THE XF

SPORTS SALOON CAR

Sleek, dynamic, daring, the XF fuses the awe-inspiring power of a sports car with the outstanding comfort of a luxury saloon. A driving force in engineering and innovation, the XF has proved itself the game-changer in the world of automotive design. It combines Jaguar's renowned flair for style and luxury with a genius for technological innovation, setting the standard that other sports saloons can only aspire to.

With the XF, Jaguar delivers tomorrow's car today. Designed and tested in Jaguar's exclusive Virtual Reality design studios using the most advanced automotive simulators in the world, model development time for the XF has been dramatically reduced. This enables the XF to incorporate the very latest cutting-edge technology as well as the most contemporary styling and efficient aerodynamic modelling.

EFFICIENT DESIGN

With its bold, bi-function HID Xenon headlamps outlined with crystal white LED daytime running lamps and its muscular bearing, the XF makes a statement of formidable intent. Its flowing lines and primed, nose-down attitude are more than an athletic pose, they have been precision-honed through exhaustive design testing to perfect the XF's air flow efficiency. Each line in the XF's architecture has been refined to help it produce an unsurpassed aerodynamic performance, reducing fuel consumption and emissions. Beautiful, intense, potent; first the XF captures your imagination and then your heart.

EXPANDING THE RANGE

In a class of its own, the XF is available with three distinct identities. Each one exudes contemporary sporting elegance and refined power. For an even more assertive look the XF Diesel S model is enhanced with aerodynamic features including a restyled front bumper as well as sculpted lower air intake blades, a restyled rear valance and distinctive side sill extensions. Then, with the XFR, Jaguar delivers the ultimate sports saloon embodied in its more aggressive bearing, sculpted front air intakes, gloss black lower valance and roaring quad exhausts.

Scan to view the
XF brand film

PURE PERFORMANCE

For the ultimate in performance, the XFR takes the XF to another dimension. With a blistering acceleration of 0-60mph in 4.7 seconds (0-100km/h in 4.9 seconds) the XFR intensifies the sporting experience without compromising any of the comfort. Beneath the expanded bonnet is Jaguar's acclaimed 5.0 AJ-V8 GEN III supercharged engine. This all-aluminium quad-cam powerplant delivers exhilarating performance. Its incredible 625Nm torque is provided by Jaguar's ground-breaking Cam Profile Switching system constantly optimising volumetric efficiency whatever the load or speed. The XFR delivers the sublime luxury of a saloon with the muscle of a thoroughbred champion.

CRAFTED INTERIOR

To step into the XF is to take your seat in a theatre of luxury and delight. The exquisitely crafted interior greets you with form hugging supple leathers, classic real wood veneers and crisp contemporary aluminium surfaces. Minimal sweeping lines give the cabin an airy contemporary elegance as every aspect is ergonomically tailored to fit its audience. The XF greets you with an enticing solitary pulsating red 'start' button, ringed in glinting chrome. Engaging the engine initiates the drama - the XF wakes, the performance begins. Even as you lift your finger, the XF's precision rounded aluminium JaguarDrive Selector™ rises snugly into the palm of your hand. The engine growls, almost imperceptibly, as the XF's air vents decisively roll open in unison and cool Phosphor blue lighting ignites to pick out the interior controls. Welcome to the show.

CONNECTIVITY ON THE MOVE

With its array of music, information and up to 17 speakers, the XF cabin is an entire entertainment venue on the move. A Touch-screen in the centre console not only controls climate and navigation data, it also offers a host of audio selections, providing exactly what you want to hear precisely when you want to hear it. Music is stored and instantly served by a Virtual Multichanger that plays audio in an uncompressed format from a 30GB hard disk. Uncompressed files result in no loss of high or low-end frequencies which means that they can be recreated as was intended on the original recording. The Portable Audio Interface allows easy connection of devices such as iPod and MP3 players, as well as Bluetooth® audio streaming connectivity with menus conveniently displayed on-screen. The Touch-screen system is designed to complement Jaguar's design philosophy - simple and intuitive. And beyond the buttons, for a hands-free experience: the system can also be completely operated by an optional interactive 'Say What You See' voice control system where the screen simply prompts you so that you are never lost for commands.

