RENAULT ARKANA

like no other

Renault Arkana is a design sensation like no other. With a sloping coupé roof line, muscular shoulders, and an elevated SUV stance, Arkana doesn't compromise on style.

Let yourself be captivated by this new approach to the SUV.

sportiness embodied

The front end boasts power and elegance. At the rear, the twin black exhaust tips[1] emphasise its dynamic character.

The glossy black chrome-finish grille with unstructured diamonds creates a unique personality.

With a motorsport inspired aerodynamic blade in gun metal grey[1], glossy black detailing and 19'' 'elixir' two-tone alloy wheels[1], emotion is ever-present.

immersive pleasure

Arkana offers a truly sensuous interior. The mixed suede-style and leatherette upholstery(1) with contrast stitching and heated(1) steering wheel provide a luxurious drive.

The esprit Alpine version exudes sportiness with its dark slate-look trim and Alpine blue highlights throughout the cabin.

Multi-sense(2) technology bathes the cabin in any of the 8 ambient lighting colour options you choose, and the sunroof(3) adds plenty of natural light.

The Bose® premium sound system(1) offers a high-quality listening experience. With 8 speakers and a subwoofer, you can be truly immersed in your playlist.

generous interior space

With a capacity of 485 litres, Arkana boasts an expansive boot volume. The split-level floor gives you the best of both worlds, it can be placed in the low position to maximise loading capacity, or in the high position to provide a flat floor.

The rear bench seat offers generous leg and knee room and can be folded down in 2/3-1/3 configurations. The practicality does not end here, though, with plenty of clever storage spaces throughout the cabin this SUV coupé is extremely easy to live with.

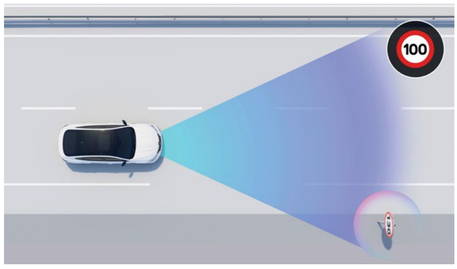
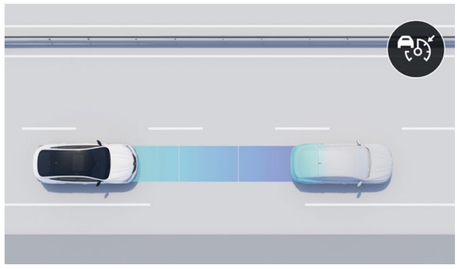
advanced driver assistance systems

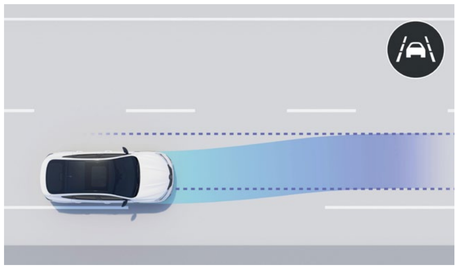
Renault Arkana is equipped with a suite of advanced driver assistance systems, contributing to Arkana being awarded the maximum 5-star ANCAP safety rating.



traffic sign recognition
This system recognises speed signs and tells you the speed limit via the instrument cluster. The icon will flash as a warning if the speed limit is exceeded.



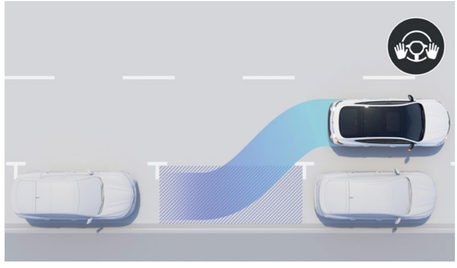
adaptive cruise control
This system maintains a safe following distance from the vehicle in front. In heavy traffic, your vehicle comes to a complete stop and accelerates when the vehicle in front starts moving again.



lane keep assist and lane centering
When activated(1), this applies a correction in the steering wheel to bring your vehicle back into its lane if you cross a continuous or broken line without using your indicator.

active emergency braking system
This detects obstacles such as vehicles, pedestrians or cyclists in front of your vehicle, warns you and will automatically perform emergency braking if you do not.

360-degree camera(2)
Full visibillity of your surroundings when parking or maneuvering in tight spaces with a birds-eye view of your vehicle, generated using its 4 on-board cameras.



easy park assist
Parking has never been easier. This system perfectly steers your vehicle into a nominated parking space while you select the gears and control the accelerator and brake pedals.

(1) lane keep assist can be activated from 70km/h to 160km/h, lane centering can be activated if adaptive cruise control is engaged.
