2015 Models Edition 1

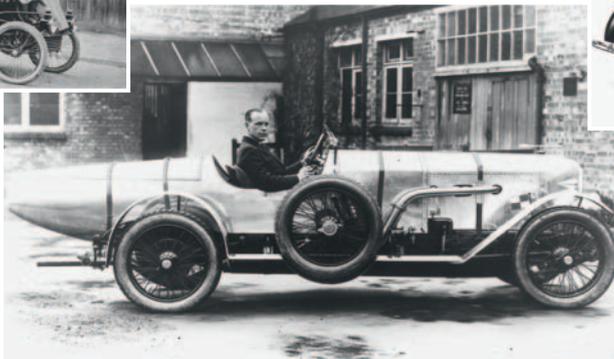

Proud Sponsor of Home Nations Football

WELCOME TO A LIFETIME OF FORWARD THINKING

1903 – Forward thinking has been in our nature from the very start. The 6HP, our first ever car, had two forward gears. And no reverse.

1922 – The Silver Arrow OE 30-98 was capable of speeds of over 100mph, this model was built for shipping magnate Sir Leonard Ropner to race at Brooklands.

1937 – The Vauxhall 10' H-type, the first British car to have integral construction.

1957 – The PA Cresta introduced Americana styling to the UK.

1984 – The MkII Astra introduced class-leading aerodynamic styling that still looks good today. The Formula Vauxhall Lotus ran a modified version of the Astra GTE's 2.0i 16v engine.

1971 – The formation of Dealer Team Vauxhall (DTV). The track car was the precursor to our enormous success in touring car racing.

1999 – The Zafira introduced the revolutionary Flex7® seating system inventing the seven-seat compact MPV.

1990 – The Calibra was the world's most aerodynamic production car.

1989 – The Lotus Carlton was the world's fastest production four-door saloon.

2012 – The 'RAK e'. A radical looking electric concept car for the future. Our forward thinking continues.

2012 – Ampera. The first ever Extended-Range Electric Vehicle (E-REV) that redefined electric vehicle innovation leading to it being voted European Car Of The Year 2012.

Scan this QR code with your smartphone for more information on the last 110 years of Vauxhall innovation. Don't forget to download a QR reader from your app store first.

The world was a very different place in 1903 when Vauxhall made its first car. We steered with tillers, not wheels. Six horsepower was considered pretty nippy. And King Edward's face was still on the stamps. But for us, one important thing hasn't changed: we started out with a philosophy of Forward Thinking and, over 110 years later, it still motivates everything we do. Who knows what innovations the next 110 years will bring?

The Vauxhall Lifetime Warranty. There's one thing every owner of a new Vauxhall can rely on. We're so confident in Vauxhall quality and reliability that we are now able to offer a lifetime warranty. It's available to the first owner of all our new Vauxhall passenger cars and valid for the lifetime of the vehicle up to a maximum of 100,000 miles. So you've got year after year of carefree driving to look forward to...

Please see back cover for full details of the Vauxhall Lifetime 100,000 mile warranty.

BOLD NOW COMES AS STANDARD

Like to think bigger? Then think Mokka. This innovative new model combines the road presence of an SUV, with the dynamic handling of a sports hatchback. And, its sleek, bold design is sure to turn heads from any angle. Then there's the interior. An eye-catching cabin filled with style and outstanding specification that puts cutting-edge design and technology right in your hands and a sense of adventure back into your everyday life.

This brochure covers Mokka Exclusiv, Tech Line and SE models only. Some of the models shown include options and accessories available at extra cost. And not all of the features described are available on every model. We may also offer alternative Mokka models such as Special Editions. So for all current model or equipment details visit the Vauxhall website: www.vauxhall.co.uk

URBAN RULES. OFF-ROAD ATTITUDE

Experience a true SUV with a truly sensational drive. Compact enough to be nimble in city traffic the Mokka maintains precise handling whatever you do and wherever you go, even on the most demanding of roads – or off the beaten track. Its muscular and sporty design belies the light, agile chassis, which makes the fuel and emission figures refreshingly easy on the eye too. Practical, agile and incredibly convenient, the Mokka is streets ahead of a conventional SUV.