BOWERS & WILKINS

In creating a driving experience that surpasses all others, nothing but the highest fidelity sound system will suffice. The XF offers an option of three different audio systems including the astonishing, precision engineered, Bowers & Wilkins surround sound system. Acoustically designed exclusively for the unique soundscape of the XF's cabin, it delivers 1200W of pure sound through 17 strategically positioned speakers. Combined with the exceptional clarity of the Audyssey MultEQ® audio tuning system, the car provides a truly outstanding soundtrack for every road, for every occasion.

S T O P S T A R T

With the XF, Jaguar introduces the cutting-edge 2.2 AJ i4D Turbo Diesel engine. The precision crafted engine is the world's first Executive Saloon automatic diesel engine to incorporate Intelligent stop/start technology, lowering fuel consumption by shutting down the engine when the car is in standstill. However as soon as the brake pedal is released the XF's dedicated restart timing enables the engine to be fully operational, ready to go, before the accelerator is even pressed. The 2.2D XF is Jaguar's most fuel efficient vehicle. Even with its improved fuel economy, the XF's diesel engine makes no compromises in performance. Cooled with a variable-nozzle water system, the 2.2 is able to operate with maximum effectiveness at a greater range of temperatures than conventional engines optimising power at high speed and response torque at low speed.

FOUR CYLINDER 2.2 LITRE DIESEL
COMBINED FUEL CONSUMPTION
52.3 MPG

DIESEL ENGINE CHOICE

The XF comes with a choice of diesel engines to satisfy a range of priorities. These include the 2.2 Litre engine producing the lowest CO₂ emissions in the XF range without compromise to performance, the 3.0 Litre which delivers formidable torque and power or the 3.0 Litre S which is tuned to maximise performance.

8 SPEED AUTOMATIC TRANSMISSION

Jaguar's commitment to comfort and simplicity is embodied in the XF's outstanding transmission engineering. Its advanced ZF eight-speed automatic transmission delivers barely perceptible, velvet smooth, gear changes. The system continuously calculates the optimum moment to shift gear, reading the road and the driver's operating style, adapting appropriately to constantly optimise performance. Shifts are initiated in just 200 milliseconds - even faster than can be achieved by a professional driver.

What's more, the transmission can 'multi-downshift', for example from 5th to 2nd gear, rather than shifting sequentially as with a conventional system. For a more immediate power experience the driver can override the system with paddle shifts conveniently located behind the steering wheel.

For more extreme conditions special transmission programs can be selected with the JaguarDrive Control™: Sports Mode provides more responsive performance whereas Winter Mode automatically dampens the accelerator pedal response creating more gradual traction on ice. The system also softens the gear shifts to prevent sudden speed changes, increasing control when tyre grip is low in slippery conditions.

CONFIDENCE

To fully experience the XF's powerful performance, the driver is constantly assisted by the expertise of the car itself. The XF's revolutionary Adaptive Dynamics System continuously monitors the suspension, varying the damping to suit the conditions, whether cornering, navigating potholes or accelerating on the motorway. The system calculates the appropriate suspension response 500 times every second. Adjusting the dampers to help keep the car as flat, stable and secure as possible allows confident handling without any loss of ride comfort. On the XFR agility is further enhanced by an Active Differential Control which analyses the firmness of the road surface adjusting the differential of each wheel to constantly optimise traction, helping the vehicle to stick to the road on the tightest of bends during performance driving.

To increase driver satisfaction and feedback from the car, the XF's Servotronic steering adjusts the level of power assistance to the steering according to road speed. The result is reduced assistance and firmer steering as speed increases and more assistance at low speeds for easy manoeuvring.

With a body architecture designed to be one of the most rigid in its class, the XF provides outstanding road feedback. Its adaptive systems support the driver as the XF reaches more extreme situations, they assist but never overwhelm.

ACTIVE SAFETY

The XF's safety systems are anticipatory, utilising an array of technological features to be ready for almost anything and assist the driver in dealing with the unexpected. Bi-function HID Xenon headlamps provide a powerful pure light. They are available with Adaptive Front Lighting which reacts to the car's speed and driver input to deflect headlamp beams deep into corners during turns for extra confidence at night. Also available is intelligent high beam. This system automatically detects preceding or oncoming traffic or street lights to switch to low beam and then switches back to high beam when appropriate.

