

CITROËN DS4

CUSTOMERS TOLD US THEY WANTED
A DIFFERENT KIND OF CAR.

THOMAS D'HAUSSY
RANGE MANAGER

D S L I N E

IT STARTED WITH A BLANK PAGE.

WITH A FEW PENCIL LINES ON THE PAPER,
I KNEW IT WAS GOING TO BE A BEAUTIFUL CAR.

OLIVIER VINCENT
EXTERIOR DESIGNER

UNIQUE

We really wanted to give it the look of an urban vehicle, able to tackle obstacles, but also agile.

The quarter lines are sharp and attractive.

Flowing lines around the windscreen.

An expressive front and an expressive rear.

The forms are pleasant to look and to touch.

We've really launched a unique vehicle. And on top of that it goes and wins Most Beautiful Car of the Year.

SEAN JOHNSON
INTERIOR DESIGNER

SPACE

It's not like a German car, it's not like an Italian car. It's unique. Typically French. It's like a coupé but still you've got all the space necessary for five occupants. Very spacious.

We've put a lot of attention into the detail and to the modelling to make it really feel quite sophisticated.

A great place to be. It's a car where you feel very involved. Cocooned. Very protected. It's a cockpit. It's a car that you really want to drive.

THOMAS LERET
COLOURS AND MATERIALS STYLIST

LUXURY

The aim with Citroën DS4 was to make a luxury object. We took inspiration from leatherwork, from haute couture, jewellery and clock making.

When you get inside, you really get a feeling of class, a sense of style. This car is a really unique object – you haven't seen anything like it before.

I think every designer deserves the chance to work on a project like Citroën DS4.

MAGALIE HALEY
COLOURS AND MATERIALS STYLIST

HARMONY

The design is very precise. Almost chiselled and plays with the light. The light slides over it. And in the matt parts, it's absorbed. It's about finding the colour in complete harmony with the interior.

When I open the door of Citroën DS4 the thing I'm most proud of is the refinement and luxury which is very present.

When I got out on the street I thought, 'Yep, this car is going to turn heads'. I think that was the idea, you know? I can really see myself driving it.

THOMAS D'HAUSSY
RANGE MANAGER

REFINEMENT

At project inception customers told us they wanted a different kind of car. The object has to be refined, each detail carefully worked.

We invented new mixes for the suspension. New approaches to springing and damping. The road is at your fingertips. You feel like you dominate the road. You feel like you're sitting high up, and protected by the body-hugging seats.

THIERRY METROZ
DESIGN DIRECTOR

POWER

It's true that Citroën DS4 is different, not something you've seen before. When you get into Citroën DS4 you get the real measure of all this refinement. I'm looking at the road, and I'm also looking into the door mirror just to see the side of the car.

You have the power of a coupé, exceptional body lines that make you want to take the wheel. And at the same time, we placed the emphasis on rear space, which is exceptional.

INNOVATION ALWAYS COMES FIRST. LIKE EVERY CAR IN THE DS LINEAGE, CITROËN DS4 STARTS WITH A SPARK OF INNOVATION. UNIQUELY NON CONFORMIST, IT MIXES URBAN PRESENCE WITH COUPÉ GRACE, LUXURIOUS QUALITY WITH SMART FLEXIBILITY.

SO WHILE THE CITROËN DS4 IS NOT AN SUV OR A HATCHBACK, IT DISTILLS WHAT'S BEST ABOUT ALL OF THESE GENRES AND CREATES SOMETHING GENUINELY FRESH. IT'S A STRIKING, SOPHISTICATED 5-DOOR COUPÉ THAT HAS THE BALANCE AND FINE-TUNED ENGINEERING TO INSPIRE KEEN DRIVERS WITH QUICK RESPONSES AND NIMBLE HANDLING. IT'S A LUXURIOUS WAY TO TRAVEL FOR FIVE AND IT'S A CREATIVE DESIGN STATEMENT. THIS IS WHAT HAPPENS WHEN YOU BEGIN WITH INNOVATION.

DEFYING DEFINITIONS. CITROËN DS4 PROVES THAT THERE'S NO CONTRADICTION BETWEEN SPORTY AND PURPOSEFUL. THE ESTABLISHED DEFINITIONS SIMPLY DON'T COUNT.

