

CADILLAC
REAR-WHEEL-DRIVE
DE VILLES AND
FLEETWOOD
BROUGHAMS

1984

COUPE DE VILLE

One look...one demonstration drive will tell you why the name De Ville is America's first choice in luxury cars.

In 1984, the rear-wheel-drive Coupe de Ville continues to offer the comfort and quality synonymous with the name Cadillac. The styling is instantly recognizable and timelessly classic. Coupe de Ville shown in available Beech Firemist with matching available Cabriolet vinyl roof.

SEDAN DE VILLE

Here's the car that combines family-size roominess and four-door convenience with traditional De Ville luxury and value.

Electronic level control is included in De Ville's long list of standard features. Complementing De Ville's smooth ride is the smooth performance of the HT 4100 V8 with Digital Fuel Injection. Or a Diesel V8 is available at no additional charge. Sedan de Ville shown in Grayfern with available matching full vinyl roof.

A WORD ABOUT THIS CATALOG:

We have tried to make this catalog as comprehensive and factual as possible and we hope you find it helpful. However, since the time of printing, some of the information you will find here may have been updated. Also, some of the equipment shown or described throughout this catalog is available at extra cost. Your dealer has details and, before ordering, you should ask him to bring you up to date.

The right is reserved to make changes at any time, without notice, in prices, colors, materials, equipment, specifications and models. Check with your Cadillac dealer for complete information.

THE DE VILLE ENVIRONMENT

Inside De Ville, there is generous interior room to seat six adults in Cadillac comfort. Then, there are those Cadillac conveniences that make every drive a pleasure. Electronic climate control, power windows and door locks, six-way power

