KARMA

A NEW DAWN RISING

Each new dawn brings a fresh opportunity to pioneer a new future. Pioneering is knowing when to be bold and when to show restraint. It's being mindful of change, yet appreciating why it's necessary. It's acting with integrity and intention.

Welcome to Karma and the new 2020 Karma Revero GT, where confident creativity blends with California soul.

INTRODUCING THE

NEW KARMA REVERO GT

With soul-stirring design and an inimitable presence, the new Karma Revero GT is the most elegant luxury electric vehicle ever made. More than aesthetically arresting, it is capable, dynamic, and technologically advanced.

REVERO GT

UNMISTAKABLE KARMA DNA

▀ Uncompromised proportions characterize the new Revero GT's progressive exterior design. A wide wheel base and flowing fender lines express the Revero's strong stance and confident character. With its long dash-to-axle ratio, the Revero's silhouette is effortlessly sculpted, achieving a harmonious balance of dynamic energy and serenity.

Expressive LED headlights and taillights blend sophistication with a modern, fluid design. A pronounced deck lid spoiler and unpretentious bright work define the vehicle's rear fascia. A customizable carbon fiber applique on the front fascia compliments any of the 11 available standard exterior colors.

SENSORY IMMERSION

- ▀ Craftsmanship and authenticity shine in the new Revero GT's exquisitely tailored interior. Sustainably-sourced, finest quality materials are the bedrock of the cabin's sumptuous feel. Form does not take a back seat to function here. Industry-leading digital architecture, active noise cancelation and 3D haptic touch technology support an intelligent, engaging driving environment, allowing driver and passengers to enjoy the journey as much as the destination.

REVERO GT

A R E F I N E D E L E C T R I C D R I V E

Substance underpins style in the new Revero GT. With dual electric motors and a refined, all-electric powertrain, the Revero accelerates effortlessly in as little as 4.5 seconds, with launch control included as standard.

Under the Revero GT's striking aluminum bodywork resides a BMW TwinPower™ Turbo three-cylinder in-line engine to power the on-board electric generator. Karma's innovative and proprietary inverters capture direct current from the lithium-ion battery and convert it into alternating current to power the electric motors which deliver 536hp.

From the battery pack alone, drivers will enjoy up to 80 miles of pure electric driving range, extended to 360 miles by the highly efficient, three-cylinder onboard generator for the definitive luxury electric grand touring experience: the best of both worlds with no range anxiety.

