J A G U A R

THE ART OF PERFORMANCE

Beyond the beauty of the Jaguar XK Series is far more than meets the eye. You'll understand as soon as you turn the ignition key, and hear the voice of the 4.0 litre V8 engine.

Discover performance of a different kind. Where power is effortlessly controlled, and delivered with refinement. Where the ride comfort lets you cross continents with ease. And where every detail of the interior makes you want to look, touch, feel and enjoy. XK Series. Come to your senses.

JAGUAR XK8

THE LOOKS DON'T DECEIVE

Fresh styling detail front and rear and a new style of optional 18" wheel make the XK Series still more alluring. Re-styled interiors allow you to express your preference for classic luxury or sporting intensity. For comfort, the new front seats have 12-way adjustment, including the head restraints.

Major engineering developments underline Jaguar's reputation for safety. With intelligent technology working to protect you and your passengers; and a body that is now even stronger, as well as more beautiful.

NEW DEVELOPMENTS

- Flush fitting front foglamps; re-designed front bumper and grille
- 'Jewel' tail lamps with chrome surround; re-designed rear bumper; embossed chrome boot lid plinth
- 'Impeller' 18" alloy wheel (option)
- New seats
- Interior 'mood' lighting
- 12-way electric adjustment for front seats; all leather seat trim
- Adaptive Restraint Technology System (A.R.T.S.)
 - Front seat mounted head and thorax side airbags
 - Enhanced high speed crash performance

XK8 CONVERTIBLE

FREEDOM OF EXPRESSION

The XK8 Convertible's dual personality lets you express your own. Press the roof switch, and less than 20 seconds later there's nothing between you and the sky. If rain threatens, you can operate the hood at up to 10 mph (15 kph). And with the hood closed, it feels as refined as the Coupé.

XK8 CONVERTIBLE

XK8 COUPE

THE PLEASURES OF SECLUSION

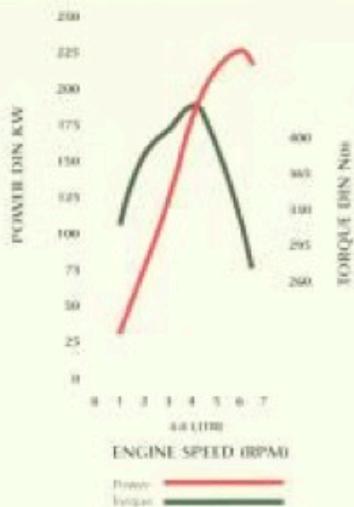

The intimacy of the XK8 Coupé interior lets you focus entirely on the driving experience. Controls come to hand like second nature, creating an involving dialogue between driver and car. In an atmosphere intensified by the tactile qualities of wood and leather, you're comfortably secluded from the outside world. And free to drive for the fun of it.

XK8 COUPE

JAGUAR
POWER WITH CONTROL

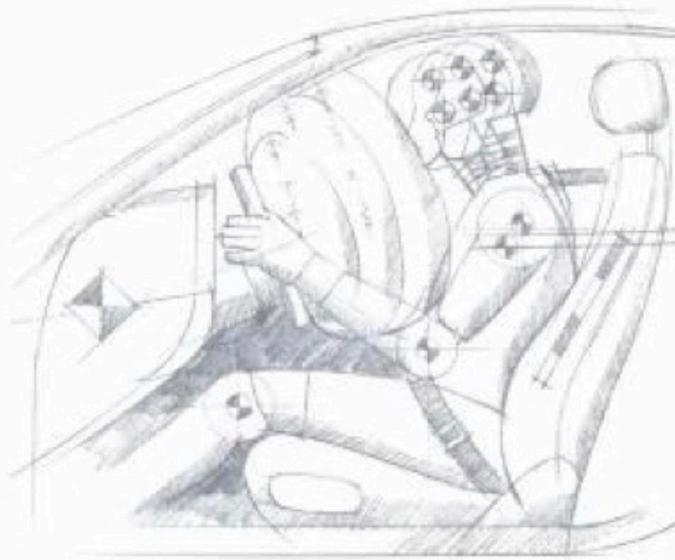

XK8

ABS PLUS
STABILITY CONTROL/
TRACTION CONTROL
ADAPTIVE CRUISE CONTROL
CATS SUSPENSION

Advanced technology with a purpose. Adaptive cruise control uses a microwave radar sensor to maintain a set distance from the vehicle in front. Stability control and traction control maintain grip. ABS Plus

enhances stability during high speed braking. Jaguar's Computer Active Technology Suspension (CATS) gives outstanding roadholding and ride comfort under all conditions.

J A G U A R

ADAPTIVE RESTRAINT

TECHNOLOGY SYSTEM (A.R.T.S.)

The XK Series' new Adaptive Restraint Technology System (A.R.T.S.) optimises the safe activation of the airbags.

The Advanced Occupancy Sensing System employs new ultrasonic technology to determine the airbag

energy levels most appropriate to the individual occupants during a frontal crash.

New front seat mounted side airbags help protect in a severe side impact. Seat belt comfort is also enhanced.

To guide you with ease to your destination, an advanced, fully integrated navigation system is optional with the XK Series.

The system uses Digital Versatile Discs, storing approximately 8 times the data of conventional CD ROMs; allowing you to travel long distance without having to change discs.