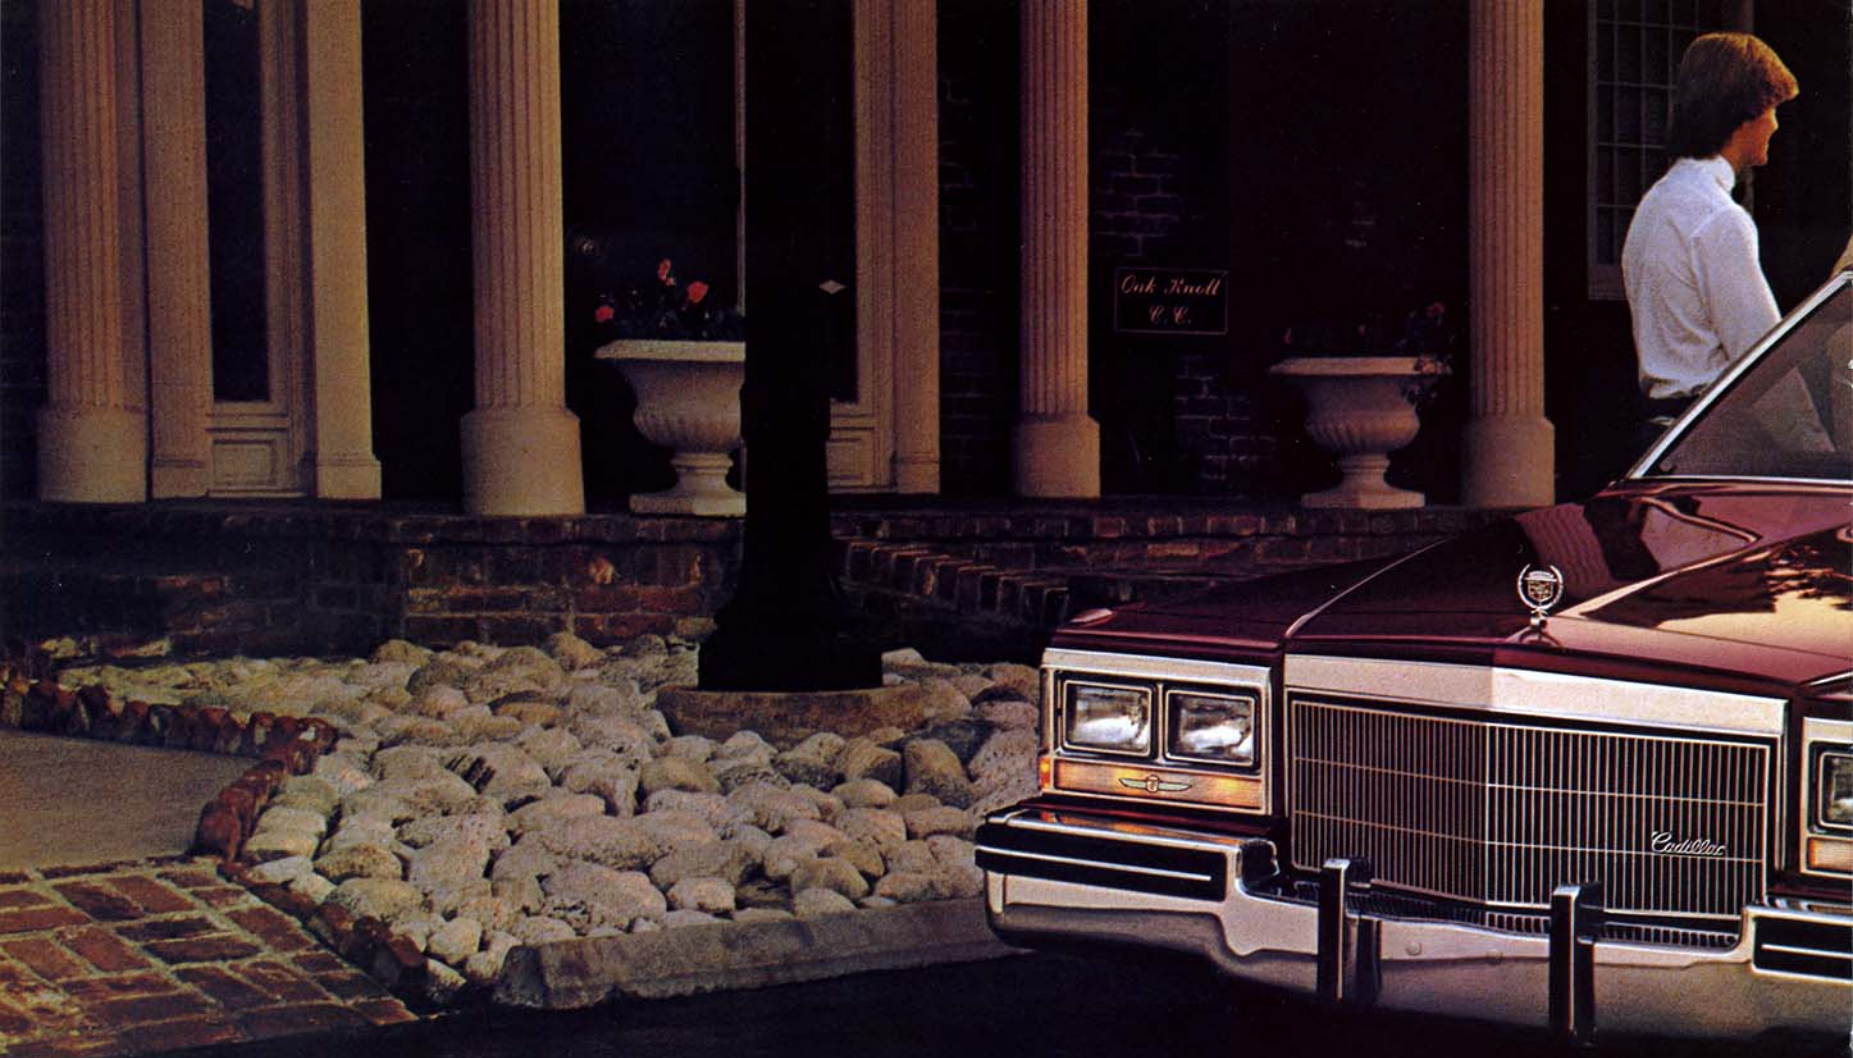

seat adjuster for the driver and a center armrest, front and rear.

De Ville seats are richly upholstered in a soft, velour-like texture of Heather knit cloth, accented with inserts of Dundee cloth, an elegant ribbed

fabric. Shown here in Dark Brown. Also offered are Dark Blue, Grayfern, Saddle and Dark Maroon.

Or choose the luxury of available leather seating areas offered in 10 colors.

FLEETWOOD BROUGHAM COUPE

Beauty and elegance abound in this two-door classic for 1984. Almost any feature you might desire is standard on this distinctive Fleetwood Brougham. From an illuminated entry system to

a remote trunk lid release and power pull-down. Styling accents that set the car apart are its Cabriolet roof treatment and the "privacy-size" quarter windows. As well as the familiar stand-

up wreath and crest on the hood. Fleetwood Brougham Coupe is shown in Royal Maroon with matching Cabriolet vinyl roof.

FLEETWOOD BROUGHAM SEDAN

Here is traditional Cadillac luxury in the proud Fleetwood tradition. This prestigious automobile combines undeniable elegance and spacious comfort with advanced technology and Cadillac quality.

The standard full vinyl roof incorporates a special limousine-style rear window treatment, complementing the limousine-style ride. The smooth HT 4100 V8 with Digital Fuel Injection is standard.