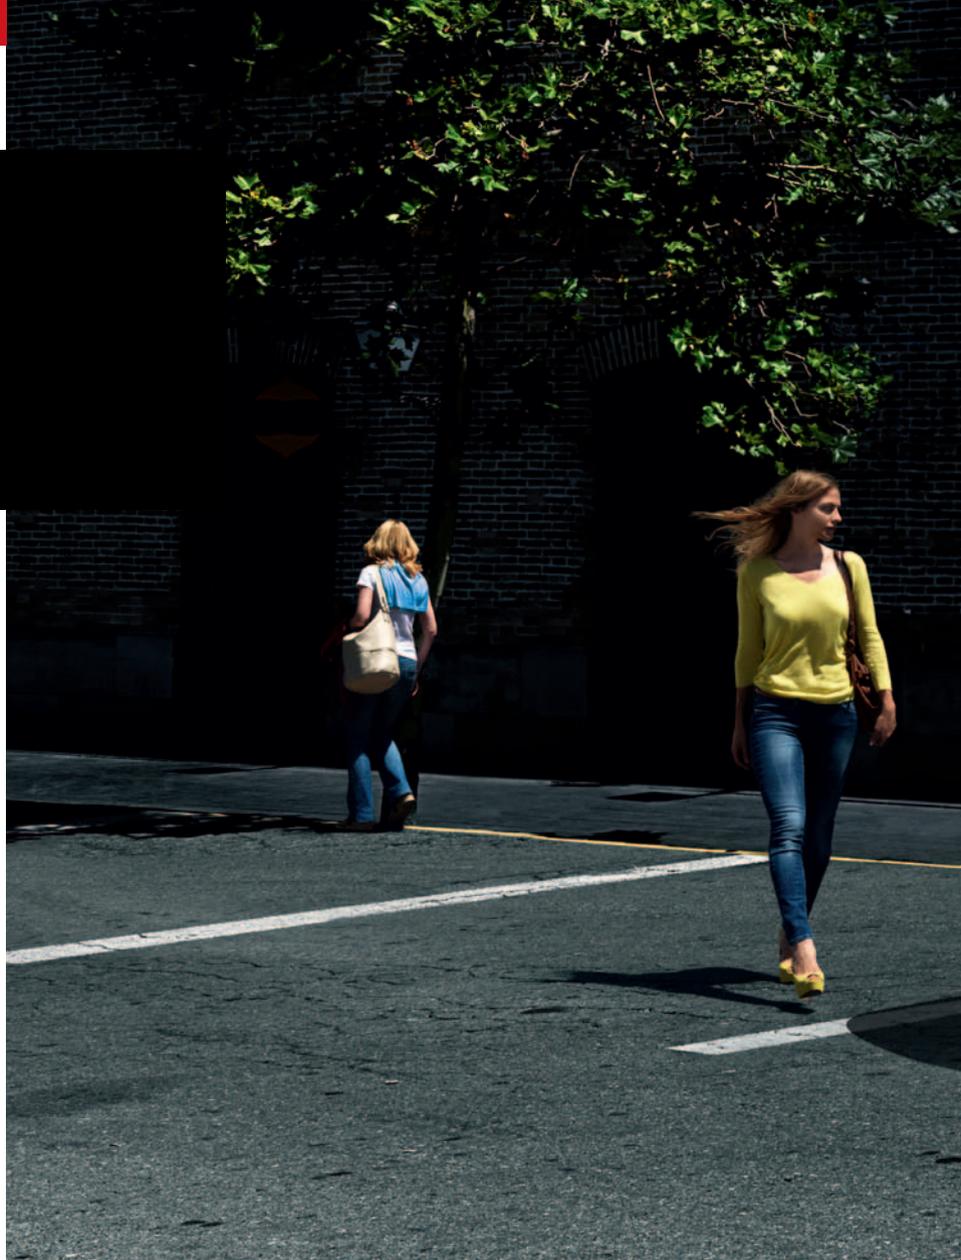

Mokka simply delivers. Find out more about this ground-breaking model at www.vauxhall.co.uk/mokka

LOOK SMART. THINK SMART

The Mokka has the brains to go with the looks. In fact, the safety options it offers – like the enhanced Vauxhall Front Camera System and Adaptive Forward Lighting – are world class. The Mokka's off-road credibility comes from its intelligent four-wheel drive with descent control system, which is reassuring on the road too. Then there's the front and rear parking sensors and even a rear-view camera. The Mokka is full of intelligent ideas that make driving more fun and relaxing.

Plaza del Mar

CAPABILITY WITHOUT COMPROMISE

The Mokka is a car that can handle anything your life throws at it. There are three distinctive models available to explore: Exclusiv, Tech Line and SE. All seat five friends or family with more than enough room to stretch your legs. Advanced ergonomically designed seats provide supreme comfort, while clever storage options keep the spacious interior neat and tidy. Plus, you can stay in touch while on the move with state-of-the-art infotainment systems. And with a boot that stretches to 1372 litres with the rear seats folded, the Mokka gives you a real sense of space.

GO EVEN FURTHER

If you're into adventurous biking as well as driving, you'll be into Flex-Fix®*.

This carrier, unique to Vauxhall, allows the Mokka to get you and your bike to even the toughest of trails. A first in this class, it slides effortlessly in and out of the rear bumper so you can easily attach your bike on the back of your Mokka. The tailgate still opens too, simply tilt the Flex-Fix® system out of the way. You can even fit a Flex-Fix® extension to add two more bikes for even more fun.

