Proton EXORA

The latest addition of Exora sums up the enhancements we've made like the powerful 1.6L Turbo Engine in our Super Premium, Premium and Executive variant that gives you the performance of a 2.0L engine. The new Super Premium variant comes with bold and sporty styling, plus cool new features and gadgets to make your pulse racing - all part of our commitment to give you the best.

Exterior

New cladding implemented to enhance the bold look.**

The new 16" Sports Rims boast a sportier look.**

Rear smoked combi-lamps styled after sports cars.

Rear fog lamp to enhance visibility.*

Interior

Immerse yourself into the spacious cabin of Proton Exora. Built to celebrate great driving experience and togetherness, this beauty is also the beast.

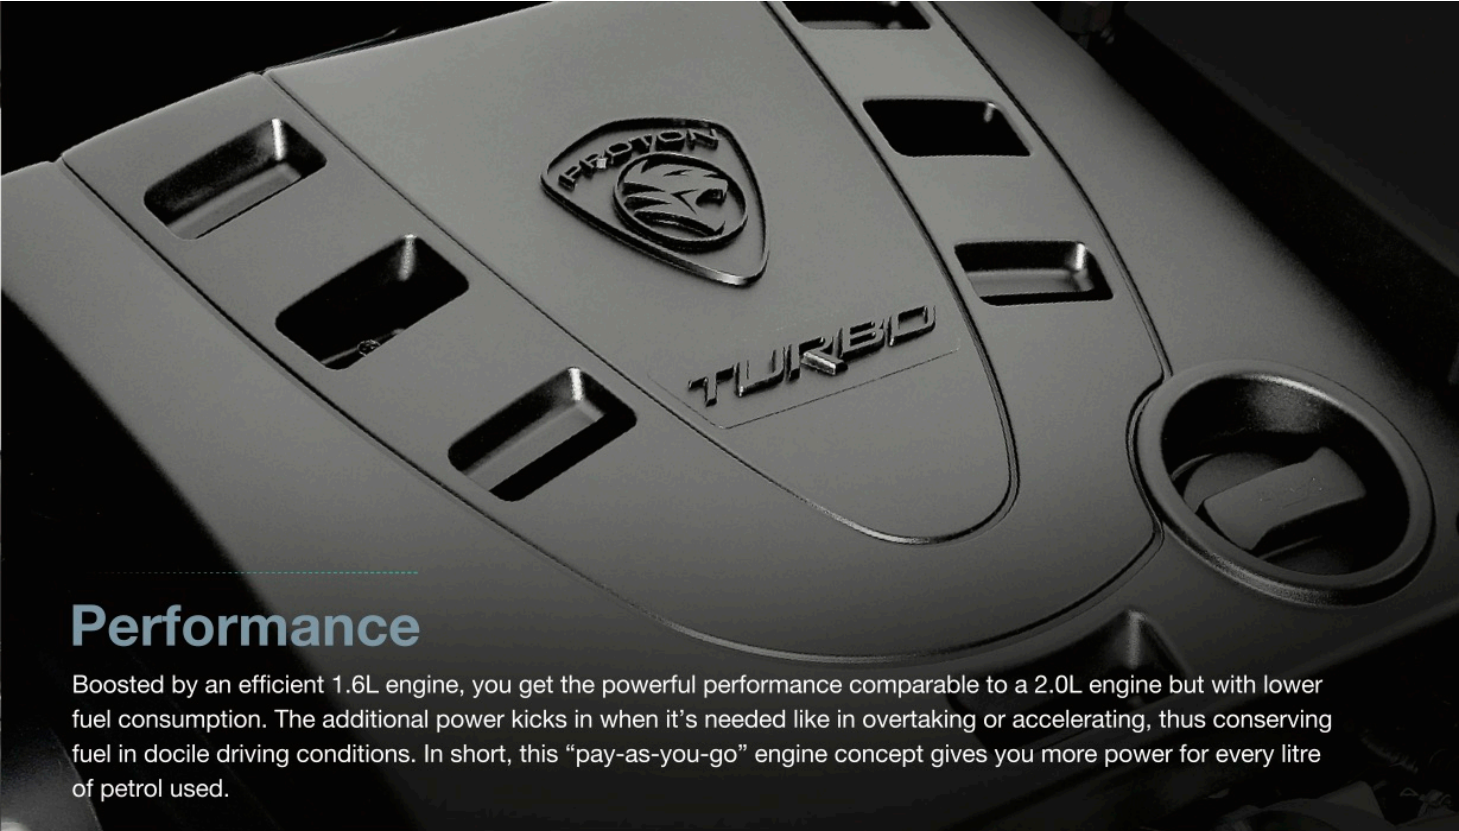

Luxurious leather seats*

The spacious rear cabin comfortably seats 5 adults

60-40 collapsible rear seats for more storage space

Performance

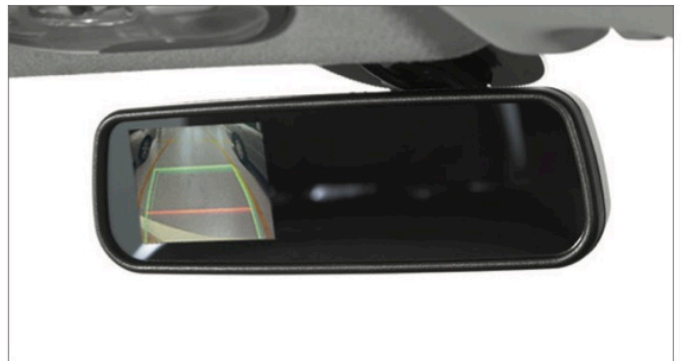

Boosted by an efficient 1.6L engine, you get the powerful performance comparable to a 2.0L engine but with lower fuel consumption. The additional power kicks in when it's needed like in overtaking or accelerating, thus conserving fuel in docile driving conditions. In short, this "pay-as-you-go" engine concept gives you more power for every litre of petrol used.