Or you may opt for the 5.7 liter Diesel V8 at no additional charge. Fleetwood Brougham Sedan shown in Georgian Silver with matching full vinyl roof.

THE FLEETWOOD BROUGHAM INTERIOR

The Fleetwood Brougham touch is evident everywhere. From the elegance of the special seat trim design to the convenience of 55/45 Dual Comfort front seats (three passengers). Not to mention six-way power seat adjusters for driver and front passenger and the Fleetwood Brougham touch of adjustable rear seat

reading lamps.

Here you see the richness of available leather seating areas in Sand Gray, one of ten tasteful selections. Or you may select the handsome good looks of Heather cloth offered in five colors.

FLEETWOOD BROUGHAM D'ELEGANCE

Available for Coupe or Sedan, the Fleetwood Brougham d'Elegance rewards you with the pure elegance of tufted seating in your choice of plush Heather cloth (shown) or available leather seating areas. Please see page 11 for additional special equipment.

DE VILLE D'ELEGANCE

Here is the ultimate in De Ville luxury for Coupe or Sedan. This special edition includes pillow-style seating in Venetian velour in two color selections. Please see page 11 for additional special equipment.

Generator, 100 Amp.

Heavy-Duty Ride Package.

Tires, Puncture Sealing.

Cassette Tape Player.

Wire Wheel Disc.

Genuine Wire Wheel.

Turbine-Vaned Wheel Disc.

THE FLEETWOOD LIMOUSINE SERIES

The flagships of the Cadillac fleet, the Fleetwood Limousine and Fleetwood Formal Limousine, instantly communicate prestige and class worldwide.

Designed, engineered and manufactured as limousines... the Fleetwood Limousine has seating for eight passengers while the

Fleetwood Formal Limousine can accommodate seven. Rear seat passengers have their own control panel to adjust temperature, power windows and the new available remote control AM/FM Stereo Cassette Player. Other Cadillac Limousine refinements include auxiliary seats, rear seat footrests, tilt and

telescope steering wheel (standard on Fleetwood Formal Limousine; available on Fleetwood Limousine), heavy-duty cooling system, full-size spare tire, opera lamps and full padded vinyl roof. In addition, a limited slip differential is available.

Inside this private world is seating of Heather cloth in either Dark Blue (shown) or Black. The front compartment of the Fleetwood Formal Limousine always has Black leather in seating areas. In addition, a sliding glass privacy partition separates chauffeur and rear seat passengers on the Fleetwood Formal Limousine.

THE CADILLAC LEGACY OF QUALITY (and what it can mean to you)

THE FACTS SPEAK FOR THEMSELVES.

For 35 consecutive years, more Americans have chosen to own Cadillac than any other luxury car. One explanation for this remarkable record is our commitment to quality. After all, quality is why there's a Cadillac in the first place.

ANTI-CORROSION PROTECTION IN OVER 100 AREAS.

The 1984 Cadillacs incorporate extensive anti-corrosion measures. Advanced rust-fighting technology helps protect over 100 specially treated areas.

For instance, Cadillac car bodies are immersed in an electron-charged dip that

bonds paint and metal with magnetic-like adhesion. Even the bumpers are triple-plated with three types of metal (copper, nickel and chrome) to protect against corrosion.

ADVANCED TECHNOLOGY.

Innovation not for innovation's sake—but your sake. That's the criterion we use at Cadillac in evaluating new ideas. It's a policy that has resulted in advances such as On-Board Computer Diagnostics, standard with the HT4100 engine. This space-age feature alerts you to certain service requirements with "Service Now" or "Service Soon" indicator lights on the instrument panel. Then, there's the Fuel

Data Panel, also standard with the HT4100 engine. Among other things, it shows you how you can adjust your driving habits to get the most out of every gallon.

THOSE "LITTLE THINGS."

Soon after you become a Cadillac owner, you'll wonder how you ever managed without all those thoughtful touches. Like an electronic climate control system so precise you can adjust the temperature setting to a single degree. A plush driver's seat with six-way power adjuster that conforms to you—not vice versa. Down to reminder chimes that politely persuade you to get it together and buckle up for safety.

CADILLAC'S GOLD KEY DELIVERY SYSTEM.

As the name implies, Cadillac has inaugurated the most comprehensive delivery program in our 82-year history. It includes a thorough inspection of your vehicle, an orientation drive with your sales consultant, a tape cassette with a thorough explanation of your Cadillac and a **full tank of fuel**. Plus two sets of Gold Keys and your own Gold Key Identification Card. But that's not all. You'll also receive a 1,000 mile inspection—at no charge.

