All-New SCENIC and GRAND SCENIC: the MPV reinvented

A world of opportunity. All-New SCENIC and GRAND SCENIC are packed with innovation to help you make the most of every moment. Clever design has created beautiful proportions whilst maximising space to stay true to the "Multi-Purpose Vehicle" concept. Furthermore, innovations in modularity make All-New SCENIC and GRAND SCENIC a flexible vehicle to live with every day. Top that with the latest safety and in-car technology and All-New SCENIC and GRAND SCENIC are ready for what life will bring.

Beautiful & clever design

Beautiful design with clever innovations are at the heart of All-New SCENIC and GRAND SCENIC. The unique 20" alloy wheels were inspired by the R-SPACE concept car and have been designed with a specific profile to provide low rolling resistance and promote fuel efficiency.

A striking two-tone paint finish† accentuates the sweeping roofline and windscreen of All-New SCENIC and GRAND SCENIC. Full LED headlights with Pure Vision* technology combine with highly distinctive C-shaped LED daytime running lights (DRLs) to give the vehicle a bold on road presence. To finish, Edge Light technology gives the tail lights a 3D effect, all for a truly recognisable lighting signature.

Family room

Created to maximise the well-being of passengers and driver alike, All-New SCENIC and GRAND SCENIC take the monospace concept to new levels. The passenger compartments are bathed in light thanks to a huge panoramic glass sunroof† to form a natural living space. Clever innovations make daily life easier, including One-Touch Folding‡, which makes it possible to lower the rear seats to obtain a flat floor by simply pressing the Renault R-LINK 2* touch screen (or using the boot controls). The rear bench seat (60:40 split), with its supportive seats, slides for optimal use of the passenger compartment.

Image shown is with 8.7" touchscreen - standard on Dynamique S Nav and Signature Nav versions.

A world of freedom

Comfortable, spacious, and configurable to your needs, the All-New GRAND SCENIC provides added flexible space. Its seven seats make it easy to travel as a family. The 60:40 split sliding bench seat in the second row and two seats in the third row are foldable using the One-Touch folding* control. With the second and third rows of seats folded flat, All-New GRAND SCENIC transforms to offer a cavernous load space.

*Standard from Dynamique S Nav and above.

Shared space

A clever sliding centre console* makes it possible to choose your own interior configuration: in the forward position the driver sits in a cockpit-type setup, or positioned further back a shared space for the entire family is created. For the front passengers, the sliding centre console is used as an armrest, whilst for rear passengers, a storage bin, two USB ports and a 12-volt socket make powering tablets easy – great for longer journeys!

*Standard from Dynamique Nav and above.

Useful technology

Welcome to the cockpit of the All-New SCENIC and GRAND SCENIC. The new multimedia R-LINK 2 system* is the centre point of the dashboard with its huge 8.7" screen**. Intuitive and responsive, it provides access to functions such as navigation, phone and MULTI-SENSE** (which offers a choice of five different driving modes and ambient lighting settings). A colour head-up display** completes the cockpit, updating the driver with key information such as speed and directions. And with your eyes on the road for longer, the colour head-up display promotes safer driving.

On-board intelligence

True pleasure requires peace of mind. All-New SCENIC and GRAND SCENIC offer the latest driver assistance technology because the safety of you and your family is paramount. Active Emergency Braking System (AEBS) with pedestrian detection, is a standard feature across the range. This system will apply the vehicle's brakes if a collision with a vehicle or pedestrian is detected (subject to certain parameters). The Fatigue Alert* monitors your driving inputs and notifies you when it is time to take a break. Lane-Keeping Assist (LKA)** corrects the steering if your vehicle makes an unplanned move out of lane.

*Standard from Dynamique Nav. **Optional as part of the Safety Pack and Safety Pack Premium.

Driver assistance

All-New SCENIC and GRAND SCENIC feature useful technology as standard that can be enjoyed everyday. Hill Start Assist makes pulling away on an incline much easier. The Visio system packs in automatic high/low beam, traffic sign recognition plus lane departure warning. The technologies below are offered to further enhance your All-New SCENIC and GRAND SCENIC.

Fatigue detection alert¹

With its trajectory analysis system, the All-New Renault SCENIC detects any anomaly linked to fatigue and informs you so that you know when it is time to take a break.