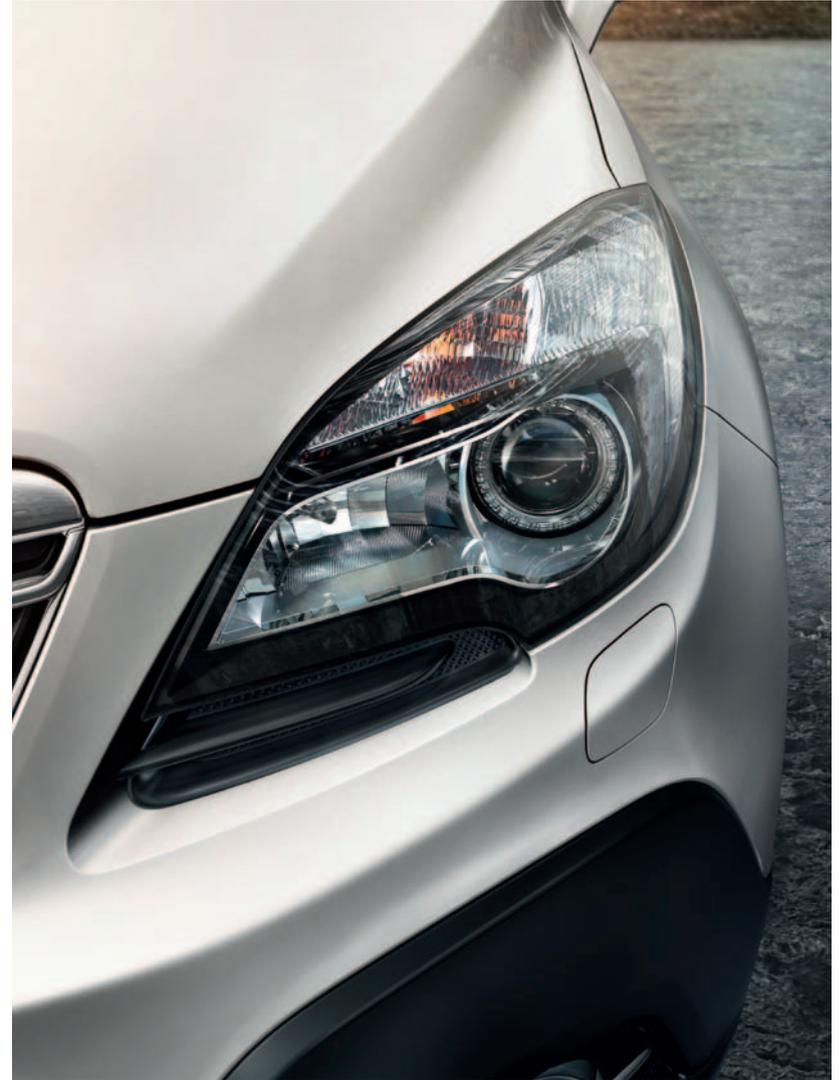

*Optional at extra cost.

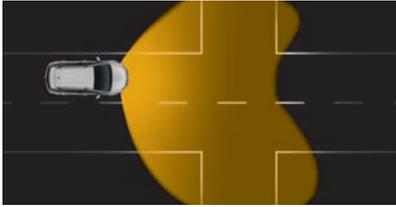

➤ SEE FURTHER. DRIVE SAFER

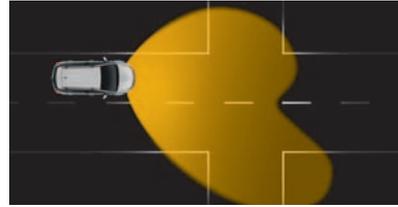

Sophisticated driver aids set the Mokka apart. It's the first car in its class to offer adaptive bi-xenon headlights, in the shape of the optional Adaptive Forward Lighting (AFL) system. AFL improves visibility and safety at night by automatically adjusting the direction and strength of your headlights, adapting instantly to suit different speeds, traffic situations and even the weather conditions.

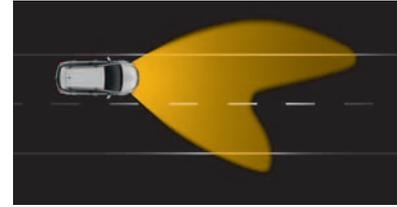

Advanced Adaptive Forward Lighting.

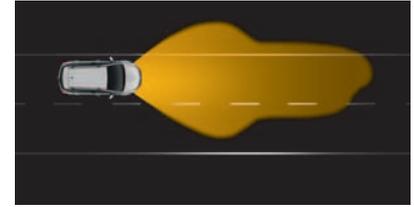

Pedestrian area light. Wider spread of light (an extra eight degrees left and right) illuminates potential hazards (up to 20mph).

