2010  
*DTS*

## PRESENCE AND POISE ABOVE ALL.

Elegant in design and contemporary in technology, the 2010 Cadillac DTS offers a unique and exceptional driving experience. Full-size in every way, the V8-powered DTS is the largest sedan in the Cadillac family. DTS combines the traditional Cadillac virtues – impressive stature, a spacious, superbly equipped cabin and authoritative yet graceful performance – with thoroughly modern features designed to elevate your safety, enjoyment and peace of mind to new heights. The end result is a luxury sedan for the ages – timeless, yet completely up to the minute.

*Cadillac*

## A MODERN CLASSIC.

Fashion fades. Genuine style, as embodied in the Cadillac DTS, endures. DTS's sweeping horizontal lines, elegant surfaces and crisp intersections stand apart from the crowd. This distinctiveness continues in the car's bold details, including such premium touches as vertical Xenon High-Intensity Discharge (HID) headlights, fast-illuminating LED tail lights, quad exhaust outlets and sculpted alloy wheels. It's worth noting, too, that the DTS body is as efficient as it is beautiful. Thanks to painstaking refinement in the wind tunnel, its aerodynamic drag measures just 0.32, which contributes to the car's performance and the peace and quiet you enjoy in the sumptuous interior.

*Cadillac*

PURE, UNCOMPROMISED COMFORT.

DTS's impressive reputation is built in large part on its generous cabin dimensions, supportive, comfortable seats and quiet, controlled ride. There's abundant head, leg and shoulder room front and rear. The seats are extraordinarily welcoming, thanks to padding that utilizes a dual firmness strategy. In the upper portion of

the seatbacks, soft cushioning for your shoulders provides optimal comfort, while firmer materials in the seat cushions and lower seatbacks deliver the support you need to help keep you feeling fresh and relaxed. For an even higher level of comfort, the standard eight-way power front bucket seats also feature power lumbar adjusters.

*Cadillac*

NOTHING WAS OVERLOOKED.

In the DTS cabin, attention to detail is in evidence everywhere you look. The gauges and controls are both cleanly styled and supremely logical. Chrome and aluminum trim adds visual accents, and can be complemented by burled walnut on the instrument panel, console and doors if you so choose. There's also a choice of three premium leathers – the most in DTS's class\* – including available Tehāma aniline skins so supple, they're typically found only on the finest home furniture. For the ultimate in year-round comfort, heated and cooled front bucket seats are available.

\*Based on latest competitive information available at time of printing.

#### SEATING SUPPORT

For your comfort and convenience, DTS's supportive front bucket seats offer power recliners and an available lumbar massage function. A power-adjustable 3-passenger split-bench seat is also available.

#### LEATHERS & WOOD

1. Standard leather - with a sandstone grain finish and a soft feel.
2. Available Tuscany leather - semi-aniline and specially tanned for a glove-like premium feel.
3. Available Tehāma leather - a buttery aniline leather that usually graces the most exclusive home furnishings.
4. Natural burled walnut wood (available): The natural grain adds warmth and depth throughout the cabin.

#### GAUGES

DTS's elegant analogue gauges present essential driving information with maximum clarity. They're supplemented by a multi-function electronic Driver Information Centre which includes an integrated tire pressure monitoring system.

#### STEERING WHEEL

Both the standard and available steering wheels feature switches for the audio and cruise control systems conveniently mounted on the hub. The available steering wheels include an internal heating system for added comfort in cool weather.

Cadillac

## MASTER OF SOUND.

In the DTS cabin, noise is kept to an absolute minimum by a host of advanced features, including a body structure that makes extensive use of sound-absorbing steel. As a result, you enjoy a tranquil, relaxing ride. The near-total lack of background noise also makes DTS an ideal environment in which to listen to your favourite music. The superb standard audio system features XM Satellite Radio™, a CD player, eight premium speakers and an auxiliary input jack for an iPod® or other MP3 player. For still greater listening pleasure, an in-dash six-disc CD changer system is available, as is a DVD Navigation System featuring the aural purity of Digital Signal Processing.

### DVD NAVIGATION SYSTEM

The available DVD Navigation System includes a sophisticated 165 mm high-resolution touch screen with a 3D mode feature that displays turn-by-turn instructions and fast route calculations.\*\*

\*\*At time of printing, detailed map coverage is available for most major urban areas of the United States and for certain metropolitan areas of Canada (Vancouver, Calgary, Edmonton, Winnipeg, Windsor, London, Toronto, Ottawa, Montreal, Quebec City and Halifax). Coverage is significantly limited outside these areas.

