

PONTIAC MONTANA SV6  IGNITE THE FEELING

2009 **MONTANA SV6**

Montana SV6 Extended Wheelbase above, shown in Liquid Silver Metallic with available equipment.
Above far right, Montana SV6 Regular Wheelbase, shown in Dark Slate Metallic.

EXCITEMENT AWAITS

ADVENTURE, AVAILABLE IN FAMILY-SIZE. Montana SV6 has what it takes to get you, your family and your favourite toys just about anywhere you want to go. It's got a versatile, intelligently designed interior with room and comfort for as many as seven people. Your passengers will be happy on the journey, too, thanks to Montana SV6's array of up-to-the-minute entertainment choices. Of course, as you'd expect from Pontiac, this is one sport van that's great to drive, with a standard 240-horsepower V6 engine, four-wheel disc brakes with ABS and a standard StabiliTrak™ electronic stability control system. There's even standard OnStar® and one year of the Safe & Sound Plan®, so wherever your travels take you, you're never alone. Montana SV6. Let the adventure begin. pontiac.gm.ca

PONTIAC MONTANA SV6  IGNITE THE FEELING

DESIGN

PRACTICALLY, IT'S GORGEOUS. Montana SV6 proves that awesome versatility and great style can go hand-in-hand. With its unmistakable Pontiac grille, glittering halogen headlights, standard 17-inch wheels, clean lines and charcoal lower body accents, Montana SV6 has all the rugged style of an SUV. It's also good to know that Montana SV6's great looks are here for years to come, thanks to corrosion-resistant galvanized steel body panels and a tough clear-coat paint finish.

Montana SV6 Regular Wheelbase, shown in Liquid Silver Metallic with available equipment.

Montana SV6 Extended Wheelbase, shown in Gold Mist Metallic with available equipment.

PERFORMANCE

EXCITEMENT RUNS IN THE FAMILY. At Pontiac, we're known for creating great driving machines like our Solstice roadster and our new G8 performance sedan. So when we build a sport van, you know spirited performance is going to be an integral part of the mix. Lift the hood on Montana SV6 and you'll find a 3.9 litre V6 engine with Variable Valve Timing (VVT) which optimizes power and efficiency at all operating speeds. The results? A peak output of 240 horsepower, a long, flat torque curve for instant response at low and medium rpms – and a vehicle that you'll love to drive.

VERSATILITY & COMFORT

GET A LOAD OF THIS. No matter what your active family gets into, Montana SV6 is designed to handle it. The versatile interior can be easily reconfigured to cope with almost any combination of passengers and cargo. With all second- and third-row seats folded, Extended Wheelbase models can accommodate up to 3865 litres (136.5 cu. ft.) of luggage, groceries, sports gear – you name it. You can also count on Montana SV6 to keep the gang comfortable over the long haul. Every model offers supportive seating for seven with modular second-row buckets and a 50/50 split third-row bench seat that folds flat and can be removed altogether when you need maximum cargo space. You and your passengers will also enjoy standard front and available rear air conditioning, a range of power amenities and a controlled, quiet ride that rivals many sedans.

- 1. For added convenience, Montana SV6’s available front and 2nd-row captain’s chairs include seatback storage compartments.
- 2. The rear cargo convenience centre on Extended Wheelbase models features four sturdy storage compartments with lids. It’s perfect when you need to keep items such as umbrellas and blankets separate from other cargo.

Montana SV6 offers tremendous cargo- and passenger-carrying flexibility. A 3rd-row 50/50 split-folding removable bench seat is standard. First- and 2nd-row captain’s chairs with seatback food management trays are available.

At left, Montana SV6 Extended Wheelbase, shown with available leather-appointed seating surfaces* in Medium Gray and available equipment.

*Leather-appointed seating surfaces included on front and 2nd-rows only. 3rd-row bench is vinyl covered.

CONTROLS

THE ADVENTURE STARTS HERE. When our designers created Montana SV6's instruments and controls, the goal was to create an intimate link between driver and machine. Consider, for instance, the gauges. In the best performance tradition, they're large and feature high-contrast white-on-black graphics for easy reading. Or consider the steering wheel, shown above.* It includes switches for the sound system, so you can make adjustments without taking your hands off the wheel. Think of it this way. With Montana SV6, the fun doesn't start when you reach your destination. It begins every time you turn the key.