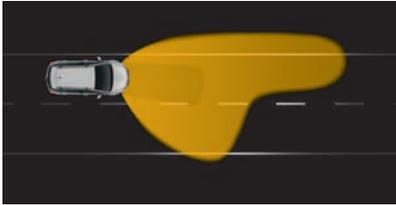

Town light. Wider and lower spread of light. Activated by vehicle speed together with street lighting (20-35mph).

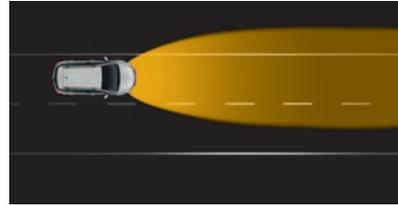

Country road light. Wider spread and brighter light than normal low beam. 70 metre range without dazzle (35-70mph).

Motorway light. 140 metre range, higher and brighter than normal low beam, without dazzle (over 60mph).

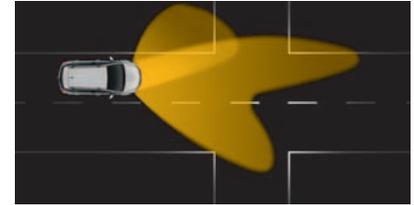

Adverse weather light. Wiper or rain sensor activated for better vision in bad weather conditions (up to 45mph).

High beam assist. Automatically switches from high to low beam as it detects oncoming or preceding vehicles (over 25mph).

Dynamic curve light. Activated by steering angle and speed, the headlights swivel up to 15 degrees into the curve (any speed).

Static cornering light. Throws light 90 degrees left or right for enhanced lateral vision (up to 25mph, also when reversing).

➤ SAFEGUARD YOUR INTERESTS

Intelligent driver-aid options for high-level safety. Options like the Front Camera System with Forward Collision Alert, Traffic Sign Recognition and Lane Departure Warning, are all designed to help keep this SUV on the straight and narrow.

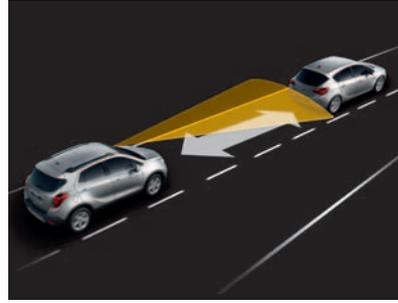

Electronic Stability Programme (ESP-plus). Every Mokka features the latest ESP-plus with Traction Control reducing oversteer or understeer. 4X4 models feature an enhanced system which comes complete with descent control and hill start assist.

Tyre Pressure Monitoring System (TPMS). The standard TPMS is a convenient way of checking your tyre pressures. If any of them start to deflate, a visual indication displays within the instrument panel and, depending on the model, the precise pressure of each individual tyre is shown.

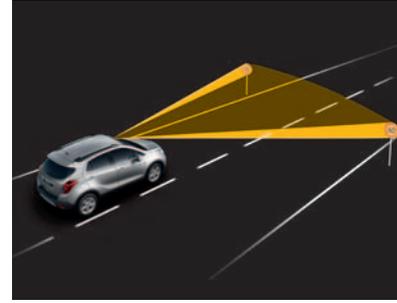

The Mokka's passive safety systems are uncompromising and comprehensive. It's difficult to imagine how you could be better protected inside your Mokka. You are surrounded by a high-strength steel rigid passenger cell as well as front, side and full-length curtain airbags. On the outside, pedestrians are protected by bumpers that use low-density foam, designed to reduce the risk of leg injuries should the unthinkable happen.

Front Camera System. A specialised high-resolution camera that helps you drive more safely. Mounted in the front of the rear-view mirror, it constantly monitors road signs and displays speed limits in your instrument panel as well as warning you if you should inadvertently leave the lane of travel or get too close to the car in front. Optional at extra cost on all models.

Forward Collision Alert (FCA).

FCA uses the Front Camera System to monitor the distance of a vehicle in front and alert the driver of potential collisions. At speeds above walking pace, it triggers visual and audible warnings if you approach slower-moving vehicles too fast. They can be adjusted at three different distance settings.

Traffic Sign Recognition (TSR).

Utilising the Front Camera System, this clever feature makes sure you're constantly made aware of speed limits, even when temporary signs are put up. TSR continually monitors road signs, and gives you a warning if you unintentionally stray over the limit. It can even read and display motorway electronic signs related to speed limits like rain or snow warnings.

Lane Departure Warning (LDW).

