Preferred Suede is a registered trademark of Milliken & Company.

More style, and nearly twice the city mileage, than any V-6-equipped SUV.

As the **first full-hybrid premium compact SUV**, Mercury Mariner Hybrid really shines. Eye-catching satin-aluminum accents enliven its bold, monochromatic exterior. Inside, stylish chrome, satin-aluminum and woodgrain finishes enhance all the cargo room and 5-passenger comfort of this compact SUV. But under the skin, **hybrid ingenuity** elevates Mariner Hybrid's dramatic looks and capability to the extraordinary. Just consider: While releasing minimal CO₂ emissions, Mariner Hybrid **delivers city fuel economy of 33 mpg – up to 95% better than the average V-6-equipped SUV.*** Not only can this lessen the impact on our precious environment, it can also reduce the number of stops at the pump. Smiling yet?

*Based on comparison of EPA-estimated fuel economy data for 2005 SUVs equipped with conventional V-6 engines.

3 | MARINER HYBRID: INGENUITY

Thanks to 6 powertrain components working in perfect unison, Mariner Hybrid can operate on its gasoline engine, on electric battery power alone, or on both at the same time. As you brake, Regenerative Braking captures all the kinetic energy needed to recharge the battery pack. A discreet vent on the rear window (to help cool the battery) lets you know this Mariner is hybrid-powered.

REGENERATIVE BRAKING

REAR-WINDOW VENTING

GAS ENGINE

To improve efficiency, Mariner Hybrid's **2.3L I-4 engine uses Atkinson-cycle combustion** – a 5-stroke process that's more efficient than that of a conventional 4-stroke gas engine. Together with a 70-kilowatt electric motor, the I-4 engine gives Mariner Hybrid a sporty 155 net hybrid-system horsepower and outstanding fuel efficiency.

BATTERY PACK

Located beneath the cargo area, Mariner Hybrid's **330-volt nickel-metal-hydride battery pack** supplies electrical energy to start the engine, to boost acceleration, and to drive on battery power alone at low speeds. And since it recharges as you drive, there's no need to ever plug it in.

4 | MARINER HYBRID: FRESH AIR

Wherever it travels, Mariner Hybrid causes quite a stir. With nimble handling, lively acceleration on par with a V-6 engine, all-weather traction from its Intelligent 4WD System, seating for 5 or up to 62.1 cu. ft. of cargo space with the rear seat folded down, and remarkable city fuel economy of 33 miles per gallon,* Mariner Hybrid is truly a breath of fresh air.

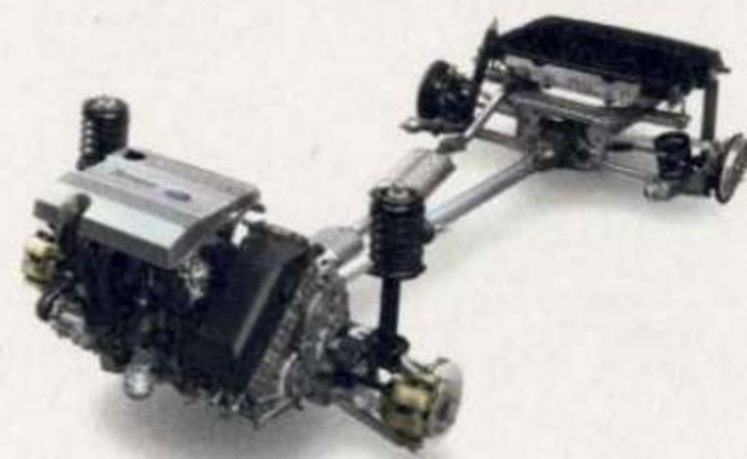

eCVT

Mariner Hybrid's electronically controlled, Continuously Variable Transmission (eCVT) harnesses both internal combustion and electric power sources to drive the wheels.

