Renovate Travel Experience ^T with Advanced Technology

Lynk & Co 2.0 Infotainment System
Enrich Your Driving Experience

Lynk & Co 2.0 Infotainment System

Qualcomm Snapdragon 820A+ NXP i.MX6Q (4-core + 4-core) with dual chips smart car delivers 8x performance improvement for faster interactive experience.

Futuristic HMI Interface

The interface is simple and neat with high-frequency function home page display. Content recommendation is available based on user habits and user behavior, creating a more convenient and efficient operation experience.

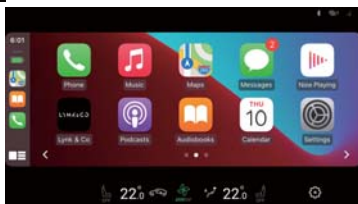

Wireless Charging

Devices that support wireless charging can be charged, such as mobile smartwatches. With this "charger", your mobile phone is "full of power" at all times.

Intelligent Connectivity

Equipped with Apple CarPlay & Android Auto functions, you can enjoy phone calls, music, maps and other applications anytime, anywhere, and seamlessly connect with the world.

Protect Every Trip ^T with All-domain Safety

Global Five-star Safety Standards to
Guarantee the Safety of Drivers and Passengers in Multiple Situations

Advanced Safety Structure

The utilization rate of 73.2% of high-strength steel for bodywork, 86% of high-strength steel, ultra-high-strength steel and PHS steel (hot-formed steel) accounted for much more than the industry standard. Numbers are a sign of great power.

Air-purifying Cabin

It effectively keeps pollutants out of the car and protect the health of passengers:

- CN95-level filter for air conditioner
- AQS (Air Quality System)
- Active cabin cleaning system

L2+ Intelligent Driving Assistance System

The combination of the fourth generation of millimeter wave radar + camera algorithm is adopted, making it smarter, more accurate and safer.

TJA (Traffic Jam Assist)

At 0-60km/h, the system actively maintains lanes and controls throttle and brakes, intelligently adjusts the vehicle's travel speed and direction control, and for congested urban roads, TJA can significantly reduce the repeated operations and fatigue of the driver.

ELKA (Emergency Lane Keeping Assist)

When the vehicle deviates toward the edge of the road or an obstacle, ELKA will intervene to help the vehicle re-enter the intended drive path.

HWA (Highway Assist)

With the combination scheme of camera and millimeter wave radar, the system intelligently monitors the vehicle and the marker lines on both sides of the lane, keeping the vehicle in the middle of the lane and automatically cruising under high-speed conditions, reducing the driver's burden.

Lead Global Aesthetics 7 with Personality

Re-evolution of Mega-city Contrast
Leading the Urban Trend

ALL NEW 01
HYPER PRO

EXTERIOR

INTERIOR

Urban Matrix Air-inlet Grille

The inspiration of the innovative grid style design with interlaced latitude and longitude originates from the main roads crisscrossing the city at night, which flow and shuttle endlessly 24 hours a day.

High-performance Double-lens LED Headlights

The high-performance LED headlights are cleverly integrated into the grille profile and form a split design feature with the Aurora daytime running lights, showing incisively and vividly the opposing aesthetics.

Dynamic Balanced Rear Design

Sculpture three-dimensional shape, with exposed double exhaust tailpipe design, the body is more sporty.

Energy Cube LED Taillight

The "energy cube" taillights consist of a group of 3D crystals with a strong sense of transparency. When the brake lights are on, the crystal appears to be filled with energy, showing the spirit and vigour of the urban youth group at all times.

Lynk & Co 2.0 interior design language is adopted. Equipped with 12.3-inch 12.7-inch smart dual large screens to create a new premium high-tech cockpit.

Full-spectrum Ambient Light

16 million colors can be continuously adjusted while the color and brightness of the light effect can be customized at will.

Eco-friendly TPO2 Interior Panels

The use of scientific and environmentally friendly TPO2 materials greatly reduces VOC emissions, and the driving environment is natural, healthy and comfortable. The wrapping with velvet brings a high-level sense of enjoyment.

Integrated Sporty Premium Seats

Race-class sport seats are extremely wrapped, making the car more comfortable for driving. The soft and comfortable Nubuck velvet leather is adopted for a gentle care experience.

Extraordinary Performance 7 More Than A SUV

Upgraded Chassis Alignment
Combination of Both Sporty and Comfortable Experience

Drive-E 2.0T T4 Evo

Power parameters of T4 Evo: 218Ps, 325N•m

8-speed Automatic Transmission

With smooth gear shifting and less hesitations, the vehicle is featured by strong power output in low gear as well as economy and fuel saving in high gear. It can also automatically adjust the shift timing, according to the driver's habits to adapt to complex road conditions.

Upgraded Chassis Tuning

New balanced special tuning is applied for different road conditions and the braking distance from a speed of 100km/h is ≤ 35 meters. It simultaneously considers controlling and comforting and ensures that drivers can easily cope with a variety of road conditions.

LYNK&CO LYNK&CO 01 FEATURES LIST

Model	Hyper	Hyper Pro
	T4 Evo-BAT-FWD	
Performance Parameters		
Engine	Drive-E 2.0T T4 Evo	
Maximum Power Output (Ps/kW@rpm)	218/160@5000