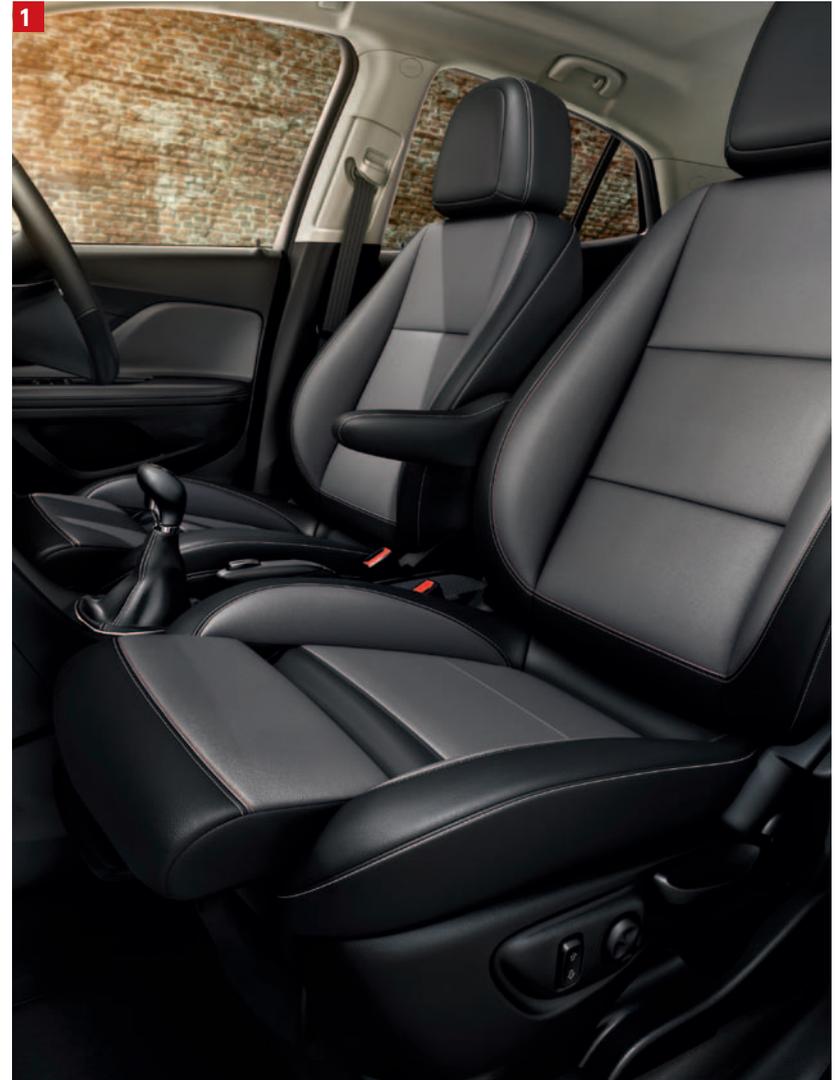

LDW uses the Front Camera System to recognise lane marking lines, and emits an audible warning if your vehicle leaves its lane unintentionally (i.e. without you signalling), preventing potential accidents and reminding you of inattention or tiredness. The LDW system can be deactivated via a facia switch.

➤ INNOVATIVE FEATURES

The Mokka's advanced ergonomics mean you couldn't wish for a more comfortable compact SUV. Or one with more room – there are up to 19 storage compartments to free-up space. And with features like the driver's seat armrest, Electronic Climate Control, the Flex-Fix® bike carrier system, electric glass sunroof and heated front seats – everywhere you look you'll see well thought out, ergonomic design, for your comfort.

1. Ergonomic sports front seats. The ergonomic design – certified by the German Aktion Gesunder Rücken, an association of orthopaedic experts – is the ideal choice for drivers looking for extra comfort. The seats* adjust to suit your posture by letting you fine tune the lumbar support and extend the seat cushion. Giving your upper body and legs more support where you need it most.

*Standard on SE models.

2. Driver's seat armrest. Practical, comfortable and supportive, the armrest can be flipped up to provide easier access to the centre console.

3. Rear-view camera and display.

This optional system gives you a clear view of the area behind the car on the colour infotainment screen. Working in conjunction with the rear parking distance sensors, you'll quickly realise just how easy it becomes to reverse the car safely. Available in conjunction with CD 600 IntelliLink and Navi 950 IntelliLink satellite navigation system.

4. Winter Pack and Electronic Climate Control (ECC).

Heated front seats and even a heated steering wheel. Order yourself the optional Winter Pack* and stay warm no matter how the temperature dips outside. All models feature ECC as standard, a bonus whatever the weather. While the dual-zone settings mean you can set a different temperature for each side of the car. How cool is that?

5. Flex-Fix® bike carrier system.

This optional, fully integrated rack slides in and out of the Mokka's rear bumper so you can easily attach your bike on the back of the car. To open the tailgate, you just tilt the rack out of the way. Add the accessory Flex-Fix® extension to carry two more bikes.

*Standard on SE models.