*Included on Montana SV6 1SC only.

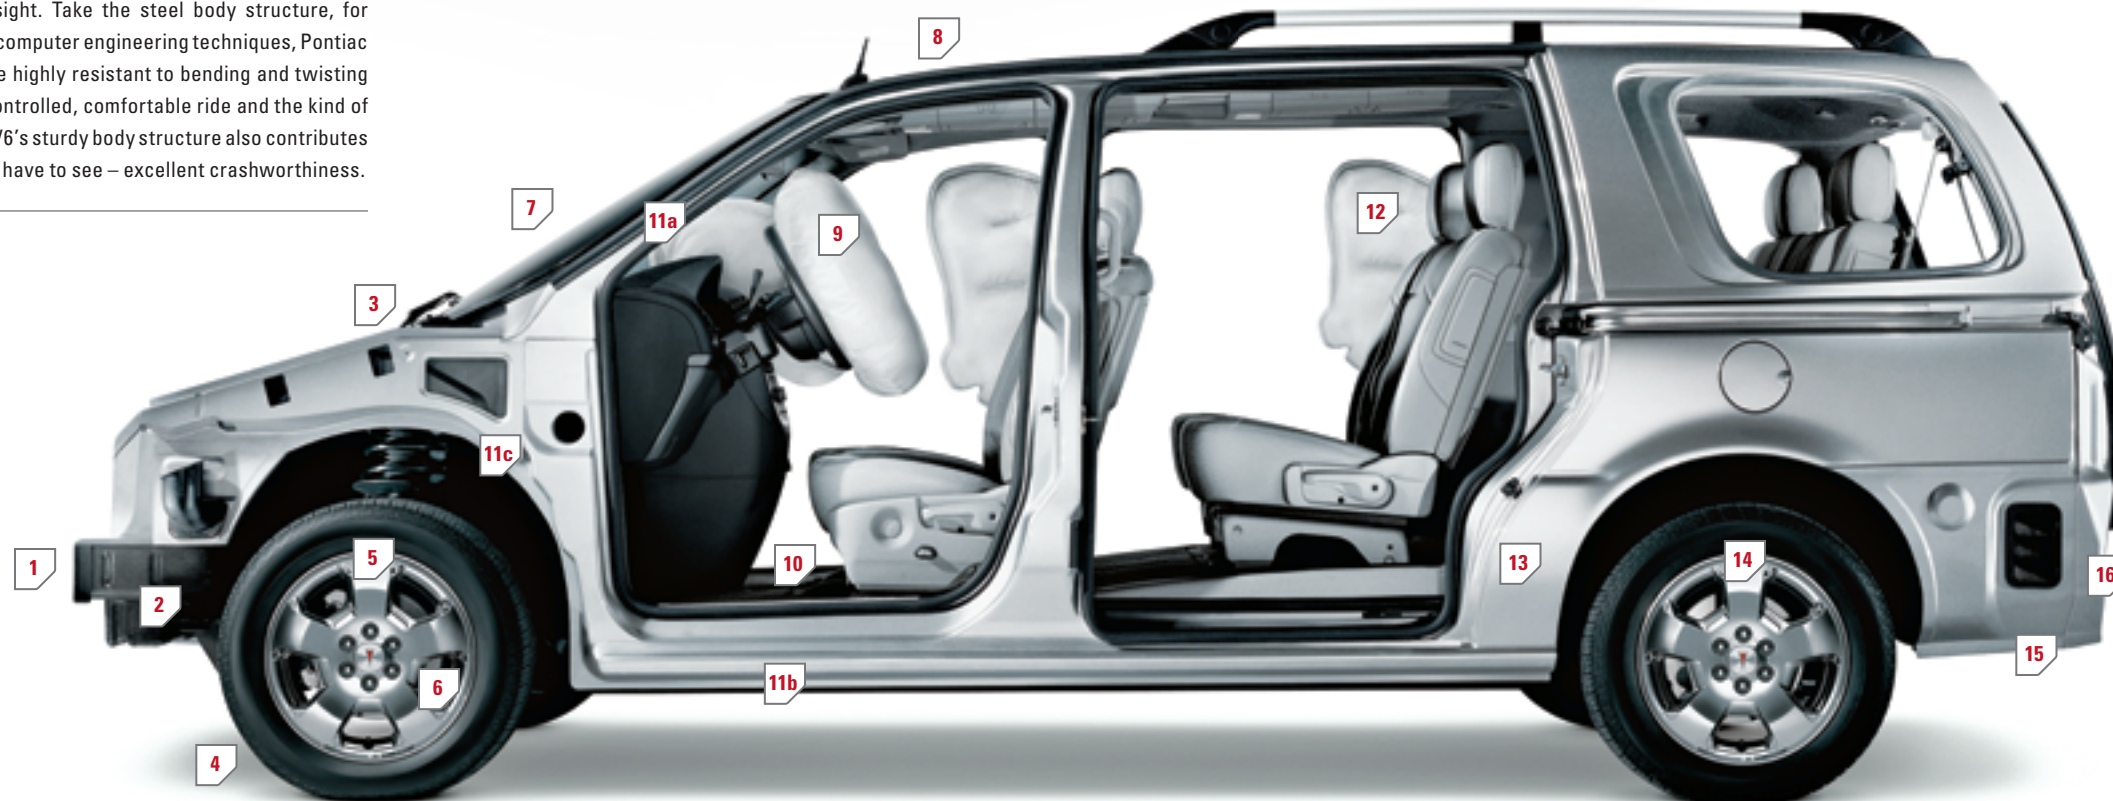

ENTERTAINMENT

ARE WE THERE ALREADY? With Montana SV6, the available on-board entertainment is so engrossing your passengers may be disappointed when the journey ends. The choices start with the standard sound system, which includes a CD player, MP3 playback and an auxiliary audio input jack for your digital music player. Want more? Montana SV6 also offers an available DVD entertainment system that includes a 203 mm (8 in.) LCD monitor, video game jacks and two wireless headphones. The DVD entertainment system features separate rear-seat audio controls mounted on the overhead console, so your second-row passengers can listen to one sound source over their headphones while you enjoy another over Montana SV6's speakers. Then there's available XM Satellite Radio™, which puts 130 channels of digital-quality sound at your fingertips. Bottom line: with Montana SV6, your entertainment choices are virtually unlimited.

TECHNOLOGY

HIDDEN TALENTS. Montana SV6's rugged, SUV-inspired style is obvious from across a crowded parking lot. But the fact is that many of this vehicle's most impressive features are well out of sight. Take the steel body structure, for example. Through the use of advanced computer engineering techniques, Pontiac engineers designed Montana SV6 to be highly resistant to bending and twisting under pressure. The result is a more controlled, comfortable ride and the kind of lasting quality you can feel. Montana SV6's sturdy body structure also contributes to something else we hope you'll never have to see – excellent crashworthiness.

1. CRUSH ZONES