ZIPS AND SIPS

Acceleration: comparable to a V-6 engine. Range: well over 400 miles on 1 tank of gas in city driving. Thanks to an advanced electronic Vehicle System Controller, Mariner Hybrid automatically switches between pure electric, pure gasoline and a combined mode to maximize performance and efficiency.

*EPA-estimated city mpg, 4WD. Actual mileage will vary with driving habits.

5 | MARINER HYBRID: SOPHISTICATED STYLING

SILVER METALLIC, MARINER HYBRID

MARINER HYBRID: DETAILING | 6

Distinctively clean.

MARINER HYBRID'S STYLISH MONOCHROMATIC EXTERIOR IS COMPLEMENTED BY A HOST OF SOPHISTICATED DESIGN DETAILS: A CONTEMPORARY SATIN-ALUMINUM GRILLE; SIGNATURE SATIN-ALUMINUM TAILLAMP GRILLES; BOLD TRAPEZOIDAL FOG LAMPS; EXCLUSIVE HYBRID BADGING ON THE SIDES AND THE REAR; 16" 5-SPOKE ALUMINUM WHEELS; A CHROMED EXHAUST TIP; AND A UNIQUE REAR FASCIA WITH "MERCURY" SUBTLY ETCHED IN BRILLIANT SATIN ALUMINUM.

ELEGANT ENVIRONMENT

The **clean, modern design theme** of Mariner Hybrid's exterior continues inside with the subtle two-tone of Pebble seats with Light Parchment inserts, whether in standard cloth or available leather trim. Mariner Hybrid's interior styling is elevated to sophisticated levels through the use of carefully selected materials. **Distinctive chrome** finish adds flash to details like the door handles and gear-shift surround, while **satin-aluminum** finish and elegant **Sapele woodgrain** gracefully accent the flow-through center console and instrument panel.