Adaptive Cruise Control (ACC)³

Keep a safe distance from the vehicle in front of you. The adaptive cruise control automatically adjusts the set speed to maintain a safe distance.

Hands Free Parking²

Parallel, perpendicular, and angled parking will all be fun from now on! With its 360 degree sensors, the Hands Free Parking system measures the available space before providing steering guidance during manoeuvres.

Blind Spot Warning⁴

Sensors mounted in the front and rear bumpers help to detect vehicles in your blind spot. If a vehicle is detected, an orange light will appear in the door mirror.

1. Standard from Dynamique Nav and above. 2. Part of Parking Pack Premium, available as an option from Dynamique S Nav and above. 3. Available as part of the Safety Pack Premium. Optional on Dynamique S Nav and above (not available on petrol and dCi 110 HYBRID ASSIST versions). 4. Part of Parking Pack Premium, available as an option from Dynamique S Nav and above.

Storage space

All-New SCENIC and GRAND SCENIC feature handy storage throughout the cabin - 56.9* litres to be exact!
With everything you need ready to hand, you'll always be prepared.

*Standard from Dynamique Nav and above.

Driving sensations

You want your car to match your mood, one day feeling sporty and the next hoping to be relaxed. With the MULTI-SENSE* ambient lighting and driving mode selector you can change the All-New SCENIC's setup to match your mood. By pressing the MULTI-SENSE* button on the central console, access a choice of five different modes: Neutral, Sport, Comfort, Perso and Eco. MULTI-SENSE* modifies engine response, accelerator sensitivity, the speed of gear changes, steering weight, air conditioning power, engine sound, and ambient lighting! From sepia to red or blue through to purple, or green, the ambient lighting accents the doors, the instrument panel and the R-LINK 2* screen beautifully. And with the Perso mode choose a setup which you configure.

Bose® Surround sound*

Bose® and Renault engineers worked together to create custom surround sound for All-New SCENIC and GRAND SCENIC. 11 high-performance speakers, ideally positioned in the passenger compartment, transform All-New SCENIC and GRAND SCENIC into a huge theatre. Thanks to the front central speaker, voices and instruments are crisp and clear. The Bose® Surround technology gives the sound experience a totally unique and immersive dimension.

*Part of BOSE® Pack, optional for Dynamique S Nav and Signature Nav versions. Standard with dCi 160 Auto EDC variants.

Modular

True champions of smart storage, All-New SCENIC and GRAND SCENIC offer many practical spaces. For example, the sliding centre console[^] and under-floor compartment let you discreetly store items out of sight. Then there's the One-Touch folding¹ that lets you fold the rear seats into a flat floor to make large loads easy.

A diverse selection

Energy TCe 130 petrol engine

Flexible and responsive from low speeds, the ENERGY TCe 130 offers fuel efficiency and driving pleasure.

dCi 160 Auto EDC

Responsiveness, power, and refinement are key characteristics of the Twin Turbo 160hp engine. The dual-clutch, six-speed Auto EDC transmission optimises driving pleasure. The driving sensation is dynamic, fluid, and efficient.

dCi 130

A great blend of performance and fuel economy. With 320Nm torque, the dCi 130 has plenty of pulling power for driving pleasure, yet is efficient for day to day driving.

ENERGY dCi 110

Flexible, efficient and refined. The dCi 110 diesel engine is a great choice for fuel efficient everyday motoring.

ENERGY dCi 110 HYBRID ASSIST

For the ultimate in fuel efficiency in the All-New SCENIC range Renault offers the dCi 110 HYBRID ASSIST. The 10 kW electric motor aids the dCi 110 diesel engine under acceleration to improve fuel economy. Under braking or deceleration the electric motor acts as a generator to recover energy and charge a battery located to the rear of the vehicle, ready to be used when accelerating.

* Official fuel consumption figures are produced for comparison purposes and are measured according to the European Regulation 692/2008 and may not reflect real life driving results. These figures are specific for a vehicle type and not for a single car. Real world fuel (actual) consumption can vary as the fuel efficiency of a vehicle is influenced by driving behaviour, weather and road conditions. The use of technical equipment for example air conditioning, can also effect the fuel consumption. For further information, please visit the Vehicle Certification Agency web site www.vca.gov.uk.
