SAFE EVERY STEP OF THE WAY

For Dacia, nothing is more important than constantly improving the safety of our vehicles, and most of all, that of the passengers. You can relax with automatic emergency braking, hill start assistance, six airbags as standard and blind spot sensor. All-new Dacia Sandero and Sandero Stepway provide everything you need for worry-free driving.

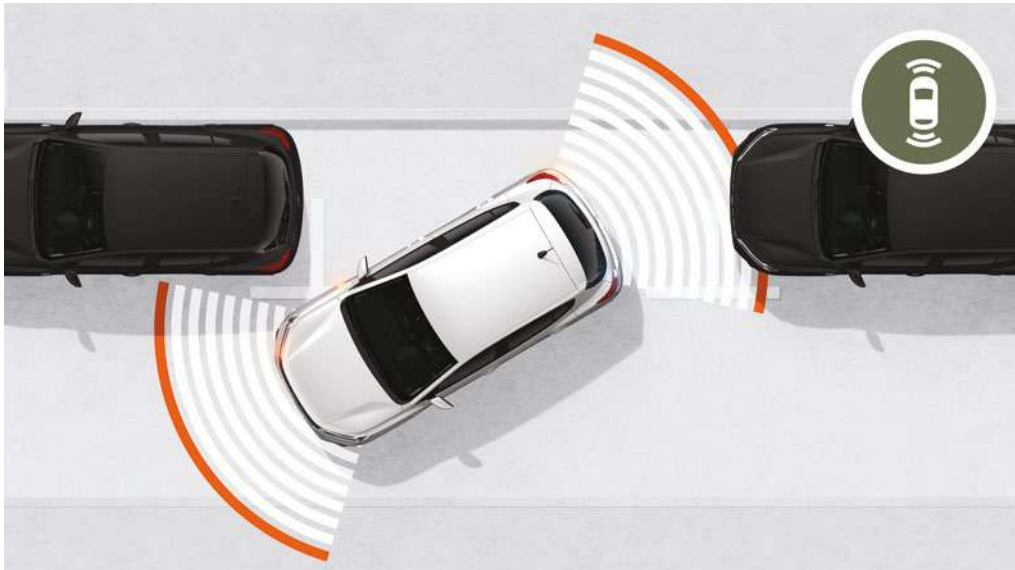

AUTOMATIC EMERGENCY BRAKING

Sometimes, concentrating and being reactive is not enough. You can rely on All-new Sandero to avoid or mitigate minor accidents. Automatic emergency braking detects collision hazards. If you don't react or at least not quickly enough, the system triggers and optimises braking.

BLIND SPOT WARNING

It's difficult to see everything when you change lanes. Fitted with front and rear side sensors, your All-new Sandero warns you about any collision hazard with another vehicle to the side or rear.

FRONT/REAR PARKING SENSORS AND REAR-VIEW CAMERA

In the city, all parking spaces are worth taking, even the narrowest ones. From the first manoeuvre, you will be convinced by this sensor which gives you both an audible and a visual warning of the slightest obstacle to the front or rear.

HILL START ASSIST

No need to stress when you start on a slope! This function immediately prevents the vehicle from moving backwards when you release the brake pedal. You no longer need the parking brake to help you; manoeuvring your vehicle becomes as easy as ABC.

DACIA DUSTER

WE'VE GOT YOU COVERED

You might think our shockingly affordable prices mean our cars aren't made to last. Actually, the Dacia range is one tough cookie. To prove it, you get a 3-year* warranty (or 60,000 miles, if you reach that first).