WALK AROUND THE OUTSIDE AND YOU'LL FIND SWEEPING LINES, EXCITING DETAILS AND A PROFILE THAT IS BOTH COMPACT AND BOLD. STEP INSIDE AND YOU'LL DISCOVER A WELCOMING COMBINATION: STYLISH SPACE, LIGHT, INTUITIVE TECHNOLOGY AND HIGH QUALITY MATERIALS. NOW FIVE PEOPLE CAN TRAVEL COMFORTABLY IN COUPÉ STYLE, WHILE HIGH PROFILE ROAD PRESENCE AND SLEEK EFFICIENCY GO HAND IN HAND.

› HANDLE WITH FLAIR

Rear door handles are smoothly integrated into the window surround, leaving the side profile's organic curves uninterrupted.

› REAR REVELATION

The ultra-stylish, tough body-coloured rear bumper, beautifully formed lights, steeply raked tailgate and roof spoiler surround a luggage area of real versatility. Compromise is not included.

› ACCESS ALL AREAS

Citroën DS4 is a proper 5-door coupé. It just looks and drives like something far more stimulating...

POWER AND POISE. BENEATH CITROËN DS4'S SCULPTED BONNET YOU CAN SPECIFY ONE OF SIX ADVANCED ENGINES. BUT A GREAT DRIVING CAR NEEDS MORE THAN POWER...

CITROËN ENGINEERS HAVE USED THEIR IMAGINATION AND EXPERIENCE TO CREATE A CAR THAT HANDLES, RIDES AND RESPONDS WITH BALANCE AND FLUIDITY. DYNAMICALLY, CITROËN DS4 OFFERS BOTH INSPIRATION AND SUREFOOTED SAFETY – IT'S A PERFECT PLATFORM FOR ADDING YOUR CHOSEN EURO 5 ENGINE. THERE ARE TWO EURO 5 DIESELS, THE POWERFUL, FLEXIBLE HDi 160 AND THE SUPER-EFFICIENT e-HDi 115. SELECT PETROL AND THERE ARE THREE ENGINES TO CHOOSE FROM, THE VTi 120 WITH INGENUOUS VARIABLE VALVE TIMING, THE INCREDIBLY TORQUEY THP 160, OR THE ALL-NEW THP 200 FOR ULTIMATE PERFORMANCE. AGILITY AND STABILITY, POWER AND EFFICIENCY... CITROËN DS4 LEAVES NOTHING OUT.

› STAND OUT

Powerful fog lamps and stylish daytime-running LEDs ensure Citroën DS4 stands out, even in the most treacherous driving conditions.

› DRIVER FOCUSED

Cool, clear main instruments are right in the centre of your vision when you take the wheel, providing a perfect mix of analogue and digital information from the three chrome-rimmed dials.

ADVANCED LUXURY. IN EVERY SENSE, CITROËN DS4'S INTERIOR IS A SPECIAL PLACE. NATURALLY LIGHT AND ROOMY, IT IS MADE WITH METICULOUS CARE, COMBINING CRAFTSMANSHIP WITH HIGH TECHNOLOGY.

BEGINNING WITH THE FUNDAMENTALS, THE WHOLE INTERIOR IS THOROUGHLY SOUNDPROOFED, USING CAREFULLY CHOSEN MATERIALS THAT ABSORB NOISE AND VIBRATION. THIS RESTFUL SPACE IS THEN SHAPED FOR FIVE PEOPLE, BRINGING THEM AN ENVIRONMENT THAT CAN BE FINE-TUNED IN NUMEROUS WAYS. BACKLIGHTING CAN BE CHANGED FROM WHITE TO BLUE, AUTOMATIC DIGITAL AIR CONDITIONING, STANDARD ON DSTYLE AND DSPORT OR OPTIONAL ON DSIGN, HAS A SPECIAL 'REST' FUNCTION THAT MAINTAINS ITS TEMPERATURE SETTING FOR A FEW MINUTES AFTER THE ENGINE STOPS. FRONT SPORTS SEATS WITH LUMBAR ADJUSTMENT AND A MASSAGE FUNCTION ARE AVAILABLE FROM DSTYLE UPWARDS AND SUMPTUOUS LEATHER TOUCHES CREATE AN ALL ENCOMPASSING FEEL OF REFINEMENT AND QUALITY.

› 2 + 3 + DS4

Even with its flowing coupé profile, Citroën DS4's interior presents beautifully shaped and trimmed seating for three in the back – it's one definition of advanced luxury.

INNOVATION FOR LIFE. CITROËN DS4 IS PACKED WITH ADVANCED TECHNOLOGY AND NEW IDEAS, BUT NEVER JUST FOR THE SAKE OF IT. THEY ARE EACH CREATED TO ENTERTAIN, INSPIRE AND INFORM YOU AND YOUR PASSENGERS.