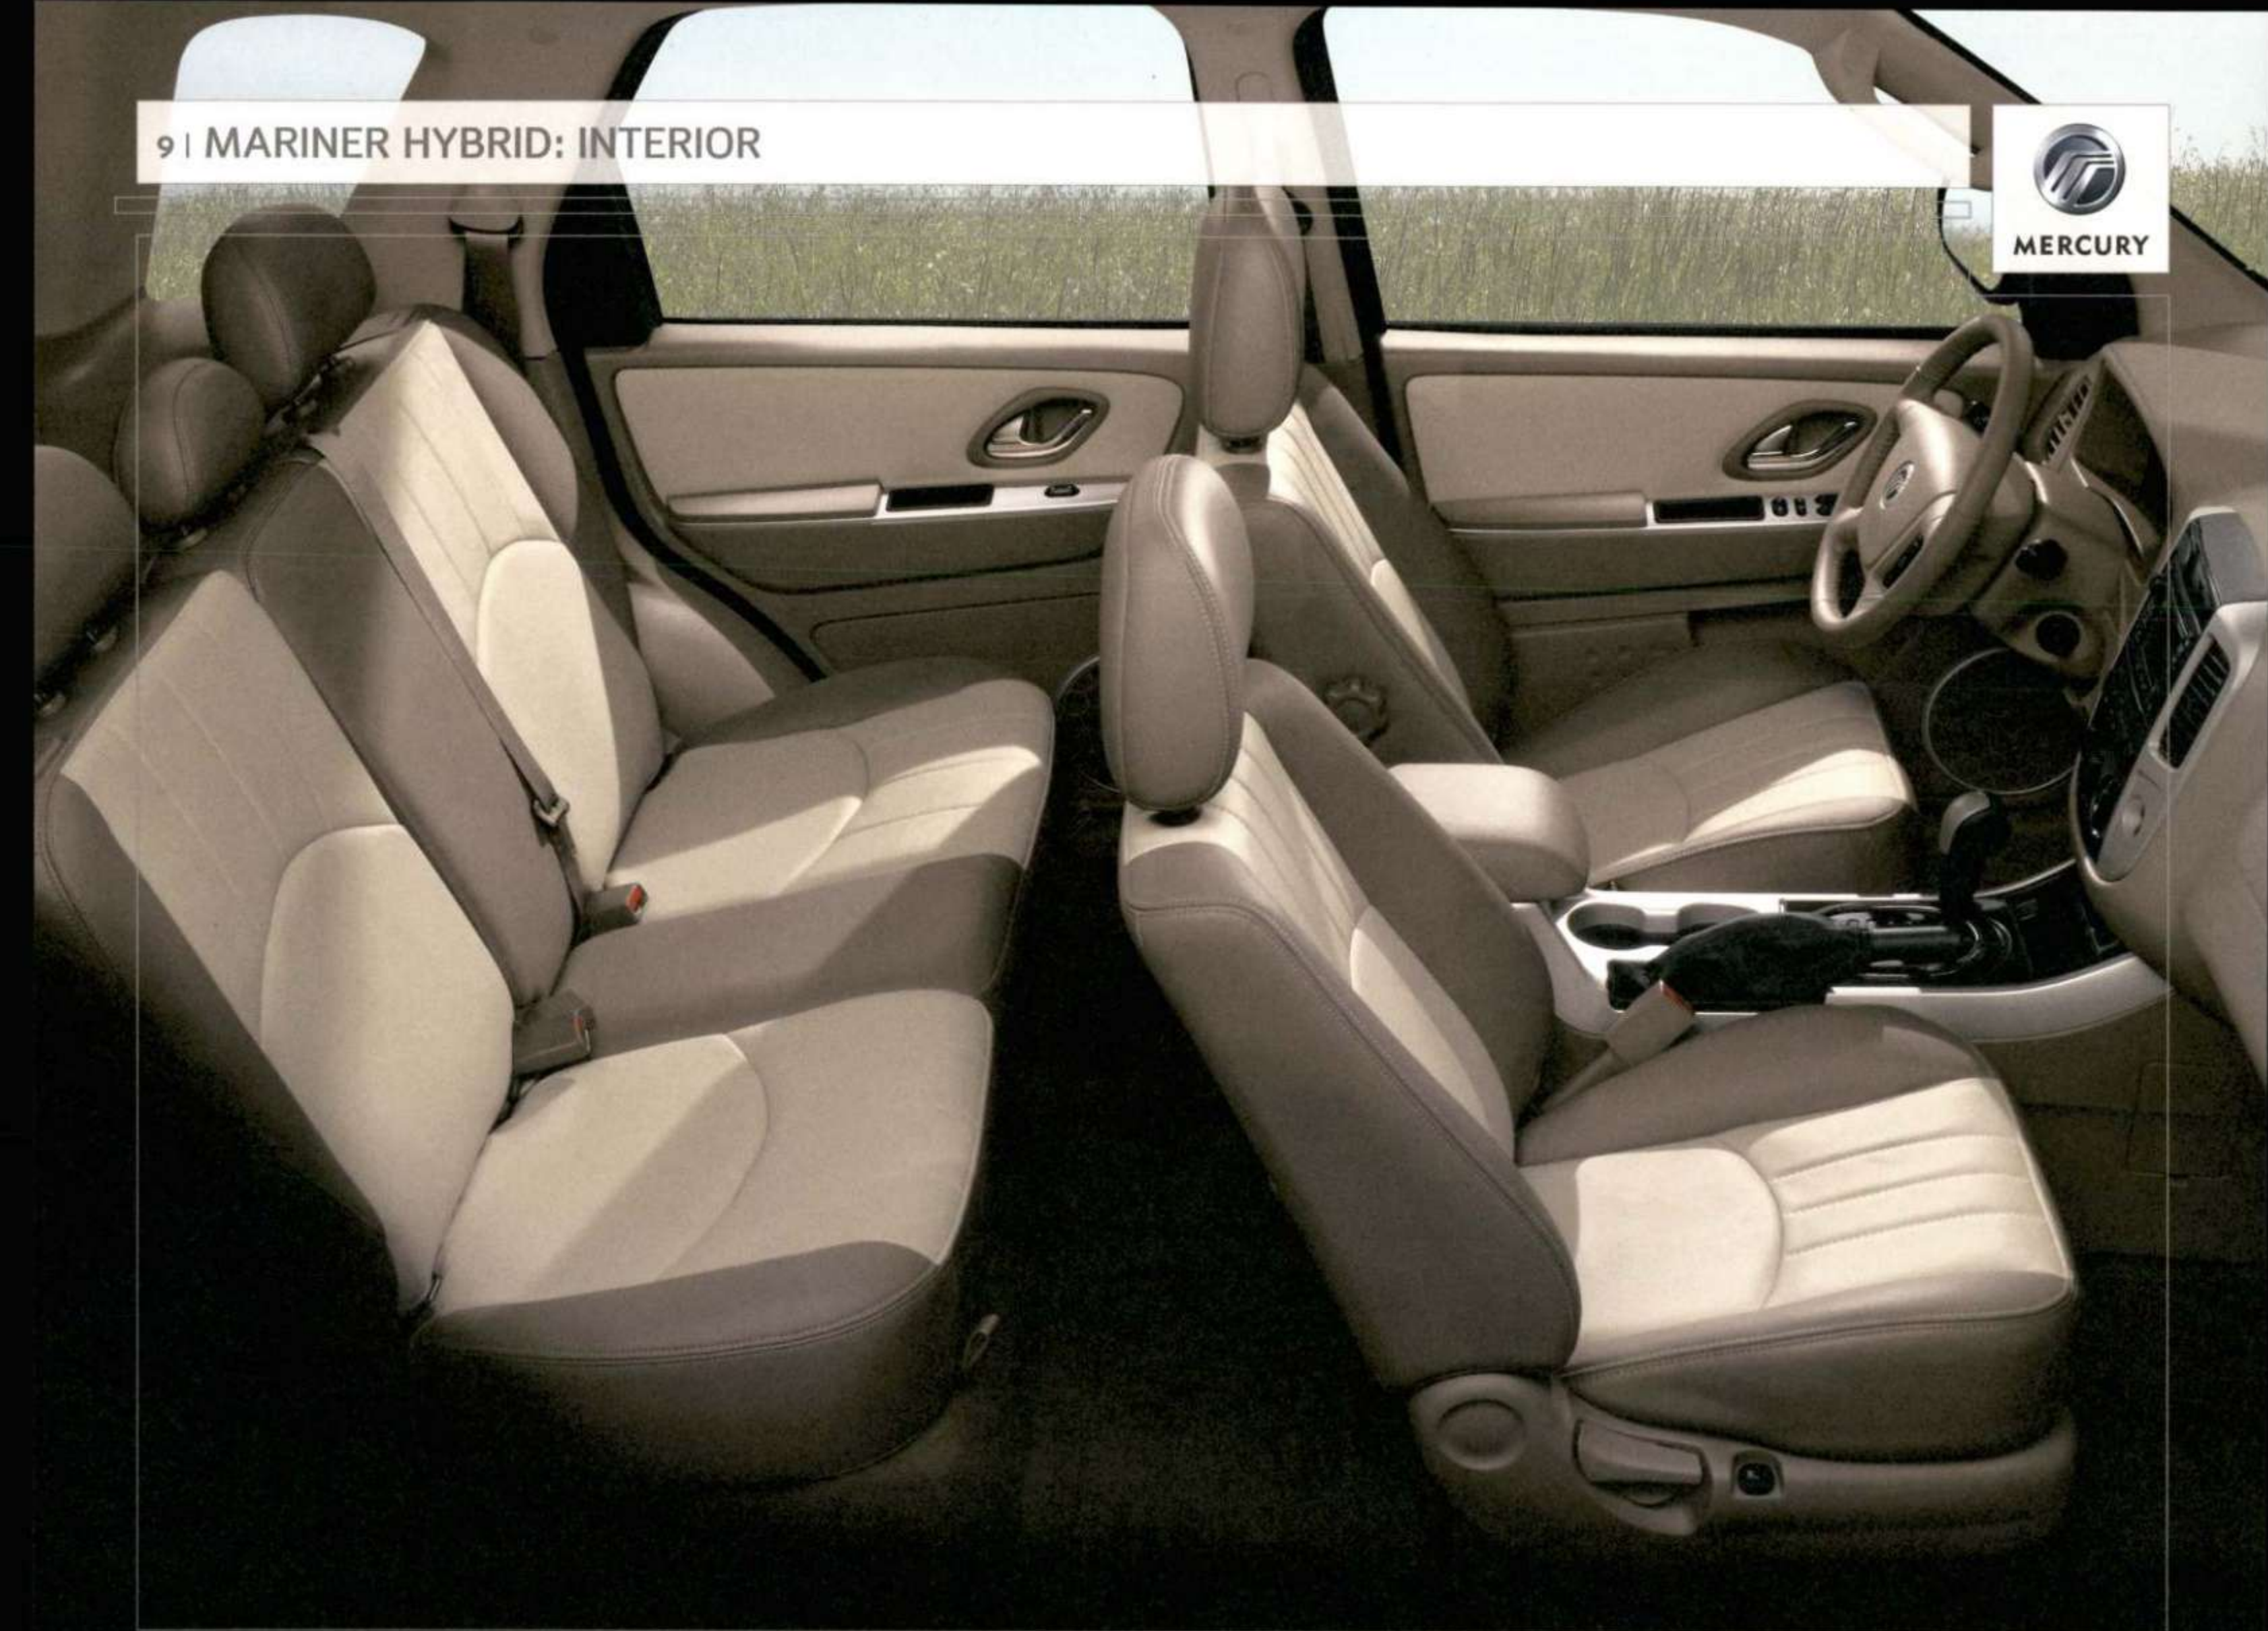

In addition to these sumptuous surfaces, you're pampered by Mariner Hybrid's environmental responsibility and **long list of standards**. In addition to the features pictured here, you'll find power sideview mirrors, door locks and windows, a remote keyless-entry system with 2 key fobs, and a driver's-side keyless-entry keypad, all standard. And for your listening pleasure, there's a 6-disc in-dash CD changer with 4 speakers, MP3 and SIRIUS Satellite Radio capability. For full-hybrid compact SUVs, Mariner Hybrid sets the standard very high.

INDULGE YOURSELF