The XF features optional Adaptive Cruise Control which monitors vehicles around it, automatically slowing if the vehicle in front brakes then resuming the pre-set speed once the obstruction is cleared. During parking, an optional visual display and variable audio warning illustrate the proximity of other vehicles.

The Advanced Braking Systems help assure smooth stopping in wide ranging conditions and include an Intelligent Emergency Brake option with Adaptive Cruise Control which detects the severity of the stopping situation and applies optimum crisis braking forces as necessary.

8 AIRBAGS,

INCLUDING DRIVER AND FRONT PASSENGER THORAX PROTECTION,
SIDE CURTAINS FRONT AND REAR

UNDERLYING CONFIDENCE

Beneath the XF's aerodynamic lines is a tensile body, enveloping driver and passenger alike. Fortified to be the strongest in its class Jaguar has used the latest material technologies to forge the XF superstructure from lighter, stronger, more durable new generation metals including boron with high carbon, hot-formed, and bake-hardened steels.

The XF also helps protect those around the car. Should an impact with a pedestrian be unfortunate enough to occur, the XF's industry-leading Pedestrian Contact System instantaneously raises the bonnet by a short distance to cushion the casualty's body and to avoid contact with hard surfaces below the bonnet.

SUSTAINABILITY

The Jaguar future of full sustainability

At Jaguar, we take our responsibility to the environment very seriously indeed. We are committed to a reduction in our dependency on fossil fuels and the production of man-made CO₂ as well as using fewer natural resources and creating less waste. Our focus is both on the whole lifecycle environmental impact of the vehicles we manufacture and on our wider business process. This approach is defined by our carbon management strategy, which includes an industry-leading carbon offset programme, carbon footprinting and tough reduction targets for energy, waste and water consumption.

We are continuously striving to reinforce our sustainability strategy while still delivering the performance expected from every Jaguar car. The XF delivers improved performance from downsized engines. The latest XF 2.2 Litre Diesel with Intelligent Stop/Start, for example, is the most efficient Jaguar ever. It is also in the forefront of the use of lightweight components and technologies. What's more, the use of Dinamica (Suedecloth), a recycled material used in some models, helps to support a target to increase the use of sustainable materials by 25% by 2012. As a vehicle manufacturer as a whole we are also committed to reducing our vehicles' operating CO₂ emissions and our waste to landfill, both by 25% by 2012. And making a 10% reduction in water consumption, also by 2012. What's more, Jaguar is the only automotive company to offset 100% of manufacturing assembly CO₂ emissions to form part of the Jaguar Land Rover CO₂ offset programme.

DESIGNER'S CHOICE

The XF is designed and built to accommodate every owner's preferred expressions of identity and individuality. Every XF can be tailored to fit most personal preferences. Beyond the abundance of the model range, an entire spectrum of additional exterior and interior finishes, further colours and extra materials can be selected. Drawing their inspiration from a diverse range of palettes, meticulously co-ordinated combinations of colour and texture have been handpicked by Jaguar's designers. Athletic or elegant, classic or contemporary: the array of Designer's Choice options available with the XF is the perfect complement to an owner's character and distinctiveness.

JAGUAR

X F R A N G E

A DRIVING FORCE IN DESIGN

A driving force in design, engineering and innovation, the XF harnesses the breathtaking power of a sports car to the sublime pleasure of a world class luxury saloon. Whatever choice of model or options each individual customer makes, every XF epitomises Jaguar's pursuit of excellence and attention to detail. The following section provides in-depth descriptions and specifications of the entire XF range, with each model's main features and available options. It also gives a complete selection of exciting exterior finishes and premium interior trims, which offer further opportunities to make an XF even more individual and more personal.

DYNAMICS

Featuring Jaguar's Adaptive Dynamic System. As standard on the XFR.

Adaptive Dynamics is designed to sharpen and hone the already impressive handling agility of the XF. It delivers a superb balance between a comfortable, luxury car ride and hard edged sports car handling. The system analyses body movement, driver and road wheel inputs up to 500 times every second. Suspension settings are continuously adjusted to maintain a flat and level body and improve handling without loss of ride comfort.

OPTIONAL FEATURES

JET SUEDECLOTH PREMIUM HEADLINING

The added luxury of a Jet Suedecloth premium headlining is available as an option on 2.2 Portfolio, 3.0 Portfolio, Diesel S, 5.0 V8 Premium Luxury, 5.0 V8 Portfolio and the XFR models.