OPTIONAL EMYWAY IS A GREAT EXAMPLE. THIS IS YOUR ROUTE INTO THE LATEST GENERATION TECHNOLOGY, USING BIRDVIEW MODE AND EUROPEAN MAPS STORED ON INTERNAL MEMORY. IT ALSO ALLOWS EASY NAVIGATION OF YOUR MUSIC PLAYLISTS ON A 7" SCREEN AND INTEGRATES WITH THE BLUETOOTH® SYSTEM FOR YOUR MOBILE. TO PUT YOU IN THE MIDDLE OF THE MUSIC WHEREVER YOU GO, CITROËN DS4 USES A DIGITAL SOUND PROCESSOR TO CREATE LIFELIKE DEPTH AND SPACE. FOR THE ULTIMATE PERFORMANCE YOU CAN SELECT THE DENON HI-FI WITH BOOT MOUNTED SUBWOOFER, OPTIONAL ON DStyle AND DSPORT.

› TAILOR-MADE SOUND

The new Denon Hi-Fi system is dynamically optimised for Citroën DS4. It features nine loudspeakers and a digital amplifier that create a powerful, natural and accurate sound in the DS4's cabin in order to deliver the best, most consistent performance.

› DIGITAL ON THE GO

Relax and immerse your senses in a whole new audio driving experience with the state-of-the-art digital radio. Enjoy many digital radio channels not available on FM, improved station selection and the outstanding digital reception, standard on DStyle and DSport, optional on DSign models.

› PLUG AND PLAY

REST

GUILT-FREE PLEASURE. DRIVING PLEASURE AND ENVIRONMENTAL EFFICIENCY BLEND HAPPILY IN CITROËN DS4. IT'S THE BALANCE THAT MAKES IT SUCH AN INSPIRING CAR AND A GENUINE PIONEER.

THE EXTRAORDINARY MICRO-HYBRID TECHNOLOGY OF e-HDi REDUCES BOTH FUEL CONSUMPTION AND CO₂ EMISSIONS BY UP TO 15% AROUND TOWN, THANKS TO A COMBINATION OF EFFICIENT HDi ENGINEERING AND INGENUOUS ADVANCES. REGENERATIVE BRAKING RECOVERS ENERGY USED DURING DECELERATION AND SECOND GENERATION STOP & START CUTS THE ENGINE AS YOU ROLL TO A HALT. WHEN YOU RELEASE THE BRAKE PEDAL AND MOVE OFF, IT SEAMLESSLY RESTARTS, SO YOU CAN SAY GOODBYE TO POINTLESS IDLING IN TRAFFIC.

› PERFECT SHIFT WORK

Citroën DS4 incorporates a Gear Efficiency Indicator, on manual models, which helps you to shift at just the right moment for optimum fuel consumption. The ideal gear ratio appears in the centre of the rev counter.

SAFETY MOVES ON. PIONEERING PROTECTION IS ENGINEERED IN TO EVERY PART OF CITROËN DS4. IT'S WHERE CREATIVE DESIGN AND NEW TECHNOLOGY PLAY A VITAL ROLE.

OUT ON THE ROAD, WHEN YOU NEED TO CHANGE LANES, THE BLIND SPOT MONITORING SYSTEM, STANDARD ON DSPORT AND OPTIONAL ON DSTYLE MODELS, IS LOOKING OUT FOR YOU. IT GIVES A VISIBLE WARNING IN YOUR DOOR MIRROR IF IT DETECTS A HIDDEN VEHICLE. CRUISE CONTROL AND A PROGRAMMABLE SPEED LIMITER MAINTAIN HASSLE-FREE AND SAFE PROGRESS. A PURE EXAMPLE OF CITROËN INNOVATION ON YOUR SIDE IS ETOUCH WHICH BRINGS YOU KEY SERVICES BY HARNESSING TECHNOLOGY. ON DSPORT MODELS CITROËN ETOUCH EMERGENCY AND ASSISTANCE SYSTEM USES YOUR CAR'S GPS AND MAP INTEGRATED SIM TO IDENTIFY AND LOCATE YOU. IN THE EVENT OF AN INCIDENT AN OPERATOR WILL IMMEDIATELY SEND TECHNICAL SUPPORT OR HELP WHEREVER YOU NEED IT. THIS SERVICE IS FREE AND AVAILABLE 24 HOURS EVERY DAY.

