<p>1: The Lynk & Co O1 feature list presented herein is based on data available when it's printed and subject to change without prior notice. Specifications may vary in some cases, please consult your local dealer for details.</p> <p>2: ● = Standard; - = Not Available</p> <p>3: ADAS cannot 100% cope with all traffic, weather and road conditions, so the driver must always observe the current traffic conditions, pay close attention to the safe distance and speed, and actively intervene as the case may be.</p> <p>4: Comprehensive fuel consumption: measured according to the comprehensive driving cycles specified in China's national standards, with the actual data different from the displayed data caused by the influence of different driving conditions.</p> <p>5: The seat is made of genuine leather and synthetic leather. The composition ratio and wrapping range of genuine leather and synthetic leather vary from seat to seat. Some (or a few) seats of some models are made of synthetic leather, which shall be subject to the product.</p> <p>6: Contrast color of roof: The model color is fixed. If the selected body color is the same as the roof color, there will be no contrast color.</p>			

O1

LYNK & CO

PREMIUM IS STANDARD

English

Global Aesthetics ¹ with Personality

Re-evolution of Mega-city Contrast
Leading the Urban Trend

Urban Matrix Air-Inlet Grille
The creative modeling of the grille is inspired by the crossing urban roads at night, where the traffic flows 24 hours.

High-performance Double-lens LED Headlights
High-performance LED headlights are ingeniously integrated into the grille, split from the "Aurora Borealis" Daytime Running Lights, showing the beauty of Mega-city Contrast.

Dynamic Balanced Rear Design
The carved-like modeling with exposed dual exhaust pipes endows the vehicle body with vitality.

Energy Cube LED Taillight
The "energy cube" taillights consist of a group of 3D crystals with a strong sense of transparency. When the brake lights are on, the crystals appear to be filled with energy, showing the spirit and vigour of open urbanites.

Born Global ¹ Open & Connected

HYPER

Passion Strong Bold
For whoever challenges and goes beyond the limits. Chasing for speed, longing for changes.

LOUDER

Brave Shining Stylish
For whoever breaks the rules and leads the trend. Always in, always daring.

Lynk & Co 2.0 Interior design language adopts 12.3-in. and 12.8-in. smart screens to create a new premium high-tech cockpit.

Full-spectrum Ambient Light
Stepless 16-million-color^[1] variation provides all lights, colors and brightness desired.

Eco-friendly TPO2 Interior Panels
By using high-tech and eco-friendly TPO2 materials emits much less VOC, contributing to a healthier cabin environment. The velvet cover offers a sense of premium.

Integrated Sporty Premium Seats
Race-class sporty seats provide better body holding with comfort. Nubuck velvet and genuine leather covering gives a tender touch.

Extraordinary Performance ¹ More Than An SUV

Upgraded Chassis Alignment
Combination of Both Sporty and Comfortable Experience

Drive-E 2.0T T4 Evo
Power parameters of T4 Evo: 218Ps, 325N•m

8-speed Automatic Transmission
The smooth gear shifting without bumping outputs robust power at low gears while consuming less fuel at high gears. The gear shifting can smartly adjust to the driver's habit and adapt to complex conditions.

Upgraded Chassis Tuning
The brand-new targeted balance tuning for various scenarios enables the brake distance at 100km/h of $\leq 35m$ ^[2] and accommodates both controllability and comfort, suitable for multiple road conditions.

Renovate Travel Experience ¹ with Advanced Technology

Lynk & Co 2.0 Infotainment System
Enrich Your Driving Experience

Lynk & Co 2.0 Infotainment System
On-board computer with 8x performance amplification from two chips of Qualcomm Snapdragon 820 A enables smoother interaction.

Futuristic HMI Interface
The interface is simple and neat, with high-frequency functional home page, making the operation easier and more efficient.

Wireless Charging
Devices that support wireless charging can be charged, such as mobile smartwatches. With this "charger", your mobile phone is "full of power" at all times.

Intelligent Connectivity

Equipped with Apple CarPlay & Android Auto functions, you can enjoy phone calls, music, maps and other applications anytime, anywhere, and seamlessly connect with the world.

Protect Every Trip ¹ with All-domain Safety

Global Five-star Safety Standards^[3] to
Improve the Safety of Drivers and Passengers in Multiple Situations

20 ADAS (Advanced Driving Assistance System) Functions^[4]

Through the combination of four types of sensors (monocular camera, millimeter-wave radar, HD all-around view camera, and ultrasonic radar), users are provided with 20 ADAS functions to improve their safety.

TJA (Traffic Jam Assistant)

At the speed of 0-60 km/h, the system actively keeps the vehicle in lane and controls the accelerator and the brake to intelligently adjust the traveling speed and direction of the vehicle.

ELKA (Emergency Lane Keeping Assistant)

When the vehicle deviates towards the kerb or obstacle, ELKA intervenes to help the vehicle approach the predetermined driving lane again.

HWA (Highway Assistant)

The system intelligently monitors the vehicle and the marking lines to keep the vehicle cruising automatically in the middle of the lane at a high speed.

Air-purifying Cabin
Effectively protecting the driver and occupants from contamination outside the vehicle:

- CN95-level filter for air conditioner
- AQS (Air Quality System)
- Active cabin cleaning system

[1] This value is calculated with RGB to the 3rd power (i.e., RGB255 to the 3rd power). It is not the standard configuration for the whole series, and the specific configuration shall be subject to the configuration table.

[2] The data are from the Test Center of Geely Research and Development Institute. The test was carried out on dry and flat asphalt pavement. The actual braking distance varies slightly with the test environment and driving skills, and shall be subject to the actual situation.

[3] In 2018, 5-star+ C-NCAP safety certification was obtained and Lynk & Co 01 2.0T 2WD Pro (2017) was tested and assessed according to the 2015 C-NCAP. In 2021, 5-star Euro NCAP safety rating was obtained and Lynk & Co 01 HEV (Europe) was tested and assessed according to the 2020 Euro NCAP.

[4] 20 ADAS functions are not standard configurations of the whole series, with the specific configuration subject to the configuration table. ADAS cannot cope with all traffic, weather and road conditions, so the driver must always observe the current traffic conditions, pay close attention to the safe distance and speed, and actively intervene as the case may be.