Special structures at the front and rear of Montana SV6 are engineered to collapse in a controlled manner during an impact, absorbing energy before it can reach the passenger compartment.

2. HYDROFORMED ENGINE CRADLE

Montana SV6's engine is mounted to a hydroformed steel engine cradle, which is in turn mounted to the body structure. The cradle is strong and lightweight.

3. 3.9L V6 ENGINE WITH VVT

Even fully loaded, the 2009 Montana SV6 delivers excellent performance thanks to a high-tech 240 hp 3.9L V6 with efficiency-enhancing Variable Valve Timing (VVT).

4. TRACTION CONTROL

On slippery surfaces, full-function traction control reduces wheelspin and helps keep you in control by reducing engine power and, if necessary, applying the front brakes.

5. POWER RACK-AND-PINION STEERING

For agile handling and a positive steering feel, Montana SV6 features power rack-and-pinion steering. It's the same basic design used on our Pontiac Solstice roadster.

6. 4-WHEEL DISC BRAKES & ABS

For sure, confident stopping, every Montana SV6 features power disc brakes at all 4 wheels. An anti-lock braking system (ABS) is standard, too.

7. EFFICIENT AERODYNAMICS

Our designers and engineers went to great lengths to optimize Montana SV6's aerodynamics. Benefits include a quieter ride and increased fuel efficiency.

8. ONSTAR

Every Montana SV6 includes the convenience and security of OnStar and 1 year of the Safe & Sound Plan as standard equipment.

9. FRONTAL AIR BAGS

For added safety, Montana SV6's driver and front-passenger dual-stage frontal air bags deploy with reduced force in lower-speed collisions.*

10. NOISE DAMPENING

Finely-tuned aerodynamics aren't the only thing reducing noise in the Montana SV6 interior. We incorporated sound-dampening materials into the floor, headliner and doors to help quiet the interior.