› GOODBYE TO BUMPS

For safe manoeuvres without bumps and scuffs, Citroën DS4 has rear parking sensors, standard on DStyle and DSport and optional on DSign models. For further, pinpoint accuracy, front parking sensors are standard on DSport and optional on DStyle models.

› YOUR PARKING PARTNER

When you see what looks like a space with your name on it, the parking space 'gap' measurement system standard on DSport and optional on DStyle models will measure it and let you know if there's room – it takes the guesswork and the hassle out of urban parking.

› SUREFOOTED EVERYWHERE

Citroën DS4 has intelligent traction control that continuously monitors grip levels at each driven wheel. If it detects slip, it fine-tunes power delivery to ensure complete stability. Integrated with this system is an automatic electric parking brake, standard on DStyle (excluding THP 160 6-speed automatic) and DSport models. Also the Hill Start Assist, standard on all models, holds you securely in place on steep inclines without rolling backwards.

THREE ORIGINALS. CITROËN DS4 NEATLY DRIVES AROUND PREDICTABLE CATEGORIES, BUT YOU WILL KNOW WHICH VERSION SUITS YOU BEST.

DSIGN, DSTYLE AND DSPORT EACH COME WITH A HUGE ARRAY OF INTELLIGENT,
ENTERTAINING AND LUXURIOUS FEATURES – THERE IS NO 'STANDARD' VERSION.
IT'S MORE A MATTER OF EMPHASIS, STYLE AND PERSONALITY...

EFFICIENCY MINUS COMPROMISE. CITROËN HAS CREATED FUELEFFICIENT VEHICLES WITHOUT SACRIFICING DRIVER ENJOYMENT FOR SOME TIME. THE LATEST ADVANCES TAKE THIS FINE BALANCE FURTHER STILL...

WITH THE PROVEN CREDENTIALS AND ENVIRONMENTAL PERFORMANCE OF CITROËN HDi DIRECT INJECTION ENGINES AS INSPIRATION, e-HDi ADDS NEW TECHNOLOGY, SUCH AS A SMOOTH, SIMPLE STOP & START SYSTEM AND EGS GEARBOX. STOP & START PUTS THE ENGINE INTO IDLE MODE AS YOU DECELERATE AND STOPS ALTOGETHER AS YOU COME TO A HALT. THE MOMENT YOU TAKE YOUR FOOT OFF THE BRAKE, IT RESTARTS SILENTLY AND WITHOUT VIBRATION. THE RESULTS ARE A DRAMATIC REDUCTION IN BOTH FUEL CONSUMPTION AND CO₂ EMISSIONS, COMBINED WITH RESPONSIVE PERFORMANCE WHEREVER YOU GO.

We've also been equipping more of our vehicles with more environmentally friendly breakthroughs, such as our Electronic Gearbox System (EGS), which boasts impressively greener credentials, with less pollution and up to 5% more economy than a conventional manual gearbox system. In addition, Citroën has expanded the use of the exceptionally efficient, self-regenerating Diesel Particulate Filter System in our models. Cleaner, greener driving without taking away from the drive – that's what you can continue to expect from Citroën.

› PURE TECHNOLOGY

Demonstrating Citroën's commitment to Créative Technologie, PureTech engines provide increased power with lower fuel consumption and emissions by adopting a smaller and lighter three cylinder configuration constructed of pressure-cast aluminium. In conjunction with low friction component coatings, improved air and fuel flow and optimised combustion, this allows engines to offer more power, better fuel economy and significantly lower CO₂ emissions.

› AIRDREAM – A BENCHMARK

Citroën's environmental commitment and advanced efficiency are perfectly illustrated by Airdream. It's a benchmarking scheme that has three demanding criteria which a vehicle must achieve before it can wear the name. Firstly it must emit no more than 140g/km CO₂. Secondly it must be produced at a plant that meets the rigorous ISO 14001 certification and also it must be 95% recoverable. Only e-HDi, electric or Hybrid4 engined Citroëns currently qualify. It's no surprise that Citroën is one of the leaders in Europe for low CO₂ emissions.

› ELECTRIFYING. HOWEVER YOU LOOK AT IT

Forget what you know about electric cars. Citroën Survolt concept combines undiluted glamour with advanced sporting dynamics, then adds a 100% electric drivetrain. Outside, LED lights, voluptuous curves, two-tone charcoal and fuchsia paintwork, and a race-inspired rear spoiler meet your gaze. Inside, a stunning blend of curved chrome, swooping glass, high technology and organic forms welcomes you to an entirely new place. But this is no simple styling exercise. At heart, Survolt is even more radical, because although it is designed to thrill, it is powered purely by silent, efficient, clean electricity.