### XM SATELLITE RADIO

Your listening preferences are very personal. XM Satellite Radio gives you access to the largest playlist on the planet and the most commercial-free music in digital-quality sound. That's on top of news, talk, comedy and sports channels - including more than 1000 NHL games. It all adds up to 130 channels to choose from, coast to coast. Why offer so much choice? XM Satellite Radio has to appeal to a wide range of tastes, with more than 9 million subscribers. And it's included on every DTS. Ask your dealer for more information.

\*Available in 10 Canadian provinces and the 48 contiguous United States. Subscription sold separately after trial period.

*Cadillac*

THE VERY TOP OF TOP-OF-THE-LINE.

The most luxurious full-size Cadillac sedan ever, DTS Platinum Edition takes style, comfort and exclusivity to extremes. In DTS Platinum, you and your fortunate companions ride on premium Tuscan leather seats in a cabin trimmed with genuine Light Ash wood accents. In addition to the seats, the steering wheel, console

and instrument panel are covered in leather exquisitely crafted with French seams. Specific exterior badging and chrome accents, a high-tech Magnetic Ride Control® suspension, unique eighteen-inch chrome-tech wheels, a power sunroof, a DVD Navigation System and a host of other premium features complete the package.

PERFORMANCE, CADILLAC STYLE.

Muscular V8 engine power is integral to the full-size Cadillac luxury sedan tradition, and in the 2010 DTS, this proud heritage is alive and well. The Northstar V8 is a highly refined luxury powerplant – smooth and quiet, with a deep reserve of power. The standard engine produces a generous 275 horsepower and 295 pounds-feet of torque – enough for sparkling performance, even with a full complement of passengers on board. There's also an available high-output 292-horsepower version that puts even more performance at your disposal. Impressively, the Northstar V8 is engineered to require only infrequent maintenance, thanks to a host of long-life components, including Mobil 1® synthetic lubricant.

#### ELECTRONIC THROTTLE CONTROL (ETC)

Instead of the traditional mechanical throttle linkage, DTS connects your right foot to the Northstar V8 via drive-by-wire Electronic Throttle Control (ETC). This advanced electronic technology affords a greater degree of efficiency and control.

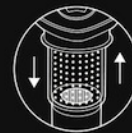

#### ENGINE CONTROL MODULE (ECM)

DTS's high-speed data bus distributes information to components like the Engine Control Module (ECM) at speeds up to 50 times faster than previous designs, ensuring the precise coordination of the car's diverse systems.

*Cadillac*

## IT'S THE RIDE OF YOUR LIFE.

With a rigid, computer-designed body structure, long wheelbase and meticulously tuned four-wheel independent suspension, DTS spoils its occupants with a ride that's controlled, compliant and supremely comfortable. Yet in the curves, it handles with a kind of agility that's remarkable for this class of car. DTS Platinum adds an advanced Magnetic Ride Control suspension system, which assesses road and driving conditions and adjusts the shock absorbers up to 1000 times per second to ensure precisely the right damping characteristics in every situation. Every DTS also features the control and confidence of a four-wheel disc anti-lock braking system.

**MAGNETIC RIDE CONTROL**  
Standard on DTS Platinum, the Magnetic Ride Control suspension features shock absorbers filled with metal particles suspended in a special fluid that stiffens automatically when exposed to a magnetic field.

*Cadillac*

TECHNOLOGY AT YOUR SERVICE.

**SIDE BLIND ZONE ALERT**

DTS's available Side Blind Zone Alert system uses radar technology to detect vehicles in your blind zone. When a vehicle is present, the system alerts you via an amber signal in the appropriate exterior rear-view mirror.

**REMOTE START**

With the stylish DTS key fob you can lock or unlock the doors, open the trunk and start the engine. There's also a Panic function that lets you trigger DTS's horn and headlights, should you feel the need to attract attention.

DTS enhances your safety, convenience and comfort with some of today's most advanced technologies. Take, for example, the standard electronic stability control system, known as StabiliTrak®, which helps keep you travelling in your intended direction during evasive manoeuvres and when driving on slippery surfaces like ice or snow.

In the process, it reduces your risk of a fatal single-car crash by a tremendous 36 percent.\* Other notable technologies available on DTS include Bluetooth® mobile phone connectivity, Adaptive Cruise Control and IntelliBeam™, which automatically selects high- or low-beam headlights when appropriate to optimize your vision at night.

\*According to information published by the U.S. Department of Transportation's National Highway Traffic Safety Administration, July 2007. <http://www-nrd.nhtsa.dot.gov/Pubs/810794.PDF>

ENGINEERED TO REDUCE YOUR RISK.