CADILLAC'S COMPLETE CUSTOMER SATISFACTION SYSTEM.

We have also begun a new step-by-step service excellence system with complete customer satisfaction as our goal. And we're now certifying participating Cadillac dealers nationwide for this system which we believe will set a new service standard for the world.

1984 SAFETY FEATURES FOR DE VILLES, FLEETWOOD BROUGHAMS AND FLEETWOOD LIMOUSINES

OCCUPANT PROTECTION

- Manual lap/shoulder belts with push-button buckles for driver and right front passenger (driver side includes visual and audible warning system).
- Manual lap belt at center position, when applicable.
- Manual lap belts with push-button buckles at rear passenger positions including center, when applicable.
- Energy-absorbing steering column.
- Passenger-guard inside door lock handles.
- Safety interlocking door latches.
- Inertia-type folding front seatback latches (Coupes only).
- Energy-absorbing instrument panel and front seatback tops.
- Laminated safety glass windshield/tempered safety glass side and rear windows.
- Safety armrests.
- Front seat head restraint for driver and right front passenger (adjustable).
- Glove box door latch.

Smooth contoured door and window regulator handles.

Pressure lock radiator cap.

ACCIDENT AVOIDANCE

- Side marker lights and reflectors.
- Parking lamps that illuminate with headlamps.
- Four-way hazard warning flasher.
- Backup lights.
- Lane change feature in direction signal control.
- Windshield defrosters, washer and three-speed wipers. (Controlled-cycle wiper system standard on Fleetwood Broughams; available on De Villes and Fleetwood Limousines.)
- Vinyl-bonded inside rearview mirror glass.
- Outside left and right rearview mirrors.
- Dual master cylinder brake system with warning light.
- Starter safety switch.
- Dual-action safety hood latch.
- Low glare finish on instrument panel top, inside windshield moldings, wiper arms

and blades and steering wheel metallic surfaces.

Safety road wheel rims.

Front disc brakes with audible wear indicators.

Self-adjusting brakes.

Illumination of heater and defroster controls on instrument panel.

Illumination of windshield wiper and washer controls.

Pressure relief fuel cap.

Tread-wear indicators on tires.

ANTI-THEFT

- Audible anti-theft ignition key reminder.
- Anti-theft steering column lock.
- Inside hood release.
- Anti-theft key system (one key for ignition only, second key for doors, trunk and glove compartment).
- Visible vehicle identification number.

AVAILABLE ANTI-THEFT FEATURE

Theft-Deterrent System.

Let's Get It Together... Buckle Up

ALL GASOLINE-POWERED MODELS
 Unleaded Fuel...Use only unleaded gasoline meeting Federal government regulations. The Federal government specifies the minimum octane number of unleaded gasoline. Unleaded gasoline must be used for proper emission control system operation. It will also minimize spark plug fouling. The use of leaded gasoline can damage the emission control system, and could result in loss of warranty coverage.

(A) & (C) Produced by GM-Cadillac Motor Car Division
 (B) Produced by GM-Oldsmobile Division

A WORD ABOUT ENGINES: Some Cadillacs are equipped with engines produced by other GM divisions, subsidiaries or affiliated companies worldwide. See your dealer for details.

THE CADILLAC COMMITMENT

We believe that when you buy or lease a Cadillac, you deserve to be treated like a Cadillac owner. And when you take your car in for service, you have the right to expect the type of consideration traditionally reserved for Cadillac owners. We intend to keep that tradition alive.

A WORD ABOUT ASSEMBLY, COMPONENTS AND OPTIONAL EQUIPMENT IN THESE CADILLAC PRODUCTS.

The Cadillacs described in this brochure are assembled at facilities of General Motors Corporation operated by Cadillac Division or GM Assembly Division. These vehicles incorporate thousands of different components produced by various divisions of General Motors and by various suppliers to General Motors. From time to time during the manufacturing process, it may be necessary, in order to meet public demand for particular vehicles or equipment, or to meet federally mandated emissions, safety and fuel economy requirements, or for other reasons, to produce Cadillac products with different components or differently

sourced components than initially scheduled. All such components have been approved for use in Cadillac products and will provide the quality performance associated with the Cadillac name.

With respect to extra cost optional equipment, make certain you specify the type of equipment you desire on your vehicle when ordering it from your dealer. Some options may be unavailable when your car is built. Your dealer receives advice regarding current availability of options. You may ask the dealer for this information. GM also requests the dealer to advise you if an option you ordered is unavailable. We suggest that you verify that your car includes the optional equipment you ordered or if there are changes, that they are acceptable to you.

BEST OF ALL . . . IT'S A CADILLAC.