➤ IMPROVE YOUR DRIVETIME

The Mokka is robust and ready to rock. But with features like digital radio and Bluetooth® standard on all models and the availability of a sat nav system, it still has all the technology you need to keep you entertained and in touch while on the move.

1. CD 450 stereo. The CD 450 audio unit features digital radio. This means digital quality sound, a broader range of stations, easier to find by name, and improved track display info on certain stations. Together with a CD player it also features 20 watts per channel output with six speakers and a graphic information display, plus an aux-in socket for external portable music players. Wherever your Mokka takes you, it has the power and precision to fill the car with fantastic sound.

2. Plug-and-play USB and Bluetooth® connectivity. All Mokka audio units feature a USB interface allowing you to hook up most MP3 players, smartphones or USB sticks to your Mokka's infotainment system and access music, podcasts and other files via the steering wheel remote controls. With Bluetooth® technology you get hands-free operation of most mobile phones.

3. CD 600 IntelliLink. The CD 600 IntelliLink features a seven-inch high-resolution colour display that also functions as a screen for the optional Rear View Camera and can show individual pictures uploaded via USB. The IntelliLink system includes audio streaming via Bluetooth®. When connected via USB, Gracenote® – a music database – identifies and manages your audio files for perfect enjoyment. The CD 600 IntelliLink is optional on Exclusiv and SE models.

4. Navi 950 IntelliLink. The Navi 950 IntelliLink is a satellite navigation system that features a seven-inch colour display with bird's eye view in 3D and steering wheel control. The navigation software for more than 30 European countries and a comprehensive travel guide with pictures is stored in the internal memory for fast access. Navigation can be started by one-shot destination entry via voice control. The Navi 950 IntelliLink is standard on Tech Line models and optional on Exclusiv and SE.

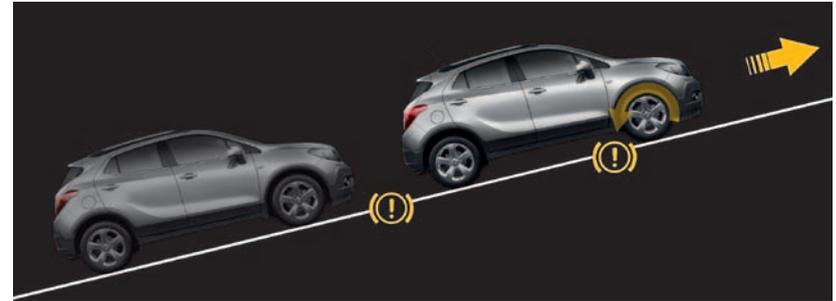

➤ FEEL THE GRIP

From a steep off-road descent to a fast commute in a cloudburst at dusk. Packed with high-end technology like Descent Control System and intelligent four-wheel drive, the Mokka 4X4 can comfortably handle whatever comes its way.

Descent Control System (DCS). Take your Mokka 4X4 off-road and you can use DCS to safely control your speed on extreme downhill gradients without having to brake.

Hill Start Assist (HSA). On Mokka 4X4 models HSA will stop you rolling back unintentionally on steep hills, by automatically releasing the brake at just the right moment when pulling away on a gradient.

Grip on demand. With the intelligent four-wheel drive system you can look forward to increased driving stability and improved handling in the toughest of conditions. The 4X4 system uses sensors to monitor a range of conditions including steering angle and the relative speed of the wheels. A sophisticated torque transfer device then automatically distributes drive between the front and rear wheels for optimum traction and superior safety in the prevailing road conditions.

➤ THE POWER TO PLEASE

The Mokka boasts a lively range of engines with characteristics to suit your life. Choose from multi-valve petrol or turbocharged diesel models complete with a five- or six-speed manual gearbox and Start/Stop as standard. Plus, the Mokka combines the responsiveness and low fuel consumption of a turbo diesel with the comfort of an automatic transmission and the convenience of front-wheel drive.

Engine choice. Mokka drivers can select from a range of powerful yet efficient engines. From the highly flexible 115PS 1.6 litre VVT and 140PS 1.4 litre turbo petrol units. To the fuel-efficient 1.7 litre turbo diesel engines, each producing 130PS. Automatic front-wheel drive variants of both 1.4 petrol and 1.7 diesel are available. In addition, all engines comply with the rigorous Euro 5 emissions standard. So, if performance, responsiveness, low emissions and affordability are high on your agenda, there's an engine that'll put a big grin on your face. All supported by the Vauxhall 100,000 mile Lifetime Warranty too*.

Start/Stop. Standard on all manual transmissions, our innovative system switches the engine off when you stop at the lights or in traffic, then restarts it automatically once the clutch is depressed; saving you fuel and reducing emissions. A huge range of built-in checks ensures passenger and vehicle safety at all times, of course. Engine stop is indicated by the rev counter needle in the AUTOSTOP position and the system can be deactivated manually simply by pressing the ECO button.

