

TATA MOTORS

nano

THE TATA NANO ISN'T JUST A CAR; IT'S A MILESTONE IN AUTOMOTIVE HISTORY. ICONIC, AFFORDABLE AND HIGHLY DESIRABLE, IT'S A CAR FOR EVERYONE. BIG IDEAS LURK IN THIS SMART LITTLE LOVABLE CAR.

PEDIGREE

The Nano is incredibly charming. Its remarkable design is as much a style statement as it's a result of intelligent engineering. The Nano allows room for expression with ten exciting colours and two choices of dual-tone interiors. After all, isn't your car an extension of your personality?

AMAZING COMFORT

The Nano's interiors boast of generous amounts of space: one of its greatest achievements. It fits four full-size adults with room to spare. The doors open wide and the high natural seating positions make sure you don't strain your knees while getting in and out. A 4-metre turning radius and large glass surfaces make the Nano an obvious choice for high congestion environments like inner cities.

↑ A SURPRISE UNDER THE HOOD

Like some of history's most iconic cars, the Nano's engine is cleverly placed behind the rear seat. It punches way above its class with an engine designed to deliver 38PS of power. Thanks to its lightness, the Nano is quite a rocket in the city. With emissions as low as 92.7 grams per kilometer, chances are the Nano is amongst the most eco-friendly and fuel-efficient cars you can buy right now.

↑ REASSURINGLY SAFE

The Nano's cute exteriors belie the fact that it's rock solid. Hardly surprising, as it is designed to meet modern crash safety norms. With excellent stability and quick-response braking systems, the Nano holds its own on any highway. On city roads, a steering system and an anti-roll bar reduce driver effort to enhance the Nano's maneuverability and overall drive quality. The 180 mm ground clearance tackles potholes with ease and allows parking on the curb, should you choose to.

SPECIFICATIONS

ENGINE, DRIVETRAIN & CHASSIS

Type	624 cc, 2 Cylinder, MPFI
Max. Engine Power (kW/PS@rpm)	28/38@5500 +/- 250
Maximum Torque (Nm@rpm)	51@4000 +/- 500
Top Speed (kmph)	105
Gradability	30%
