 **Mahindra**
Rise.

POISED TO POUNCE.

JAW-LIKE FRONT GRILLE

POUNCING
CHEETAH-INSPIRED
BODY LINES

The design is unmistakable. With bold, glorious lines that trace the world's most agile animal in action. Muscular wheel arches that accentuate its impressive, broad stance. And the distinct, paw-styled door handles that you can't tear your eyes off. But the fierce, assertive look is most apparent head on. One glance at the intimidating, jaw-like honeycomb grille and you'll notice the vehicle's innate desire to pounce at anything that stands before it.

THE CHEETAH-INSPIRED XUV500.

The XUV500 is a pioneer, even in design. Walk around the vehicle and you'll discover how every single element has been masterfully sculpted. A chiseled, aerodynamics body that ruthlessly cuts through the air to provide limitless exhilaration. Racing-inspired twin exhausts. Even uniquely designed tail lamps that look worthy of being followed. Clearly, the only thing lacking in design is a compromise.

- 1 Intimidating, jaw-like honeycomb grille
- 2 Unique, paw-styled vertical door handles
- 3 Elegant tail lamps
- 4 Racing-inspired twin exhausts
- 5 Stylish alloy wheels
- 6 Streamlined roof rails
- 7 Static-bending Projection Headlamps
- 8 Powerful fog lamps
- 9 Impressive LED parking lights
- 10 Power-foldable and adjustable ORVMs

PHYSICS-DEFYING AGILITY. TORQUE mHAWK

The XUV500's authoritative exterior promises unbridled excitement. And its mHawk engine lives up to the promise. This 2.2 ltr powerplant delivers an output of 140 bhp and an impressive torque of 330 Nm. Step on the pedal and the scenery begins to blur. The 5th generation variable geometry turbocharger ensures instantaneous acceleration.

- Powerful, 2.2 ltr, Torque mHawk diesel engine
- 140 bhp (103 kW), 330 Nm torque
- All Wheel Drive
- Electronic Start/Stop System
- Sat Nav Ready
- Monocoque construction
- Independent suspension with McPherson struts
- Lightweight body with high-strength steel

MONOCOQUE CONSTRUCTION. FOR DREAM-LIKE HANDLING.

This is the essence of the XUV500's uncompromised driving dynamics. The monocoque construction is found only in the most modern SUVs around the world. Here, the vehicle body and platform are integrated into a single unit. The result is an excellent power to weight ratio, unmatched handling and undiluted driving pleasure.

HELL-BENT ON STABILITY. EVEN IN SLIPPERY CONDITIONS.

Here's another unique feature that doesn't feature in most vehicles - an intelligent All Wheel Drive system that lets you tackle slippery road conditions, such as during heavy rains, snow and ice, with ease. The Interactive Torque Management system automatically redistributes the torque between the front and rear wheels. This seamless transition from 2WD to AWD without any driver intervention gives you a level of handling prowess unmatched by conventional vehicles.

AWD

SPORTY SUSPENSION. FOR RACE-TRACK LIKE DRIVES.

The sporty suspension of the XUV500 gives a lot of room for fun. In fact, the McPherson struts up front and the independent multi-link suspension in the rear have been tuned in collaboration with Lotus™, a world renowned name in motorsport.

TECHNOLOGY. AT ITS LUXURIOUS BEST.

LIGHT-YEARS AHEAD. AND STILL AT YOUR FINGERTIPS.

To create the next generation of SUVs, you have to advance past the status quo. Probably why the XUV500 lets you discover features that most other cars have yet to. Take the Blue Sense technology, for example. Headquartered in the first-in-class, 6-inch LCD touchscreen infotainment system, it is the single touch-point for controls like music, temperature and navigation.

Here, you'll also find a full-fledged Driver Information System that diligently reports to you with all the vital information about the car. It tells you how far the existing amount of fuel can take you. It monitors the air pressure and temperature of each tyre. It even controls the cabin temperature for you.

In most cases, mere words are enough to express your desires. Blue Sense technology lets you take wireless, vocal control of a number of systems like music and mobile calls using Voice Commands.

For more intelligent features like rain and light sensors, even words are unnecessary. The wipers and headlamps are activated automatically whenever external conditions demand.

- Fully automatic temperature control with dual HVAC
- Blue Sense technology
- Tyre-tronics (Tyre Pressure Monitoring System)
- Steering-mounted audio and cruise controls
- Smart rain & light sensors
- Intellipark (Reverse Parking Assist System)
- Crystal clear door speakers with built-in tweeters
- Mobile charging points in all rows
- Convenient remote keyless entry

ONE PART SANCTUARY. ONE PART FORTRESS.

Few vehicles are as fortified as the XUV500. And at the heart of this fortification is the Electronic Stability Program (ESP). Think of it as the commander of an arsenal of safety features like Anti-lock Braking System (ABS), Electronic Brake-force Distribution (EBD), Rollover Mitigation and Traction Control.

ROLLOVER MITIGATION

Rollover mitigation closely monitors a range of parameters and identifies potentially dangerous driving conditions that could lead to the vehicle rolling over. Well before the situation becomes threatening, it causes the ESP system to intervene and control the vehicle speed, thereby restoring stability.

DANGER DOESN'T ALWAYS COME HEAD-ON.

The XUV500 is well equipped to keep you out of harm's way. Six airbags reinforce the safety of the vehicle. Driver & passenger airbags, side airbags and curtain airbags cocoon you. As if that wasn't enough, the vehicle's body also comes with side impact beams and thoughtfully located crumple zones.

