z<sup>®</sup> NISMO<sup>®</sup> rattles the cages of the competition with a tuned 420-hp engine,<sup>1</sup> enhanced 9-speed automatic transmission, and unique Sport+ Drive Mode for incredible response.

Aerodynamics learned at the track make their way to the street. A unique honeycomb grille enhances engine cooling, while front canard wing vortex generators, wider sill side spoilers, rear air splitters, and a unique rear spoiler all help provide additional downforce.

Putting power to the pavement is a NISMO-tuned suspension featuring larger-diameter shocks and higher spring rates, massive Akebono<sup>®</sup> brakes with larger 15" rotors, and wider 19" lightweight RAYS<sup>®</sup> forged-alloy wheels wrapped in special Dunlop<sup>®</sup> tires.

Inside is as beautiful as it is focused with Recaro<sup>®</sup> seats, an Alcantara<sup>®</sup>-wrapped steering wheel with a red leather stripe at 12 o'clock, and a unique instrument display on the digital dash.