The navigation system is operated by controls either side of the screen, including a 4-way cursor. Route setting options include selecting from recent destinations, to minimise the amount of data entry.

- Route calculation includes the options of minimising time, choosing the shortest distance, or avoiding motorways.
- Voice guidance is combined with visual map and turning information.
- If you miss a turn, the re-route option quickly puts you back on track.
- You can vary the level of detail of voice prompts, and change the screen display mode to show the whole route or a detailed view.

The new Dual band fixed telephone system has an 8 watt output for clarity and excellent overall call quality. Dual bands let you use not only Cellnet and Vodafone but also Orange and One2One.

Enhanced frequency filtering gives clear hands free reception. Other useful features are dictaphone capabilities, and voice activation for memory recall - you just say the name to get connected. The Jaguar system can be used with multi SIM when it is available.

TECHNOLOGY WITHIN
FREEDOM TO EXPLORE
AND COMMUNICATE

CLASSIC

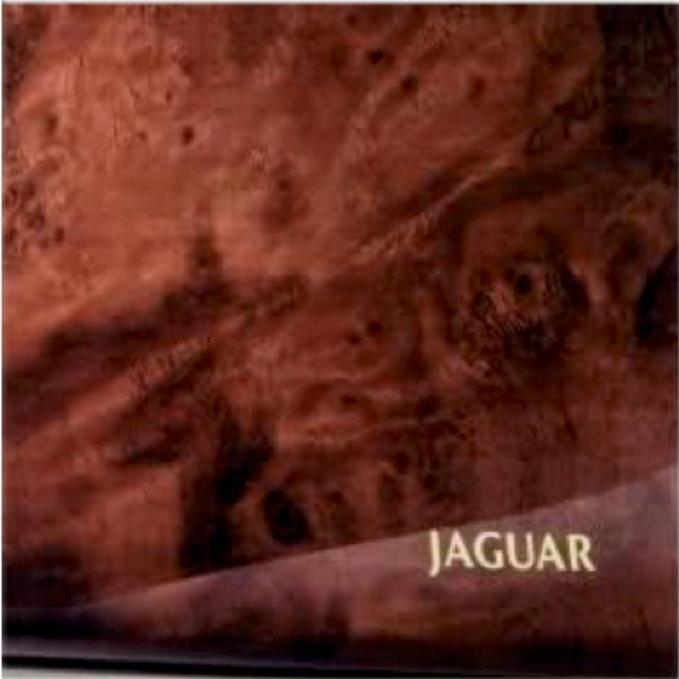

A HINT OF TRADITION

Luxuriate in the comfort of re-designed seats, which also have a full leather trim as standard.

The XK8 style features classic vertical flutes, with the more focused Sport seats as an option.

With full 12-way adjustment for driver and front passenger, including the head restraints and improved independent front and rear height rise function you'll feel perfectly at home.

XK8 Engine – AJ-V8 4.0 litre. 90 degree V8, 32 valve, quad camshaft, all aluminium lightweight unit. Innovative air inlet manifold, close-coupled catalytic converters, bespoke engine management system. Programmable continuous variable cam phasing (VCP). Dual tipped platinum spark plugs.

XKR Engine – AJ-V8 4.0 litre supercharged. 90 degree V8, 32 valve, quad camshaft, all aluminium lightweight unit. Innovative air inlet manifold, close-coupled catalytic converters, bespoke engine management system. Dual tipped platinum spark plugs.

XK Series Transmission – Electronically controlled, intelligent, five-speed automatic transmission featuring wide gear ratio spread, overdrive top gear and advanced low-inertia torque converter. Maintenance-free design. Gearshift-interlock protection feature. 'J' gate gear selector facilitating automatic and manual selection. Sport and normal selection.

Braking System – Vacuum assisted 4 wheel disc brakes ventilated at front and rear. 4 wheel sensing anti-lock braking system with yaw control. Safety split front and rear circuits with fluid level and anti-lock failure warning. Hand operated mechanical parking brake on rear wheels.

Steering – Rack and pinion variable ratio speed related power assisted steering with 2.8 turns lock to lock. Energy absorbing steering column with tilt and axial adjustment and airbag steering wheel. Turning circle 36 ft 2 in (11.0 metres).

Front Suspension – Fully independent with unequal length upper and lower wishbones mounted to fully isolated front crossbeam. Arranged to provide anti-dive effect under braking. Steel coil springs, telescopic dampers, (adaptive on XKR) and anti-roll bar.

Rear Suspension – Fully independent double wishbone type system incorporating driveshafts acting as upper links. Wishbones designed for anti-squat and anti-lift under acceleration and braking. Concentric steel coil springs and dampers, (adaptive on XKR). Rear anti-roll bar.

Body Construction – All steel monocoque construction with front and rear crumple zones including front crush tubes. Wrap around protective bumpers. Drag co-efficient 0.35/0.36.

Paint and Protection – Box sections and closed members hot wax injected. Cathodic electro-coat. Clear over base water-borne paint process with automated electrostatic application of primer/sealer and clear coats. Colour matched primer coat. PVC underseal. 65% zinc coated body panels by area.

*The fuel economy figures were obtained in tests carried out in line with the Passenger Car Fuel Consumption Amendment Order 1996. These figures were correct at the time of going to press.

**Please consult your dealer for details of changes associated with option fitment. Kerb weights reflect vehicles to standard specifications. Optional extras increase weight.