**ONSTAR CONTROLS**

Does your car have a help button? If you have OnStar, you can get the help you need at the push of a button. If you're in a collision, you don't even need to ask for help - sensors around your car can automatically alert an OnStar Advisor. If your car's stolen, we can use GPS technology to help police find it. OnStar and 1 year of the Directions & Connections Plan are included on DTS,\*\* along with Turn-by-Turn Navigation.\*\* It's the simplest and smartest navigation system available. Just push the OnStar button and tell the Advisor where you want to go, and turn-by-turn directions are downloaded to your vehicle. No one offers more ways to help on the road. Learn more at [onstar.ca](http://onstar.ca).

\*OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Ability to locate stolen vehicles varies with conditions. Call 1-888-4ONSTAR (1-888-466-7827) or visit [onstar.ca](http://onstar.ca) for OnStar's Terms and Conditions, Privacy Statement, and details and system limitations.

\*\*Turn-by-Turn Navigation not available in certain areas. Visit [onstar.ca](http://onstar.ca) for coverage map.

A concern for safety is one of the best reasons to choose DTS. DTS's focus on protection starts with systems designed to help you avoid collisions whenever possible. These include such standard and available safety technologies as StabiliTrak, full-range traction control, a Lane Departure Warning system and Side Blind Zone Alert, which warns you whenever another vehicle is travelling in your blind spot. Should a crash prove inevitable, another set of

features comes into play to help reduce your chance of injury. Energy-absorbing front and rear crush zones, a safety cage surrounding the passenger compartment and DTS's six standard air bags all fit into this category. Remarkably, your DTS will even continue to act in your interest after a crash is over. Should your air bags deploy, the car will automatically alert the OnStar® Centre so their expert advisors can dispatch the necessary emergency services.\*

*Cadillac*

## FINISHING TOUCHES.

### ACCESSORIES

#### CHROME GRILLE

This bright chrome grille adds a distinctive and elegant accent to DTS's contemporary styling.

#### ALUMINUM WHEELS

Now you can upgrade the ride, handling and appearance of your DTS with either of the two available brightly polished 18-inch aluminum wheels.

Show your unique style and endow your new DTS with an even higher level of luxury by adding carefully chosen quality accessories. Genuine Cadillac Accessories are designed especially for your DTS and engineered to the highest standards, ensuring excellent fit, finish and functionality. They're covered under the 4-year/80,000 km New Vehicle Limited Warranty.\* They can also be included in your new-vehicle finance agreement through GMAC. Ask your dealer for a complete list of the Cadillac Accessories available for your DTS. Or visit [cadillac.ca](http://cadillac.ca)

\*Whichever comes first, when permanently installed by the dealer at the time you purchased your new vehicle, or for the remainder of the New Vehicle Limited Warranty if installed after the time of your vehicle purchase, but no less than 12 months.

#### FLOOR MATS

These premium all-weather floor mats help prevent snow, salt and mud from soiling your DTS's premium carpeting.

#### CARGO-AREA TRAY

This moulded cargo tray features a raised outer lip that helps protect your DTS's trunk against spills.

### CADILLAC OWNER PRIVILEGES

All luxury vehicle ownership experiences are not created equal. When you choose a new DTS, you enjoy an exclusive suite of Cadillac Owner Privileges which add to your safety and convenience and help to reduce your overall cost of ownership. You'll regard them as an extra measure of confidence in an uncertain world. For the first 4 years or 80,000 km of ownership,\*\* No-Charge Scheduled Maintenance will cover all regularly scheduled maintenance required by your Cadillac. During the same period, the New Vehicle Limited Warranty will cover all parts and labour costs\* that may be incurred to correct defects in material or workmanship. You are also covered by GM's Powertrain Component Limited Warranty, which is in effect for the first 5 years or 160,000 km of ownership.\*\* While the New Vehicle Limited Warranty is in effect, you enjoy the support of Cadillac Roadside Assistance\* throughout Canada and the United States should you require towing, fuel delivery, a jump start or help with a flat tire or lock-out situation. In addition, Courtesy Transportation\* provides you with shuttle transportation for daily service and an alternate car (or reimbursement for rental or other transportation expenses) for overnight service, whenever your Cadillac requires scheduled maintenance or repairs covered under the New Vehicle Limited Warranty. Other Cadillac owner privileges include Trip Planning\* assistance and Trip Interruption Protection,\* and you may be reimbursed by General Motors of Canada for reasonable hotel, meal and alternative transportation expenses incurred should your trip be interrupted by a repair covered under the New Vehicle Limited Warranty. See your Cadillac dealer for complete details on all Cadillac Owner Privileges.

\*Program in effect for the first 4 years or 80,000 km (whichever comes first) of ownership. Conditions and limitations apply.

\*\*Whichever comes first, conditions and limitations apply.