11. SAFETY CAGE CONSTRUCTION

The Montana SV6 passenger compartment is surrounded by a steel safety cage. High-strength steel is used in the A pillars (11a), rocker panels (11b) and mid-rails (11c) to help maintain the integrity of the structure in a collision.

12. SIDE-IMPACT AIR BAGS

For extra protection in a crash at the side of the vehicle, Montana SV6 offers available seat-mounted side-impact air bags for both the front- and second-row seats.*

13. CORROSION-RESISTANT BODY PANELS

To ensure that Montana SV6 stays looking good for the long term, all exterior body panels except the roof and hood are made of corrosion-resistant 2-sided galvanized steel. The hood is made of lightweight aluminum, which is impervious to rust.

14. STABILITRAK

Montana SV6's standard StabiliTrak electronic stability control system constantly monitors for lateral skids. When it detects excessive lateral movement, StabiliTrak steps in to help restore steering control by individually applying and modulating the brakes.

ONSTAR

OnStar* uses advanced communications technology to enhance your safety, security and convenience. OnStar

Advisors can provide a wealth of information and perform a variety of diagnostic services. They can also provide assistance in an emergency. No wonder more than 5 million people have become OnStar subscribers and over 29 million calls are made each year on the built-in voice-activated, hands-free system. OnStar and 1 year of the Safe & Sound Plan are standard on all Montana SV6 models. See your dealer for more information on plans and services.

*OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Call 1-888-4ONSTAR (1-888-466-7827) or visit onstar.ca for OnStar's Terms and Conditions, Privacy Statement and details and system limitations.

XM SATELLITE RADIO

Now with 130 crystal-clear digital channels to enjoy, XM Satellite Radio has revolutionized mobile entertain-

ment as we know it. XM offers the most commercial-free music channels of any radio provider, with genres that span everything from decades to dance, rock to rap and country to classical. XM also features news, talk and comedy channels, all available from coast to coast, and as the exclusive satellite radio broadcaster of the NHL, XM is a must-have for sports fans. XM Satellite Radio is standard on Montana SV6 1SC and available on all other models.** Ask your dealer for more information.

**Available in 10 Canadian provinces and the 48 contiguous United States. Monthly subscription sold separately after three trial months.

15. ALUMINIZED STAINLESS STEEL EXHAUST

Montana SV6's exhaust system is made entirely from aluminized stainless steel, a corrosion-resistant material that helps ensure long life.

16. TRAILER TOWING PACKAGE

The available Trailer Towing Package includes a heavy-duty sport suspension and automatic load leveling, a heavy-duty turn signal flasher and a trailer wiring harness. So equipped, Montana SV6 can tow up to 1588 kg (3500 lb.).

*A NOTE ON CHILD SAFETY: Always use safety belts and proper child restraints, even in vehicles equipped with air bags.

MONTANA SV6 MODELS

Montana SV6 is available in your choice of three different Preferred Equipment Groups (PEGs), each with its own unique level of equipment. For your convenience, the major features that differentiate the available PEGs are listed below.

MONTANA SV6 1SA

The following features are standard on Montana SV6 1SA:

- 240 hp 3.9L V6 VVT engine
- GM Oil Life Monitoring System
- Electronically controlled 4-speed automatic transmission
- 4-wheel disc brakes with ABS
- StabiliTrak electronic stability control system
- 17" wheels with bolt-on covers
- Tire pressure monitoring system
- Heated power exterior mirrors
- Solar-Ray® deep-tinted glass behind front doors
- Charcoal Gray lower body accents
- Remote keyless entry system
- 7-passenger seating
- Front air conditioning with particle filter
- Overhead rail system with interior lighting shut-off switch and storage bin (Extended Wheelbase)
- Dual front auxiliary power outlets
- Power windows and door locks
- Retained accessory power
- Power swing-out rear quarter windows
- Tilt adjustable steering column
- Non-illuminated visor vanity mirrors
- AM/FM stereo with CD/MP3 player, auxiliary audio input jack (includes 4 speakers on Regular Wheelbase, 8 speakers on Extended Wheelbase)
- OnStar and 1 year of the Safe & Sound Plan

MONTANA SV6 1SB

Montana SV6 1SB includes the equipment of Montana SV6 1SA plus the following features and upgrades:

- Black roof rack side rails
- Reconfigurable Driver Information Centre
- Cruise control
- Non-locking centre console
- Overhead rail system with interior lighting shut-off switch and storage bin (Regular Wheelbase)

MONTANA SV6 1SC

Montana SV6 1SC includes the equipment of Montana SV6 1SB plus the following features and upgrades:

- Brushed aluminum roof rack side rails (Extended Wheelbase)
- 17" aluminum wheels with white-lettered tires
- Remote vehicle starter system
- Driver and front-passenger seat-mounted side-impact air bags
- Power 6-way driver's seat adjuster
- First and second-row captain's chairs with seatback storage and food management trays
- Leather-wrapped steering wheel with sound system controls
- Rear air conditioner/heater, with front/rear controls (Extended Wheelbase)
- Illuminated visor vanity mirrors
- XM Satellite Radio

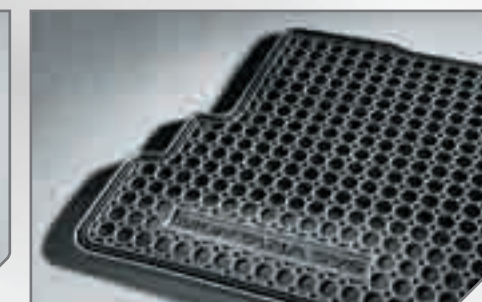

ACCESSORIES

TAKE IT TO THE LIMIT. Get even more out of your new Montana SV6 by adding quality Pontiac Accessories. They are the only accessories that are integrated into the process of designing your vehicle, ensuring excellent fit, finish and functionality. And only Pontiac Accessories are backed by GM's 3-year/60,000 km New Vehicle Limited Warranty.* They can also be included in your new-vehicle finance agreement through GMAC. Ask your dealer for a complete list of the Pontiac Accessories available for your Montana SV6. Or visit gm.ca

*Whichever comes first, when permanently installed by the dealer at the time you purchase your new vehicle.

Genuine Pontiac Accessories for Montana SV6 include:

- Second-row storage console
- Front end cover
- Trailer hitch assembly
- Splash guards
- Rear bumper protector
- Roof rack cross rails (required for roof-mounted bike and ski carriers)
- Overhead storage bins (can hold CD/DVDs, first aid kit, two snakelights, sunglasses and more).

A WORD ABOUT THIS BROCHURE

Some of the equipment shown or described throughout this brochure may be available at extra cost. We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colours, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this brochure and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been adapted since the time of the printing, please check with your GM dealer for complete details. General Motors of Canada Limited reserves the right to lengthen or shorten the model year for any product, for any reason, or to start and end model years at different times.

A WORD ABOUT ASSEMBLY

GM vehicles are equipped with engines and components produced and assembled by different operating units of General Motors, its subsidiaries and suppliers and these engines and components may change or be obtained from different sources from time to time. All such engines and components are approved for use in GM vehicles. Certain equipment ordered may be unavailable at the time of assembly and we suggest that you verify that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

TRADEMARKS

The marks appearing in this brochure including, but not limited to: General Motors, GM, the GM Canada emblem, the GM Canada website address, Pontiac, the Pontiac emblem, Montana SV6 and their respective logos, emblems, slogans and vehicle model names and body designs; and other marks such as Solar-Ray and StabiliTrak are trademarks of General Motors Corporation and/or General Motors of Canada Limited, its subsidiaries, affiliates or licensors.

A – 17" steel with bolt-on wheel covers

B – 17" aluminum

C – 17" chromed aluminum

Canada 

FORWARD THINKING.

General Motors continues to invest in technologies that reduce greenhouse gas emissions and lessen the dependence on petroleum. Beyond today's hybrids and alternative fuel solutions, GM is developing game-changing technology with the upcoming Volt plug-in electric car and a test fleet of zero-emissions Hydrogen Fuel Cell Vehicles already on the road.

GM also demonstrates its commitment to environmental sustainability by the way it produces this brochure. Research has told us that people like you continue to value printed brochures. So GM prints them on Forest Stewardship Council-certified paper. The goal is to protect wildlife habitat, ensure clean water and to keep forests healthy.

It's just one more way that GM integrates green thinking into every aspect of its activities. Just like you.

For more information about the scope of GM's green initiatives, visit greenbydesign.gm.ca
