Safety

- ESP stability control system
- Automatic emergency braking system with collision warning
- Security alarm
- Lane keeping assist
- Extended traffic sign recognition
- Driver alertness monitoring
- 360° parking radar (front, rear and side)
- 180° reversing camera with dynamic guide lines
- Automatic headlights (dusk sensor)
- High beam assist
- Rain sensor
- Driver and front passenger airbags
- Front passenger airbag deactivation
- Front side airbags
- Full-length safety curtains in the cabin
- Three-point safety belts on all seats
- Height-adjustable head restraints on all seats
- ISOFIX anchorages for the car seat at the rear seat edge positions
- ISOFIX anchorages for the car seat in the front passenger seat
- Seat belt pre-tensioners in all seats
- Seat belt reminder in all seats

Exterior

- LED headlights
- LED daytime running lights
- LED rear lights
- Body-colored bumpers
- Black DLOs
- Chromed window sills
- Body colored door handles
- Black exterior mirror shells
- Black rear spoiler
- Tinted rear windows
- Electrically adjustable, heated and body-folding exterior mirrors
- Approach lights for exterior mirrors

Multimedia

- Uconnect infotainment and navigation system
- 10,25" touch screen
- USB C and USB A connector on the front
- USB C ports for rear passengers
- Wireless smartphone charging (Qi standard)
- Bluetooth mobile phone capability
- Apple CarPlay and Android Auto smartphone mirroring capability
- 6 speakers

Wheels and tires

- 18" Diamond Cut alloy wheels
- 215/55R18 tyres
- Tyre pressure monitoring system

-
-
-

Charging

- 11 kW on-board charger (AC)
- Mode 3 charging cable
- Charging and pre-heating/cooling control via touchscreen and Fiat mobile app

-
-
-

18" Diamond Cut

EXTERIOR AND INTERIOR

External color

- Sun of Italy (orange)
- Earth of Italy (beige)
- Sea of Italy (turquoise)
- Sky of Italy (mint)

Color code

- 572 (52T)
- 636 (3YS)
- 688 (52U)
- 959 (5DN)

TECHNICAL SPECIFICATIONS

MOTOR

54kWh 156hp Automatic

Type	Hybrid Synchronous Electric Motor (HSM)
Power, kW (hp) / rpm	115 (156) / 4 070 - 7 500
Torque, Nm / rpm	260 / 500 - 4 060
Battery type	Lithium-ion (Li-NMC)
Total capacity of high-voltage battery, kWh	54,0
Usable capacity of a high-voltage battery, kWh	51,0
Internal charger (AC), kW	11,0 3-phase
Charging plug	IEC 62196-2 (Type 2) & IEC 62196-3 (CCS)

TRANSMISSION

Type	Single speed reduction gearbox
Number of gears	1

BRAKES

Front	Disc brakes 302 X 26
Rear	Disc brakes 285 X 12

MASS

Kerb weight(kg)	1 595
Gross weight (kg)	2 025
Trailer mass, unbraked (kg)	0
Trailer mass, with brakes (kg)	0

PERFORMANCE

Top speed (km/h)	150
Acceleration 0-100 km/h (s)	9,0

CONSUMPTION AND EMISSIONS WLTP

Operating distance, km	406
Electricity consumption, combined kWh/ 100 km	15,2
CO ₂ emissions (g/km)	0

THEORETICAL CHARGING TIME*

Charging time 0-100 % (8A socket)	20 h 40 min
Charging time 0-100 % (Wallbox 3 x 16 A)	5 h 45 min
Charging time 0-80 % (100 kW DC fast charging)	27 min

* Charging times depend on a variety of factors, including outdoor temperature, battery temperature, voltage, charging equipment and cable, and battery and car condition. Charging times take into account a 10% charge loss.

DIMENSIONS

BODY

Length (mm)	4 171
Width (mm)	1 781
Width with exterior mirrors open (mm)	1 981
Height (mm)	1 523
Wheelbase (mm)	2 562
Front overhang (mm)	846
Rear overhang (mm)	763
Ground clearance (mm)	199

LUGGAGE

Luggage compartment volume with rear seat in normal position (l)	360
Luggage compartment volume with rear seat folded down (l)	1 231
Luggage compartment width between wheel arches (mm)	967
Height of the luggage compartment under the shelf (mm)	560

FIAT

500

The information contained in this brochure reflects the technical characteristics of the vehicle at the time of publication. Fiat reserves the right to change prices, specifications and equipment without prior notice.

The consumption figures for the car models have been measured by an independent test institute in accordance with EU legislation (WLTP). The consumption figures are intended for comparison between different car models. They are based on a measurement that simulates average driving and cannot accurately reflect the consumption of a car in traffic, depending on the case and driving style. The CO₂, mileage and consumption figures given in the price list and technical information are specific to each car unit and may vary. The CO₂ emissions, mileage or fuel consumption of a vehicle may also be affected by factory options. The certificate of conformity of the vehicle unit being traded includes the CO₂ value, the fuel consumption data and, in the case of electrified power lines, the electric range.

In practical driving situations, the energy or fuel consumption and operating distance of a car are influenced by factors such as the driver's driving style, driving speed, temperature, preheating, weather and driving conditions, loading, and maintenance carried out on the car. As a result, consumption and mileage may vary significantly from the declared values. For example, if the car is used at high speeds to tow a trailer or in cold winter conditions for short journeys without pre-heating, its consumption may be several times higher than the declared consumption.