BLIND SPOT MONITOR

The Blind Spot Monitor uses side-mounted radar sensors to identify overtaking traffic and vehicles that cannot be seen in door mirrors or may be obscured. A bright amber warning icon illuminates in the appropriate door mirror when a hazard is detected to increase safety and driver awareness when changing lanes.

ADAPTIVE FRONT HEADLAMPS WITH INTELLIGENT HIGH BEAM

Sensors react to the car's speed, steering input and environmental light conditions and smoothly alter the power, direction and spread of the beams to maintain optimal coverage whatever the situation. Adaptive Front Lights reduce glare and instil greater confidence in dark conditions.

REVERSE PARK CAMERA WITH GUIDANCE

A real benefit when manoeuvring in confined spaces where vision may be obscured, the system displays images from a discreet rear-facing camera on the Touch-screen and features coloured distance guides. The system can set guidance lines that are updated as the driver turns the wheel to indicate the area into which the car will reverse.

OPTIONS

IMPROVE ON PERFECTION

Jaguar offers an unrivalled range of enhanced specifications and customised features to make every XF uniquely individual. The extensive array of hand-picked extras offers the very best in luxury and performance that every driver can expect in a Jaguar.

GLOSSARY

POWERTRAIN AND DRIVING DYNAMICS

ACTIVE DIFFERENTIAL

An electronically controlled, active differential with Handling Functionality that limits the slip between the rear wheels to optimise traction and stability in different driving conditions, working in harmony with the Traction, ABS and DSC systems.

ADAPTIVE DYNAMICS

Provides the optimum balance between low speed ride comfort and high speed handling precision, analysing body movement, steering and road wheel inputs up to 500 times a second and continuously adjusts the suspension settings through electronically controlled dampers.

DSC (DYNAMIC STABILITY CONTROL)

Intervenes in demanding driving situations by applying braking to individual wheels and reducing engine torque.

TRAC DSC MODE

Provides a higher intervention threshold for the more enthusiastic driver.

JAGUAR SEQUENTIAL SHIFT™

Provides the choice of Drive, Sport Automatic or Manual gearshift modes, with one touch paddles mounted behind the steering wheel to control gear changes up and down manually.

JAGUAR DRIVE CONTROL™

Interacts with the DSC (Dynamic Stability Control) engine and transmission management systems to change the characteristics of engine mapping, transmission shifts and brake interventions. It offers different modes selectable by a button to optimise the vehicle response depending on driving conditions and style.

WINTER MODE

Softens the responsiveness of the engine and modifies the gear change strategy to maintain optimum traction in icy or slippery conditions. The vehicle performs in a more gentle and controlled manner, allowing more confident progress. When active, Winter Mode selects 2nd gear for pulling away on level ground (no incline).

DYNAMIC MODE

Optimises vehicle systems to deliver a more involving driving experience. When selected, Trac DSC is automatically engaged, and engine torque delivery characteristics and gear shift points are modified to further improve responsiveness. When selected while the transmission is in full manual mode, transmission up-shifts are fully controlled by the driver, with no automatic up-shift when the rev limit is reached.

CRUISE CONTROL WITH AUTOMATIC SPEED LIMITER (ASL)

In tandem with cruise control, an Automatic Speed Limiter (ASL) allows the driver to select a maximum speed that should not be exceeded.

ADAPTIVE CRUISE CONTROL (ACC) WITH INTELLIGENT EMERGENCY BRAKE (IEB) AND ACTIVE SEAT BELTS

Uses microwave radar technology to monitor for slower moving traffic and can alert the driver to potential hazards ahead. Using the ACC radar, the system calculates distance and speed of approach to the vehicle in front and if a collision is unavoidable, the Intelligent Emergency Brake reduces vehicle impact speed by initiating an emergency brake manoeuvre. The system incorporates Active Seat Belts to reduce occupant displacement from the seat during the emergency braking manoeuvre.

EXTERIOR FEATURES

MIRROR PACK

Heated exterior mirrors with electric adjustment, power folding, approach lamps and auto-dimming exterior and interior rear view mirror.

REAR PARKING AID

Rear parking aid with Touch-screen visual indicator.

FRONT PARKING AID

Front parking aid with Touch-screen visual indicator.