In honor of your decision to help conserve the earth's precious resources, equip Mariner Hybrid with the **available Premium Package** as the perfect reward. Its premium leather-trimmed seats will draw admiring glances, while the Hybrid Energy/Navigation/Audiophile® System (with 6-disc CD changer) is MP3 and SIRIUS Satellite Radio capable. Heated front seats keep things cozy, while heated sideview mirrors keep your view clear. In back, a retractable cargo-area cover helps keep personal items concealed. A **power moonroof**, available with the Premium Package, serves as the perfect pick-me-up when it turns warm.

GUIDING YOUR ENTERTAINMENT

Whether you're checking out your savvy hybrid energy use, locating a new concert venue or just jamming to your favorite CDs, Mercury Mariner Hybrid offers the system you need.

To get all these features in one easy-to-use system, choose the available Hybrid Energy/Navigation/Audiophile® System. Its 3.8" LCD color screen can display your fuel economy, current hybrid energy flow, navigation system maps or audio details. There are **5 different hybrid energy-flow screens**, including Idle, Electric Drive, Hybrid Drive, Engine Drive and Charging HV Battery (Regenerative Braking). The handy navigation system includes a **full map mode and turn-by-turn voice directions**. The Audiophile Sound System with 6-disc CD changer, MP3 capability and 4 speakers rounds out the system.