REVERO GT

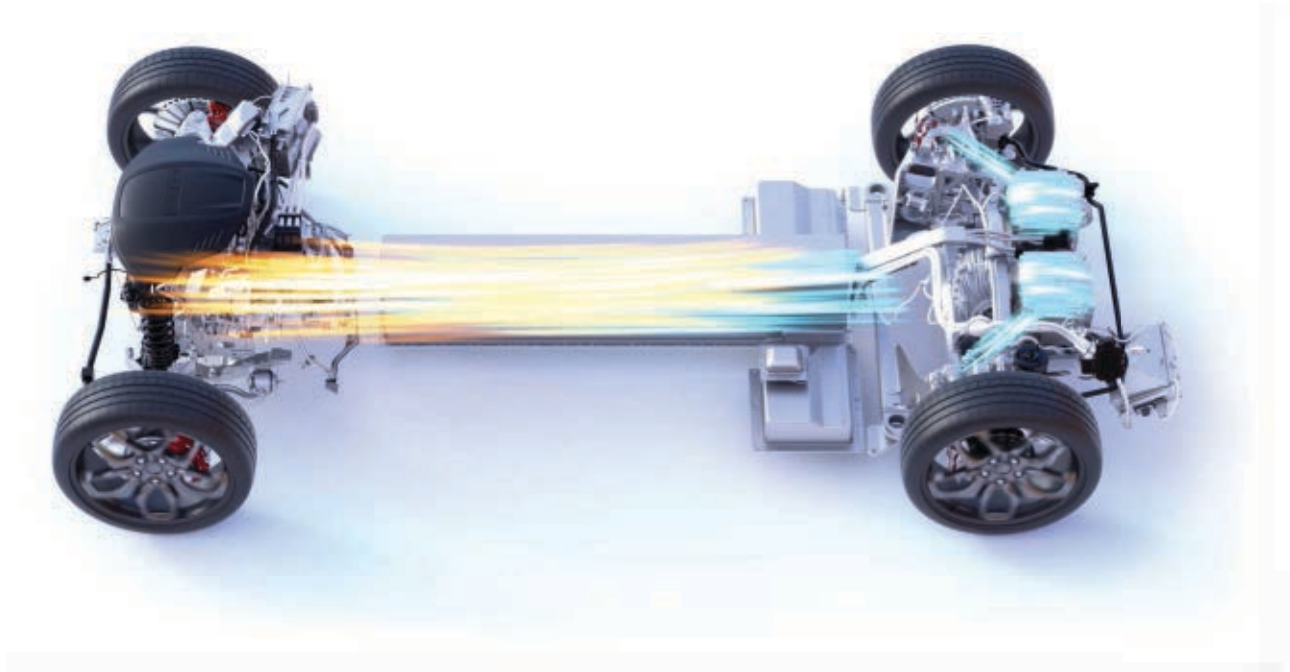

UNCOMPROMISED DYNAMICS

- A bespoke Pirelli P04 tire increases the Revero GT's EV range while maintaining appropriate dynamic performance, and the tightly honed suspension system quickly responds to the demands of the driver for a smooth, connected drive. 21-inch forged aluminum wheels and Brembo brakes with six-piston front calipers come as standard delivering effortless, precise control at speed and an experience more emotional than digital.

INHERENT INTELLIGENCE

- ▀ The latest in ADAS technology enhances the driving experience while providing an increased level of safety. From blind spot monitoring, lane keep with centering, automatic emergency braking to active cruise control, the Revero GT delivers advanced and intuitive protection.

REVERO GT

ALWAYS CONNECTED

Karma's Connected Vehicle System offers industry-leading digital connectivity. Beyond remote vehicle diagnostics which offer every owner complete peace of mind, software is also automatically updated to each vehicle over-the-air for additional features and enhancements. The ownership experience gets better with each and every drive.

INTERIOR ENVIRONMENT

▀ Karma's interior craftsmanship team have developed material specifications that fuse tradition and modernity while still letting the natural beauty of life shine through. The leather in the Revero GT is never embossed with a synthetic grain texture, and receives only a minimal coloring. The result allows the soul of this material to come to life.

CUSTOMIZATION

- ▀ Karma's aim is to deliver uncompromised luxury and innovative technology for those who share our mindset and our spirit. Our philosophy is simple: there are no boundaries. Anything is possible. With Karma's in-house Design Team, owners can co-create their car to deliver a true one-off masterpiece. For more information on creating your own unique Karma, contact one of our Retailers.

TECHNICAL SPECIFICATION

GENERAL INFORMATION

Manufacturing Facility	Moreno Valley, CA
Vehicle Type	PHEV (Plug-In Hybrid Electric Vehicle)
Drive Modes	Stealth (HV Battery only), Sustain (Generator only), Sport (HV Battery and Generator)
Frame/Construction	Aluminum
Wheelbase	124.4 / 3,160 (in/mm)
Overall Length	199.4 / 5,065 (in/mm)
Overall Width (mirrors included)	85.1 / 2,161 (in/mm)
Overall Height	52.4 / 1,332 (in/mm)
Luggage Compartment Volume	6.4 / 182 (cu ft/liters)
Turning Circle Curb-to-Curb	40.4 / 12.3 (ft/m)
Curb Weight	5062 / 2296 (lbs/kg)
Gross Vehicle Weight Rating	5,925 / 2,688 (lbs/kg)
Weight Distribution	47 / 53 (% front/rear)
Fuel Tank	10.25 / 38.8 (US gal/l)

PERFORMANCE

Top Speed (electronically limited)	125 mph (201 km/h)
Sport Mode Acceleration 0-60 mph and Top Speed	4.5 sec, 125 mph (201 km/h) electronically limited (3.9 seconds in Launch Mode)
Sustain Mode Acceleration 0-60 mph and Top Speed	5.5 sec, 95 mph (153 km/h) electronically limited
Stealth Mode Acceleration 0-60 mph and Top Speed	5.1 sec, 95 mph (153 km/h) electronically limited
Drag Coefficient	0.35 Cd
Driving Range - Electric Only	Up to 80 miles
Driving Range - Total	Up to 360 miles