* Vauxhall Lifetime Warranty covers lifetime ownership of first car owner. 100,000 mile limit, annual check required. The warranty excludes wear and tear and serviceable items and the vehicle must be serviced in accordance with the manufacturer's servicing schedule to continue the lifetime warranty. Terms and conditions apply. Offer available to all Vauxhall passenger cars (this offer does not apply to car-derived vans) from 1st August 2010.

YOUR LIFE. YOUR MOKKA

Athletic, compact and muscular, the Mokka is an agile performer in any environment and in any guise – Exclusiv, Tech Line or SE. SUVs don't get any more versatile than this.

➤ EXCLUSIV

Standard features include:

- Switchable Electronic Stability Programme (with Hill Start Assist and Descent Control System on 4X4 models)
- Dual-zone Electronic Climate Control
- CD/MP3 CD player/aux-in socket (CD 450)
- Digital radio
- Steering wheel mounted audio controls
- Cruise control
- Multi-function trip computer
- USB connection with iPod control • Bluetooth® functionality
- Leather-covered steering wheel
- Steering column adjustable for reach and rake
- Daytime running lights • High beam assist
- Rain-sensitive windscreen wipers
- Electrically adjustable/heated/foldable door mirrors
- Electrically operated front and rear windows
- Tyre pressure monitoring system
- Front fog lights
- Front and rear parking distance sensors
- Stainless steel exhaust tailpipe (excluding 1.6i 16v models)
- Sterling silver-effect 18-inch alloy wheels
- Intelligent four-wheel drive (4X4 models only)

➤ ACCESSORIES

The Mokka has the looks and technology you need every day in the city, plus the room you need to take friends and family away on a trip. Whatever you want to do with your Mokka, check out the range of Genuine Vauxhall Accessories to find out how they can make life easier.

1. Roof base carrier with Thule roof box. If you're into sports and like to make the most of your time outdoors, even the Mokka's ample interior and optional integrated Flex-Fix® bike rack might not be enough to load all your outdoor gear. A kayak/surfboard carrier or this sporty Thule roof box should take care of that.

1. 2. VXR Styling Pack. Cool and sophisticated or just plain exciting? The VXR Styling Pack includes a front skirt, side sills and rear skirt for maximum visual impact. Also available individually, Mokka illustrated also features 19-inch alloy wheels, optional at extra cost.

3. VXR Styling rear spoiler. In addition a rear roof spoiler is available separately to complete the dynamic look.

4. Hard cargo tray. When you have lots of little items to load, this made-to-measure tray is a must. High-edged, flexible and washable, the cargo tray also has a non-skid surface to prevent loads from slipping – and help you keep the boot area clean and tidy.

5. Cargo organiser. This collapsible organiser stops items moving about on twisty roads. It's just one of several practical accessories available that let you easily load, organise and unload your stuff.

6. Side steps. Stylish but functional, the side steps enable easier access to roof-carried loads, or just help you and especially the kids, get in and out. They look good too, in aluminium with stainless steel top and anti-slip rubber strips.

7. Fixed tow bar. Tow in confidence with Mokka's fixed tow bar featuring a 50mm ball and 13-pin electrical harness. The system can also be used in conjunction with the factory-fitted rear parking distance sensors.

Child seats. Vauxhall offers a full range of child seats for kids of all ages. The DUO ISOFIX child seat can also be attached using the ISOFIX child seat restraint fittings, standard on the outer rear seats.

Look for what you need. For the full range of Mokka accessories, take a trip to www.vauxhall.co.uk/accessories

➤ READY TO MAKE YOUR MARK?

A car as accomplished as the Mokka demands the perfect finish. Take your pick from a range of striking colours. Add smart interior colour choices and premium materials, and you have a winning combination that's every bit as individual as the car itself.

Smarter driving tips

- **Drive at an appropriate speed:** Staying within the speed limit increases driver safety, reduces CO₂ emissions and saves fuel. At 70mph you could be using up to 9% more fuel than at 60mph and up to 15% more fuel than at 50mph
- **Drive smoothly at all times:** Anticipate the ebb and flow of the traffic to avoid harsh acceleration and braking
- **Reduce your revs:** Change gear earlier to help reduce fuel consumption – try 2500rpm with petrol engines and 2000rpm with diesel
- **Idling is wasting fuel:** If you're likely to be at a standstill for more than three minutes, switch off the engine to save fuel
- **Regularly check your tyre pressures:** Under inflated tyres increase CO₂ emissions whilst incorrectly inflated tyres can be unsafe. Always check your handbook for the correct tyre pressure. This will also help to increase the life of your tyres
- **Remove unnecessary items from the car:** Extra weight increases the engine's workload, whilst roof racks and bike carriers increase wind resistance. All burn more fuel and increase CO₂ emissions

1.4i 16v VVT Turbo 4X4	1879	1200 (500)
1.7CDTi 16v (130PS) FWD manual	1858	1200 (500)
1.7CDTi 16v (130PS) FWD automatic	1861	1200 (500)
1.7CDTi 16v (130PS) 4X4	1919	1200 (500)

FWD = Front-wheel drive.