### ACQUISITION OPTIONS

In addition to the many exclusive privileges of Cadillac ownership, General Motors of Canada has created a range of supplementary support programs to enhance your ownership experience. Some of these programs assist you in purchasing the Cadillac of your choice. Others help protect you and your new Cadillac over the long term.

#### Purchasing:

- **GMAC Express Credit Application** – a convenient way to get pre-approved credit towards the purchase of your next GM vehicle
- **GMAC Purchase Financing** – on-the-spot financing at your GM dealership\*
- **The GM Card** – eligible cardholders may be able to redeem up to \$3500 in GM Card® Earnings toward the Total Purchase Price on selected vehicles!† For more information on The GM Card please call 1-800-461-3279.

#### Additional Ownership Programs:

- **GM Protection Plan (GMPP)** – the only extended service plan backed by the resources and commitment of General Motors. GMPP may be purchased at the time of sale or subsequently during the New Vehicle Limited Warranty period!†

†Subject to eligibility. ††Conditions and limitations apply.

#### Information Resources:

You can obtain more information about Cadillac vehicles and programs from your Cadillac dealer, or at these information centres:

- The Cadillac Website at [cadillac.ca](http://cadillac.ca)
- The Cadillac Contact Centre at 1-888-446-2000 or (1-800-263-3830 for TDD users)
- For more information about GMAC visit [gmac.ca](http://gmac.ca) or call 1-800-616-4622.

### A word about this brochure

Some of the equipment shown or described throughout this brochure may be available at extra cost. We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colours, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this brochure and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been adapted since the time of the printing, please check with your Cadillac dealer for complete details. General Motors of Canada Limited reserves the right to lengthen or shorten the model year for any product, for any reason, or to start and end model years at different times.

### A word about assembly

Cadillac vehicles are equipped with engines and components produced and assembled by different operating units of General Motors, its subsidiaries and suppliers and these engines and components may change or be obtained from different sources from time to time. All such engines and components are approved for use in Cadillac vehicles. Certain equipment ordered may be unavailable at the time of assembly and we suggest that you verify that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

### A word about corrosion

Cadillacs are designed and built to resist corrosion. All body sheet metal components are warranted against rust-through corrosion for 6 years. There is no deductible for rust-through repairs. Application of additional rust-inhibiting materials is not required under the corrosion coverage and none is recommended.

### Trademarks

The marks appearing in this Cadillac brochure including, but not limited to: General Motors, GM, the GM Canada emblem, Cadillac, the Cadillac badge, Cadillac Owner Privileges, Cadillac Roadside Service, DTS and their respective logos, emblems, slogans and vehicle model names and body designs; and other marks such as Active Fuel Management, IntelliBeam, Magnetic Ride Control, Northstar, Solar-Ray, StabiliTrak and Twilight Sentinel are trademarks of General Motors and/or General Motors of Canada Limited, its subsidiaries, affiliates or licensors.

GMAC is a registered trademark of the General Motors Acceptance Corporation of Canada, Limited.

OnStar and the OnStar emblem are registered trademarks of the OnStar Corporation.

Magnasteer and TheftLock are registered trademarks of Delphi Automotive Systems.

Bose is a registered trademark of the Bose Corporation.

Radio Data System (RDS) is a registered trademark of the U.S. National Association of Broadcasters.

Apple and iPod are trademarks of Apple Computer Inc., registered in the U.S. and other countries.

The XM name and related logos are trademarks of XM Canada, Canadian Satellite Radio, Inc.

Bluetooth is a registered trademark of Bluetooth SIG Inc.

Mobil1 and SuperSyn Technology are registered trademarks of Exxon Mobil Corporation.

- D – 18" x 7.5" chrome-tech aluminum wheels with P245/50R18 H-rated tires. Included with DTS Platinum Edition.

## WE'LL TAKE YOU EXACTLY WHERE YOU WANT TO GO.

You demand more from a vehicle than ever before. Exactly the same can be said of Cadillac. For starters, you're looking for greener driving choices – Cadillac offers a range of vehicles powered by hybrid technology or alternative fuels. And many incorporate technology that helps reduce fuel consumption and emissions, like Active Fuel Management\*, Variable Valve Timing and Direct Injection. Down the road, there are plug-in electric vehicles and other emerging technologies that point the way to a future of zero-emissions driving.

At Cadillac, we take pride in more than the quality of our vehicles. We are also proud to be the Official Vehicle Supplier of the Vancouver 2010 Olympic and Paralympic Winter Games. To help create a more sustainable 2010 Winter Games, we are committed to providing the most environmentally friendly fleet of all time through the supply of hybrid, alternate fuel, and other advanced green technology vehicles. The Drive is On.