The Audiophile system is also available as a stand-alone option on Mariner Hybrid, cranking out 320 watts of peak power through its 7 speakers, including an 8" subwoofer that provides **deep, powerful bass tones**. For even more listening enjoyment, you can add SIRIUS Satellite Radio* service to any system and receive over 120 channels of coast-to-coast music, news, sports and entertainment.

SUPERLATIVE SPACE

In addition to its advanced hybrid technology, Mariner Hybrid has serious SUV capability – including all the **people-hauling, cargo-carrying versatility** you demand. Mariner Hybrid seats up to 5 in complete comfort, not to mention in sophisticated style.

Both the driver and front-passenger doors feature deep, recessed pockets (shown below) that are perfect for keeping your everyday essentials close at hand. And Mariner Hybrid's rear cargo area also includes a storage pocket where you can tuck small items to keep them from rolling around.

With a full 62.1 cu. ft. of cargo space at your disposal after the convenient 60/40 split rear seat is folded down, your next trip to the farmer's market or furniture store is sure to be a success with Mariner Hybrid's flat and spacious rear cargo area. Even with the rear seat up, there's 27.6 cu. ft. of usable space in the cargo bay. For those times when you need even more cargo room, the **2nd-row seat cushions can be completely removed**.

**FUN TO DRIVE**

Mariner Hybrid's ideal proportions, combined with its power rack-and-pinion steering and 4-wheel fully independent suspension, give it the flexibility to truly shine in the curves. This fact is further enhanced by its ability to zoom past the pumps where other SUVs are filling up.

RESPONSIVE STEERING

By constantly reacting to your input, Mariner Hybrid's power rack-and-pinion steering puts you in complete command. With it, you have the control you need, whether navigating a rough patch off-road or parallel parking on a crowded boulevard.

INDEPENDENT SUSPENSION

Whether you need on-road agility or simply want the flexibility to drive over an off-road obstacle, you'll appreciate Mariner Hybrid's 4-wheel fully independent suspension. Since each wheel has the ability to react separately, it delivers remarkably precise handling, even over rough surfaces.

ANTI-LOCK BRAKES

Mariner Hybrid's Anti-lock Brake System (ABS) empowers you to make the most of every drive. If wheel slip is detected during braking, ABS engages to provide maximum steering control and stopping power.

INTELLIGENT 4WD

Mariner Hybrid's Intelligent 4WD System gives you confident control in every situation. The system monitors traction 5000 times per second and automatically adjusts torque as needed. It's always on and always working, so you're free to simply enjoy the ride.

3-POINT SAFETY BELTS THROUGHOUT | HIGHLY VISIBLE TAILLAMPS | LATCH SYSTEM FOR CHILD-SAFETY SEATS | STRATEGIC CRUMPLE ZONES | COOLANT-LOSS PROTECTION

Full of style and sophistication, the 2006 Mariner Hybrid is also **brimming with innovative features** that lend a feeling of serenity and security to your everyday driving. A standard remote keyless-entry system includes 2 key fobs, plus a driver's-side keypad for those times when you lock your keys inside, or when you just don't want to carry them with you.

Standard on every Mariner Hybrid, our innovative **Personal Safety System®** uses a network of sensors to enhance protection for the driver and front passenger in

certain frontal collisions. It customizes the deployment of the front airbags based on several criteria: the driver's seat position; whether a front passenger is present and his/her weight range; whether the front safety belts are in use; and the overall severity of the impact. The latest in occupant-sensing technology, the **Front-Passenger Sensing System (FPSS)** determines whether or not the front-passenger airbag should be activated after verifying safety belt usage and the amount of pressure exerted on the passenger seat. A message illuminates to indicate when the airbag has been automatically disabled.

Mariner Hybrid's available **Safety Package** adds front-seat side airbags and side-curtain airbags to the Personal Safety System. The side-curtain airbags (Safety Canopy™ System) deploy from the headliner on both sides of the vehicle and remain inflated longer to help further protect outboard occupants in both the 1st and 2nd rows. A rollover sensor directs their deployment in the event of a rollover or in certain side-impact collisions.