Gross vehicle weight is the total permissible weight of the vehicle including passengers and their luggage. The **maximum roof rack loading** should not exceed 100kg. The **maximum towing weights** are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. At altitudes above 1500 metres, the engine output may drop with a corresponding reduction in towing capability. Any extra weight, such as luggage or additional passengers, should be deducted from the maximum towing weight. With a trailer fully loaded, **maximum noseweight** should not exceed 75kg. Always fit Vauxhall towing attachments and accessories available from your Vauxhall retailer. They are designed specifically for Vauxhall models and carry a 12-month guarantee.

Trust Vauxhall

Company Car Driver 3 Day Test Drive

Our free* 3 Day Test Drive programme is open to all Company Car Drivers which allows you to choose any model in the current Vauxhall line-up (excluding Ampera, all VXR models and Commercial Vehicles), with full insurance cover provided, to give you a meaningful length of time to make an informed decision about your next company car. Our tax efficient Tech Line models have been specifically developed for Company Car Drivers, see page 30 for more details.

To book your free* test drive just log on to www.vauxhall3dtd.co.uk or call **0870 240 4848****

Fleet Customer Services

Our dedicated support services for fleet decision makers include factory demonstrators and information on whole life costs, company car taxation and finance.

For further information please call **0870 010 0651**.

E10 Fuel

E10 fuel is cleared for use in all petrol-engined Vauxhall vehicles excluding models with the 2.2 litre direct injection petrol engine (code Z22YH) used in Vectra, Signum and Zafira models. Owners of these vehicles should continue to use regular unleaded or premium unleaded petrol.

Vauxhall Lifetime Warranty

We're so confident in Vauxhall quality and reliability that we are now able to offer a lifetime warranty. Available to the first owner of all new Vauxhall passenger cars, it's valid for the lifetime of the vehicle up to a maximum of 100,000 miles[†]. In addition, our warranty also includes Vauxhall Assistance for 12 months from first registration and six years body panel anti-perforation warranty. Full details of Vauxhall's warranties including terms, conditions and exclusions can be obtained through any authorised Vauxhall retailer or go to: www.vauxhall.co.uk/warranty

LIFETIME
WARRANTY 100,000 MILE

*The free 3 Day Test Drive programme is open to Company Car Drivers and excludes fuel and lubricants, congestion charges, parking and speeding fines and the £250 insurance excess (if applicable). It features a wide selection of models from the Vauxhall range (excluding Ampera, all VXR models and Commercial Vehicles and subject to availability). Drivers must be aged 25 years or over, have held a full driving licence for at least a year and hold a major credit card. You will need to have your driving licence (and proof of identity (i.e. passport) where the driving licence is not a photocard licence) when your car is delivered. While every effort will be made to ensure that at least 3 days are provided for the test drive, this cannot always be guaranteed due to delivery and collection dates and timings. Available for UK Mainland only. Terms and conditions apply. **Telephone lines open Monday-Friday 9.00am to 5.00pm excluding Bank Holidays. Calls may be recorded or monitored for quality and/or training purposes.

†Vauxhall Lifetime Warranty covers lifetime ownership of first car owner, 100,000 mile limit, annual check required. The warranty excludes wear and tear and serviceable items and the vehicle must be serviced in accordance with the manufacturer's servicing schedule to continue the lifetime warranty. Terms and conditions apply. Offer available to all Vauxhall passenger cars (this offer does not apply to car-derived vans) from 1st August 2010.

Every effort has been made to ensure that the contents of this publication were accurate and up-to-date at the time of going to press (June 2014). Vauxhall vehicles are equipped with components manufactured by various General Motors operating units and outside suppliers. The Company reserves the right to alter specifications and withdraw products from sale without notice. Any such alterations will be notified to Vauxhall retailers at the earliest opportunity, please consult your local retailer for the latest information. The specifications detailed within this brochure are not necessarily applicable to alternative models such as Special Editions. Details of any such models will be contained in specific literature or found on the Vauxhall website. Please note that Vauxhall retailers are not the agents of General Motors UK Limited and are not authorised to bind the Company by any specific or implied undertaking or representation. It is advisable to ensure that your motor insurance policy provides adequate cover for additional fitted options and accessories. Please note accessories shown are for illustrative purposes only. As part of Vauxhall's policy of environmental care, this brochure is printed on paper manufactured using Elemental Chlorine Free pulps from specially farmed, sustainable timber resources. All rights reserved. No part of this publication may be reproduced in any form or by any means, without the prior written permission of General Motors UK Limited.