- 6 airbags (front, side and curtain)
- Anti-lock Braking System (ABS) with EBD
- Impact absorbing crumple zones for crash protection
- Hill Hold and Hill Descent control
- Side impact beams
- Disc brakes on all wheels
- Electronic Stability Program (ESP) with Rollover Mitigation
- Tubeless tyres

A DASHBOARD WITH A DASH OF ELEGANCE.

Elegance is sewn into every detail of the XUV500. Notice the texture and finish of the dashboard. The exquisite waterfall-style centre bezel that flows down right to the first row. The high-caliber, twin-pod instrument cluster too, is seriously sporty with 3D dials.

ONE HALF STEERING WHEEL. ONE HALF REMOTE CONTROL.

The steering wheel has been designed with an enhanced capacity to control. Its tilt and telescopic adjustment allows personalisation to suit your needs. A plethora of controls surmount the wheel. Controls to toggle music. Controls to activate voice commands. Controls for phone calls. And finally the cruise control button to put your vehicle into 'auto-pilot' mode. Push it to maintain a preset speed without having to keep your foot on the accelerator.

COMFY SEATS. PACKED WITH MORE THAN JUST COMFORT.

A tailor-made throne awaits you on the inside. But there's more to it than just the supple leather that meets the eye. The front seats are bolstered to keep you in place during high-speed cornering. The driver's seat is adjustable in 8 different ways including height and complete lumbar support adjustment. Another useful feature is the ability of the last two rows to completely fold away and transform the XUV500 into the perfect vacation vehicle.

Step in. Take the wheel. And find around you all you need for that incomparable feeling. Seats, steering wheel and several other contact points wrapped in pure leather. Intuitive and intelligently placed storage and controls. Individual climate-control vents for each of the occupants. All coming together to create an atmosphere of sheer exclusivity.

Perhaps one of the most unique features of the XUV500 is the lounge lighting. Push a button and concealed lights transform the cabin into a lounge. Making you feel relaxed and invigorated at the same time. It's the kind of feeling no other car can come close to satisfying.

- ❶ Concealed lounge lighting
- ❷ 8-way adjustable leather seats including lumbar support
- ❸ Voice command-activated audio and cruise controls
- ❹ Conveniently placed cool box
- ❺ Sporty twin-pod instrument cluster
- ❻ Waterfall-style central bezel

LEATHER-WRAPPED LOUNGE.

SPECIFICATIONS

Engine	mHawk ¹⁴⁰ , Direct Injection diesel engine 5 th generation Variable Geometry Turbocharger (VGT)
Cubic capacity	2179 cc
Max. gross power	140 bhp (103 kW) @ 3750 rpm
Max. gross torque	330 Nm @ 1600-2800 rpm
Gear box	6-speed synchromesh manual
Tyres	P235/65 R17, radial tubeless
Suspension	Independent suspension
Front	McPherson type with anti-roll bar
Rear	Multi-link type with anti-roll bar

SPECIFICATIONS

Brakes	All disc brakes
Front	Disc & caliper type
Rear	Disc & caliper type
Fuel tank capacity	70 litres
Turning circle radius	5.6 m
Gross vehicle weight	2450 kg
Vehicle dimensions	
Wheelbase, mm	2700
Overall width, mm	1890
Overall length, mm	4585
Overall height, mm	1785

FEATURES

Technology

Torquey mHAWK with 5th generation Variable Geometry Turbocharger
Electronic Start/Stop system
Sat Nav Ready
6-speed transmission
Static-bending projection headlamps with LED parking lights
6" colour touchscreen infotainment display
Integrated music system with CD/MP3, iPod & USB connectivity
4 door speakers with 2 tweeters on dashboard
DVD player
DIS in-built in infotainment system
Tyre-tronics
Intellipark
Smart rain sensing wipers
Intelligent light sensing headlamps
Digital immobiliser
Digital trip & tachometer
Glass embedded antenna

Safety

Dual airbags (driver + passenger)
Side & curtain airbags
ABS with Electronic Brake-force Distribution (EBD)
Electronic Stability Program (ESP) with Rollover Mitigation
Hill Hold and Hill Descent control
Side impact beams
Crumple zones for crash protection
Disc brakes on all wheels

Style

Alloy wheels
Twin exhausts
Front and rear fog lamps
Chrome scuff plate for 1st and 2nd row
Roof rails
Cladding strips
Dual tone interiors
Cubic-printed central console with metal accents
Twin-pod instrument cluster with 3D dials

FEATURES

Comfort

Tilt power steering
Telescopic steering
Fully Automatic Temperature Control (FATC) & dual HVAC
Leather upholstery
Power-adjustable ORVMs
Power-foldable ORVMs
Centre armrest with cup holders in 2nd row
8-way adjustable seats including height and lumbar adjust (driver's side)
Height adjustable seat belts (front row)

Convenience

Cruise, audio, phone controls & voice command switches on steering
Power windows with driver side express down
Remote tailgate opening
Flip-key with remote central locking
Storage spaces on centre console
Reading lamps in all 3 rows
Conversation mirror
Tinted solar-reflecting glass
Mobile charging points (all 3 rows)
Rear wash and wipe
Rear demister
Follow-me-home headlamps
Lead-me-to-vehicle lamps
Illuminated key rings
Puddle lamps
Entry assist lamp
Door ajar lamps
Camping lamp
Remote fuel lid opener (electrically operated)
Glove box with laptop holder
Flexi-seat configuration for convenient storage (60:40 foldable 2nd row, 50:50 3rd row)
Flat-foldable 2nd and 3rd row seats
Umbrella holder

Dolphin Grey

Opulent Purple

Moondust Silver

Volcano Black

Satin White