GLOSSARY

> e-HDi DIESEL ENGINE

The e-HDi 115 Airream EGS6 engine is capable of 64.2mpg and CO₂ emissions of just 114g/km combined with the EGS gearbox. It has a reversible starter-alternator that works in tandem with an e-boosters to provide a seamless Stop & Start function. Going further than other similar systems, the e-HDi's Stop & Start puts the engine into idle mode while decelerating before coming to a complete standstill. This reduces consumption by 15% in urban driving.

> HIGH-PRESSURE DIRECT INJECTION DIESEL ENGINE

Citroën's HDi diesel engines operate with the fuel under extremely high pressure, enabling microscopically precise injection control. With this level of management it's possible to inject at different times during the same engine stroke allowing total control over the combustion process. This has allowed our engineers to reduce carbon monoxide emissions by 40%, unburned hydrocarbons by 50% and engine particulates by 60%. Fuel consumption is 20% lower than a prechamber diesel engine, resulting in an equivalent reduction in CO₂ emissions.

> PETROL ENGINES

Part of Citroën's range of state-of-the-art engines, VTi and THP petrol powertrains are friction optimised and benefit from an inlet camshaft variable valve timing system that constantly measures the pressure on the accelerator and precisely regulates the quantity of air entering the cylinders. VTi engines boast advanced variable inlet valve lift and exhaust camshaft variable valve timing systems whilst THP engines are turbocharged. This guarantees outstanding efficiency and allows for immediate response with plenty of low range torque available.

> CITROËN ETOUCH EMERGENCY AND ASSISTANCE SYSTEM

In the event of an accident or sudden health problem, one push of the 'SOS' button will instantly contact the emergency services. If there's a more serious incident, SOS activates automatically. After a breakdown, one push on the 'chevron' button will alert Citroën Assistance, sending both location details and an initial fault report.

> CONNECTING BOX

Integrated Bluetooth® hands-free phone function with USB socket and jack to plug in a portable MP3 player.

> EMYWAY SATELLITE NAVIGATION SYSTEM

The eMyWay satellite navigation system features a 7" screen and covers UK and Europe. Its in-built memory provides information about speed limits and lets you know which lane to use when reaching complex intersections. The system also lets you adapt your route based on traffic conditions, with data provided by Trafficmaster and ViaMichelin in the UK and France.

> ANTI-LOCK BRAKING SYSTEM (ABS)

Computer-controlled braking assistance designed to prevent the wheels from locking under extreme braking. This enables the car to continue being steered and therefore controlled during this braking incident. Citroën DS4's ABS system is further enhanced with EBA and EBD.

> ELECTRONIC BRAKEFORCE DISTRIBUTION (EBD)

A conventional ABS system cannot account for any of the four wheels wanting to lock more quickly than the others (for example, two of the wheels may be on snow and two on tarmac). EBD reads the deceleration rate of each wheel individually and applies the ABS principles accordingly.

> EMERGENCY BRAKING ASSISTANCE (EBA)

As drivers we find it difficult to instinctively brake very hard, but this is often what is needed in those rare emergency situations. The EBA system recognises our 'attempt' to brake hard and in combination with the ABS and EBD systems instantly applies the maximum stopping power possible.

> ELECTRONIC STABILITY PROGRAMME (ESP)

This is computer-controlled traction assistance and is provided primarily through the braking systems. The ESP's control unit constantly compares where the driver intends going (through the position of the steering wheel) with where the vehicle is actually going and, if necessary, makes speed corrections to each wheel individually through braking or engine torque to keep the vehicle 'in line'.

> ON-BOARD TRIP COMPUTER

Citroën DS4's multi-function on-board trip computer provides you with information at your fingertips. At the touch of a button you can view a range of data like fuel consumption, average speed and mileage possible at your current fuel level.

> FRONT SEAT BELT PRE-TENSIONERS

In the event of a crash, a pre-tensioner will tighten the seat belt almost instantaneously. This reduces the load on the occupant in a violent crash. Like airbags, pre-tensioners are triggered by sensors in the car's body, and use explosively expanding gas to drive a piston that retracts the belt. Seat belt pre-tensioners also lower the risk of 'submarining', which is when a passenger slides forward under a loosely worn seat belt.

> ISOFIX

A standardised and more simple method for installing child seats, each seat is 'clicked' into place via a three point system. On Citroën DS4, Isofix is installed on the outer rear seats.