REVERSE PARK CAMERA WITH GUIDANCE

Combines a rear-facing camera with the Touch-screen information, it features coloured distance guides and on-screen guidance lines that move according to steering wheel angle to indicate the area into which the car will reverse.

ADAPTIVE FRONT LIGHTING

Sensors react to the car's speed and steering input, and the system can deflect headlamp beams casting light deeper into the corners, and giving added confidence at night.

INTELLIGENT HIGH BEAM

When sensing preceding, oncoming traffic or street lights, the headlamps will automatically to low beam, maximising driver visibility and appropriate beam usage. The system automatically switches to high beam when the oncoming car has passed.

BLIND SPOT MONITOR

Uses radar sensors to remotely cover areas that cannot be seen either directly or by mirror, and alerts of overtaking traffic with an amber warning icon in the external mirrors.

INTERIOR FEATURES

JAGUARSENSE™

An electronic control system that operates the front overhead console lights by touch.

JAGUAR SMART KEY SYSTEM™ WITH KEYLESS ENTRY AND KEYLESS START

With the Jaguar Smart Key in your pocket or bag, the car automatically unlocks as you pull the door handle. Simply push the ignition button to start the engine. Upon leaving, simply press a button on the door handle to lock the car or use the Jaguar Smart Key.

INTELLIGENT STOP/START

Stop/Start is a technology that stops the engine when it is not needed, improving the fuel economy and reducing the car's CO₂ emissions. The engine will restart immediately as soon as the driver foot comes off the brake pedal. The engine will be operating at full capacity before the driver's foot has touched the accelerator pedal.

DUAL ZONE CLIMATE CONTROL

With humidity control, air filtration and dual temperature control for driver and passenger.

AUTO RECIRCULATION – CLIMATE CONTROL

Automatic cabin air recirculation triggered by external odour sensor with 5 sensitivity settings.

SEATS (4/4 WAY)

Driver and passenger electric adjustment including recline and height.

SEATS (6/6 WAY)

Driver and passenger electric adjustment including fore/aft, recline and height. Memory function optional.

SEATS (10/6 WAY)

Driver's electric adjustment including fore/aft, height, recline, cushion tilt, 2-way lumbar support, and passenger's electric adjustment including fore/aft, height, and recline. Also includes memory function.

SEATS (12/12 WAY)

Driver and passenger electric adjustment including fore/aft, height, recline, cushion tilt and 4-way lumbar support.

SEATS (16/12 WAY)

Driver's electric adjustment including fore/aft, height, cushion tilt, recline, headrest height, 4-way lumbar support, cushion length and passenger's electric adjustment including fore/aft, height, cushion tilt, recline, and 4-way lumbar support. Also includes memory function.

SEATS (18/18 WAY)

Driver and passenger electric adjustment including fore/aft, height, recline, cushion tilt, cushion length, 4-way lumbar support, headrest height and adjustable side bolsters.

MEMORY FUNCTION

2 settings for driver's seat, exterior mirrors and steering column.

SAFETY AND SECURITY

JAGUAR TYRE REPAIR SYSTEM⁽¹⁾

Provides an electric pump and a canister of sealant to enable a temporary repair and re-inflation for a puncture of up to 6mm diameter in the tread area of the tyre, but not in the tyre walls.

PEDESTRIAN CONTACT SENSING™

Automatically deployable bonnet system. Industry-leading system that senses an impact between a pedestrian and the front of the car, it instantaneously raises the bonnet through a small distance in a very controlled way, to help prevent the pedestrian from contacting hard points under the bonnet.

MULTIMEDIA

NAVIGATION SYSTEM WITH HDD MAPPING⁽²⁾

With front DVD and virtual multi-changer HDD based system, providing faster access to data including postcode entry, destination entry on the move, voice guidance, voice control input, RDS and TMC (Traffic Messaging Channel)/Dynamic Route Guidance, accessed through Touch-screen control system. The navigation system also includes a front DVD capable of playing video and audio. File formats include Windows Media Audio (WMA), AAC and MP3. In addition there is a virtual multi-changer that uses the hard disc drive (HDD) for storage of up to 10 CDs of uncompressed music.

WINDOWS MEDIA AUDIO (WMA) AND MP3 COMPATIBILITY

Enables the CD player to play CDs which contain WMA and MP3 files.