Convenience

Proton Exora comes fully equipped with a handful set of features to enhance your driving and traveling experience.

Bright and easy to read meter fascia provides clear driving info.

Reverse camera allows safer maneuvering when reversing.

Rear air-cond vents for complete cabin comfort.

Day Running Lights (DRL) to enhance vehicle visibility.*

Four SRS airbags protect the driver and passengers.*

Safety

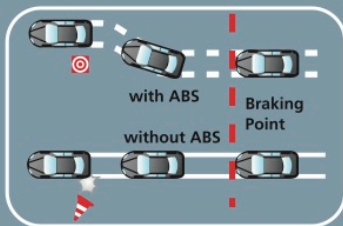

From the very beginning, Proton Exora is designed with safety as the foundation. It gives you more control over the vehicle braking systems such as ABS, EBD and ESC. Plus, Exora comes with airbags for those critical moments of need.

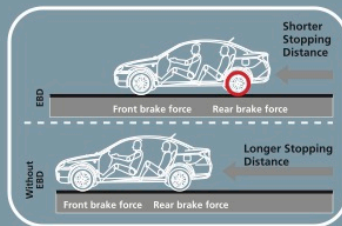

When it comes to safety, not all cars are equal. The Australasian New Car Assessment Program (ANCAP) has rated Exora with 4 star. It's proven! Your safety is our priority.

HIGH PERFORMANCE BRAKING

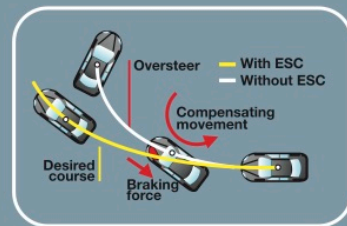

While the car boasts impressive acceleration, it is equally critical for it to stop quickly. It excels in this respect with its **Electronic Brake Distribution** and **Brake Assist** system.

ANTI-LOCK BRAKING SYSTEM

ELECTRONIC BRAKE DISTRIBUTION

ELECTRONIC STABILITY CONTROL WITH BRAKE ASSIST