POWERTRAIN

Drive Type	Rear Wheel Drive
Electric Traction Motors - Power	536 HP (400 kW)
Electric Traction Motors - Torque	550 ft-lbs (746 Nm)
Generator Power	228 HP (170kW)
Rear Drive Module (RDM)	Twin electric motors, single-ratio gearbox, electronically emulated limited slip differential

ELECTRICAL

Battery Type	Mid-mounted lithium-ion HV battery (NMC)
Battery Capacity	28 kWh
Battery Voltage	358 V nominal
Charging Level II	Onboard 6.6 kW charger. Allows charging in 4 hrs on 240 V at 32 amps
DC Fast Charging at 45kW	Allows charging in 34 mins on 480 V at 125 amps to 90% state of charge

SUSPENSION AND STEERING

Suspension Type	Four-wheel independent suspension with "Short-Long-Arm" (SLA) architecture
Front Suspension	Cast aluminum upper and forged aluminum lower control arms; Monotube coil-over spring/shock assemblies and 35 mm diameter hollow stabilizer bar
Rear Suspension	Cast aluminum upper and hollow cast aluminum lower control arms with steel balljoints; Load-leveling coil-over assemblies and 25 mm diameter stabilizer bar
Ground Clearance	138 mm
Steering Type	Electronic power steering rack with variable ratio
Steering Turns Lock-to-Lock	2.6 turns

BRAKES AND TIRES

Brake type	Four-Wheel disc anti-lock brakes with panic brake assist (six piston calipers front / four piston calipers rear)
Regenerative Braking	Blended three-mode regenerative braking system
Parking	Electrically-actuated rear parking brake
Traction	Electronic Stability Control (ESC), Traction Control System (TCS)
Front Tires	Summer 245 / 40R21 or 255 / 35R22 Winter 255 / 40R21
Rear Tires	Summer 265 / 40R21 or 285 / 35R22 Winter 265 / 40R21
Spare Tire	Inflator / Sealant kit

COMFORT AND CONVENIENCE

Lights	Bi-LED headlamps with automatic digital swiveling, LED interior lighting
Exterior Mirrors	Folding with defrost
Rear View Mirror	Rimless with automatic dimming
Front Seats	Six-way power, Driver Memory, Heated, Ventilation
Rear Seats	Heated (optional)
Steering Wheel	Multifunctional controls (cruise, audio, phone, voice control with Apple CarPlay® or Android Auto), haptic feedback and optional heating
Steering Column	Programmable easy entry and electronic tilt and telescope
Universal Remote Transmitter	Located in the rear view mirror, three programmable Homelink®-compatible devices
Climate Control	Dual-zone
Firmware Over the Air (FOTA)	Remote diagnostics and software upgrades

INFOTAINMENT

Audio	7.1 channel 570 W RMS D-class amplifier
Radio	FM/HD, DAB+
Mobile Integration Bluetooth®	Apple CarPlay® and Android Auto™ Wireless audio streaming and hands-free calling (HFP / A2DP / AVRCP / PBAP)
Other Connections	Two USB ports 2.1 A Cellular connectivity for Over-The-Air (OTA) updates

SAFETY

Airbags	Eight total airbags: two-stage driver/passenger airbags; knee airbags; full-length side-curtain airbags; seat-side airbags.
Child Seats	LATCH (Lower Anchors and Tethers for Children) compliant
Pedestrian Awareness	Audible external pedestrian sound up to 28 mph
Advance Drivers Assistance System	Surround View Camera System (SVCS) Blind Spot Monitoring (BSM) Rear Cross Traffic Alert (RCTA) Parking Distance Monitoring (PDM) Forward Collision Warning (FCW) Lane Departure Warning (LDW) Automatic Windshield Wipers
Tire Safety	Tire Pressure Monitoring System (TPMS) with Auto-Learning