BLUETOOTH® AUDIO STREAMING⁽³⁾

A Bluetooth® equipped Jaguar enables hands-free use of your mobile phone at any time when the phone is in the car, through the Touch-screen. Bluetooth® also provides the ability to stream audio content, and full function control enables easy track selection. Bluetooth® is compatible with a selected range of mobile phones from most manufacturers, including Apple, Blackberry and HTC - ask your local Jaguar dealer or visit jaguar.co.uk for more details.

INTERACTIVE VOICE™

Uses 'Say What You See' technology to guide the user to the correct commands for voice control of audio, Bluetooth® audio streaming and navigation. When in operation, as well as audio prompts, all commands appear on the Touch-screen.

FRONT MEDIA INTERFACE⁽⁴⁾

Allows the connection of an iPod, MP3 player or a USB Mass Storage Device to the in-car sound system and control via the 7 inch colour Touch-screen.

TRAFFIC MESSAGE CHANNEL (TMC)

A specific application of the FM Radio Data System (RDS) used for broadcasting real-time traffic and weather information. Data messages are received silently and decoded by a TMC-equipped car radio or navigation system, and delivered to the driver in a variety of ways. The most common of these is a TMC-enabled navigation system that can offer dynamic route guidance, alerting the driver of a problem on the planned route and calculating an alternative route to avoid the incident.

7 INCH COLOUR TOUCH-SCREEN

With controls for audio, climate control, Bluetooth® audio streaming (where fitted) and Navigation (where fitted).

JAGUAR 400W SOUND SYSTEM

400W system with AM/FM radio featuring EON, RDS, PTY, TA and single slot CD with automatic volume control, MP3 compatibility and 10 speakers.

JAGUAR 600W PREMIUM SOUND SYSTEM

With AM/FM radio featuring EON, RDS, PTY, TA and single slot CD with automatic volume control, MP3 compatibility and 11 speakers including subwoofer.

BOWERS & WILKINS 1200W PREMIUM SOUND SYSTEM

With AM/FM radio featuring EON, RDS, PTY, TA and single-slot CD with automatic volume control, MP3 compatibility, a remote amplifier with Dolby® Pro Logic® II Surround Sound and 17 speakers including subwoofer.

EXTERIOR THEMES

DIESEL S EXTERIOR THEME

Restyled front bumper with black grille, side sill extensions, rear boot lid spoiler, sculpted lower air intake blades, restyled valance and S badging on boot lid.

R EXTERIOR THEME

Unique deeper section front bumper with larger lower air intakes, black mesh grille, side sill extensions, aerodynamic boot lid spoiler, gloss black sculpted rear valance with three vanes and quad exhaust tailpipes. 'Supercharged' embossed bonnet louvres for additional cooling. Silver-grey brake calipers with Jaguar script and R badge on boot lid and front grille.

BLACK PACK

The Black Pack consists of a high gloss black finish to the window surround, front grille and surround, bumper aperture inserts, body coloured rear signature blade and a painted rear bumper lower valance* (*available on XFR only).

INTERIOR THEMES

R INTERIOR THEME

Unique sport themed interior incorporating a dark mesh aluminium finish on instrument panel and doors, Dark Oak veneer, Warm Charcoal upper fascia and lower environment with contrast stitching and carpet mat edge binding (colour dependent on seat colour). Sports seats with embossed R logo (front and rear); R badging on steering wheel and instrument panel; instrument cluster dials with red pointers.

WHEEL SPECIFICATIONS

	FRONT	REAR
17" Libra alloy wheels	7.5J x 17"	7.5J x 17"

XF OWNERSHIP EXPERIENCE

SERVICE, ASSURANCE, AND PEACE OF MIND ARE ALL PART OF THE PRIDE OF OWNING YOUR XF.

THE JAGUAR ACCESSORY RANGE†

Enabling you to personalise your car, to create a driving experience that is even more individually rewarding. All Jaguar accessories are tested rigorously for safety and durability in the most arduous of climates and conditions. A comprehensive range of styling options, interior and exterior accessories, enabling you to tailor your XK to suit your personal style. The full range of Jaguar accessories is available to view on-line, please visit jaguar.co.uk for further information.

Any genuine Jaguar Accessories (excluding gift items and luggage from Jaguar Collection) supplied and fitted by a Jaguar dealer within one month or 1,000 mile/1,500km (whichever occurs first) of a new vehicle being put into service will benefit from the same warranty terms and duration as the Vehicle Warranty. Accessories purchased outside of this period will be subject to 12 month unlimited mileage warranty.

BECAUSE ONLY THE BEST WILL DO

An official Jaguar dealer or Approved Service Centre can ensure that Jaguar trained, specialist technicians, with access to the full range of Jaguar approved parts and tools, will always be on hand to guarantee that every fitting, or repair, is carried out exactly the way Jaguar intended. Your Jaguar dealer or Approved Service Centre can also supply and fit Jaguar approved accessories to personalise and add to the practicality and style of your XK model.

SERVICE AND ASSURANCE*

Complete peace of mind including Competitively Priced Servicing, Seasonal Health Checks and Total Tyre Care to ensure that your Jaguar XK retains its premium condition, delivering optimal performance.

WARRANTY*

3 year unlimited mileage warranty together with a 3 year unlimited mileage Paint Surface Warranty and a 6 year Corrosion (Perforation) Warranty.

JAGUAR MAGAZINE

Jaguar Magazine is the official magazine of Jaguar Cars. It features the new Jaguar XJ, XK and XF, and the worlds of luxury, style, design and travel. The fully interactive Jaguar Magazine iPad app takes the very best of the print edition of the Magazine and adds extra images, and exclusive information, allowing you to explore Jaguar's world in a whole new way.

JAGUAR.CO.UK

Jaguar's official interactive website contains the latest information on Jaguar models and pricing. It also features helpful tools such as a dealer locator and a new model configurator allowing you to see the car tailored to your specification and colour.

JAGUAR FINANCIAL SERVICES*

Whether your requirements are business or personal please contact your local Jaguar dealer to discuss a range of finance and insurance products that can be tailored to meet your needs.

*Terms and conditions apply. Please contact your local Jaguar dealer for more information

†All Jaguar Approved Accessories are rigorously tested to the same exacting standards as those applied to our vehicles. Performance in extreme hot and cold temperatures, corrosion resistance, impact and airbag deployment highlight some of the exhaustive product testing carried out so that Accessories are both durable and importantly, continue to comply with current legislation.

IMPORTANT NOTICE

Jaguar Cars Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. Whilst every effort is made to produce up-to-date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Distributors and dealers are not agents of Jaguar Cars Limited and have absolutely no authority to bind Jaguar Cars Limited by any express or implied undertaking or representation. Illustrations in this brochure may include optional extras.

Comparisons are based on manufacturer's own data and testing.

ENVIRONMENTAL INNOVATION AT JAGUAR

Jaguar is proud to continue the company's tradition with its approach to Environmental Innovation. From the choice of lightweight materials and lean production methods to the efficiency of its engines and designs, Jaguar is committed to operating as a more sustainable business and reducing its overall environmental impact.

Jaguar's flagship XJ model was the first in the company to achieve ISO 14040, the international standard for vehicle 'whole life cycle' assessment. This certification measures the environmental impact of XJ from component material sourcing and manufacturing process, through its driven life time, to final disposal. But that's not all. Every new Jaguar vehicle is designed to be 85% recyclable and reusable, in addition to 95% recoverable and reusable with 10% for energy generation.

Jaguar is committed to reducing dependency on fossil fuels, using fewer resources and creating less waste. Already the manufacturing assembly CO₂ emissions of each Jaguar built in the UK since 2009 is offset. For every tonne of CO₂ emitted in the assembly process, Jaguar invests in carbon reduction projects that reduce an equivalent tonne of CO₂ elsewhere. Offsetting allows Jaguar to take action now, to reduce its impact on the environment, as part of an integrated carbon management plan. This company plan includes targets to reduce operating CO₂ emissions and waste to landfill by 25% by 2012, water consumption by 10% by 2012 and fleet average tailpipe CO₂ emissions by 25% by 2015, based on 2007 levels.

But it doesn't stop there. World class manufacturing facilities certified to ISO 14001 since 1998, transport miles have been cut from delivery routes and new ways are being introduced to produce energy from food waste at our headquarters in the UK. That's Environmental Innovation at Jaguar.

This brochure is produced using certified FSC mixed sources material from well managed forests and is manufactured under a strict ISO 14001 environment system. 10% of this material is recovered fibre, diverting waste from landfill.
