## TechX

Drive smarter, charge faster, travel in style - the fully loaded e2o.

**£15,995\***

[COMPARE MODELS](#)

\*Price after UK Plug-in-car-grant.

## Spend less than £10 per month on fuel

If you drive the national average of 7,900 miles per year and charge at home at night using an Economy 7 tariff, then you will spend under £10 per month. The e<sub>2</sub>o beats your other modes of transport hands down.

## Add free miles to your range as you motor along

Energy captured during braking is fed back to the battery, so that range number may not drop for a while. Tread lightly and you will even see it go back up.

## Benefits galore and a tax heaven for businesses and employees

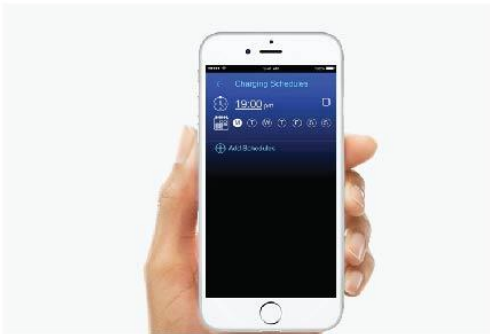

The e<sub>2</sub>o is exempt from the £11.50 per day Monday to Friday London Congestion Charge, zero rated for annual road tax (vehicle excise duty), and benefits from a wide range of incentives across the country, including free and discounted public on-street parking and charging.

# An extension of modern life.

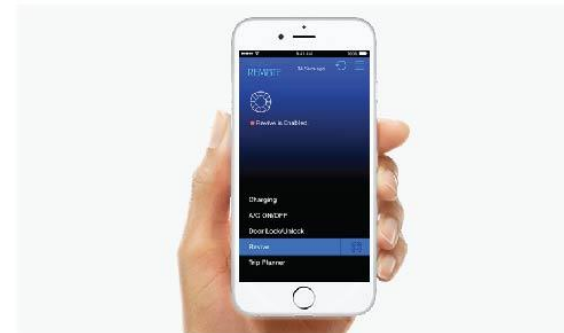

## Cut your charging cost into half with Scheduled Charging

Programme your e<sub>2</sub>o to start charging at home during the Economy 7 tariff (typically from midnight to 7am) and cut your recharging costs in half compared to daytime charging.

## Remote emergency refuelling at a touch on your phone

For the rare occasion when you hit your limit, press Revive<sup>®</sup> on your e<sub>2</sub>o Remote<sup>™</sup> app for an additional 8 miles range, to get you home or to a charging point.

## Plan your journeys with Trip Planner

With Trip Planner<sup>™</sup> on the e<sub>2</sub>o Remote<sup>™</sup> app see your trip in the simplest terms, with range circles showing how far you can comfortably drive to, or drive to and back again.

## Your e2o will never leave you cold

Via the e<sub>2</sub>o Remote<sup>™</sup> app you can warm the car from the comfort of your home when plugged in so that you still have a full tank when you leave. Do the same when you have to pre-cool the car.

## That's Infotainment

Bluetooth, Wi-Fi hotspot connection, MP3/iPod connectivity, DAB/FM/AM radio. streaming, apps, graphic equaliser. USB, SDHC, user manual, you name it, the 6.2" Blaupunkt Android touchscreen infotainment centre connects you to your world any way you want.

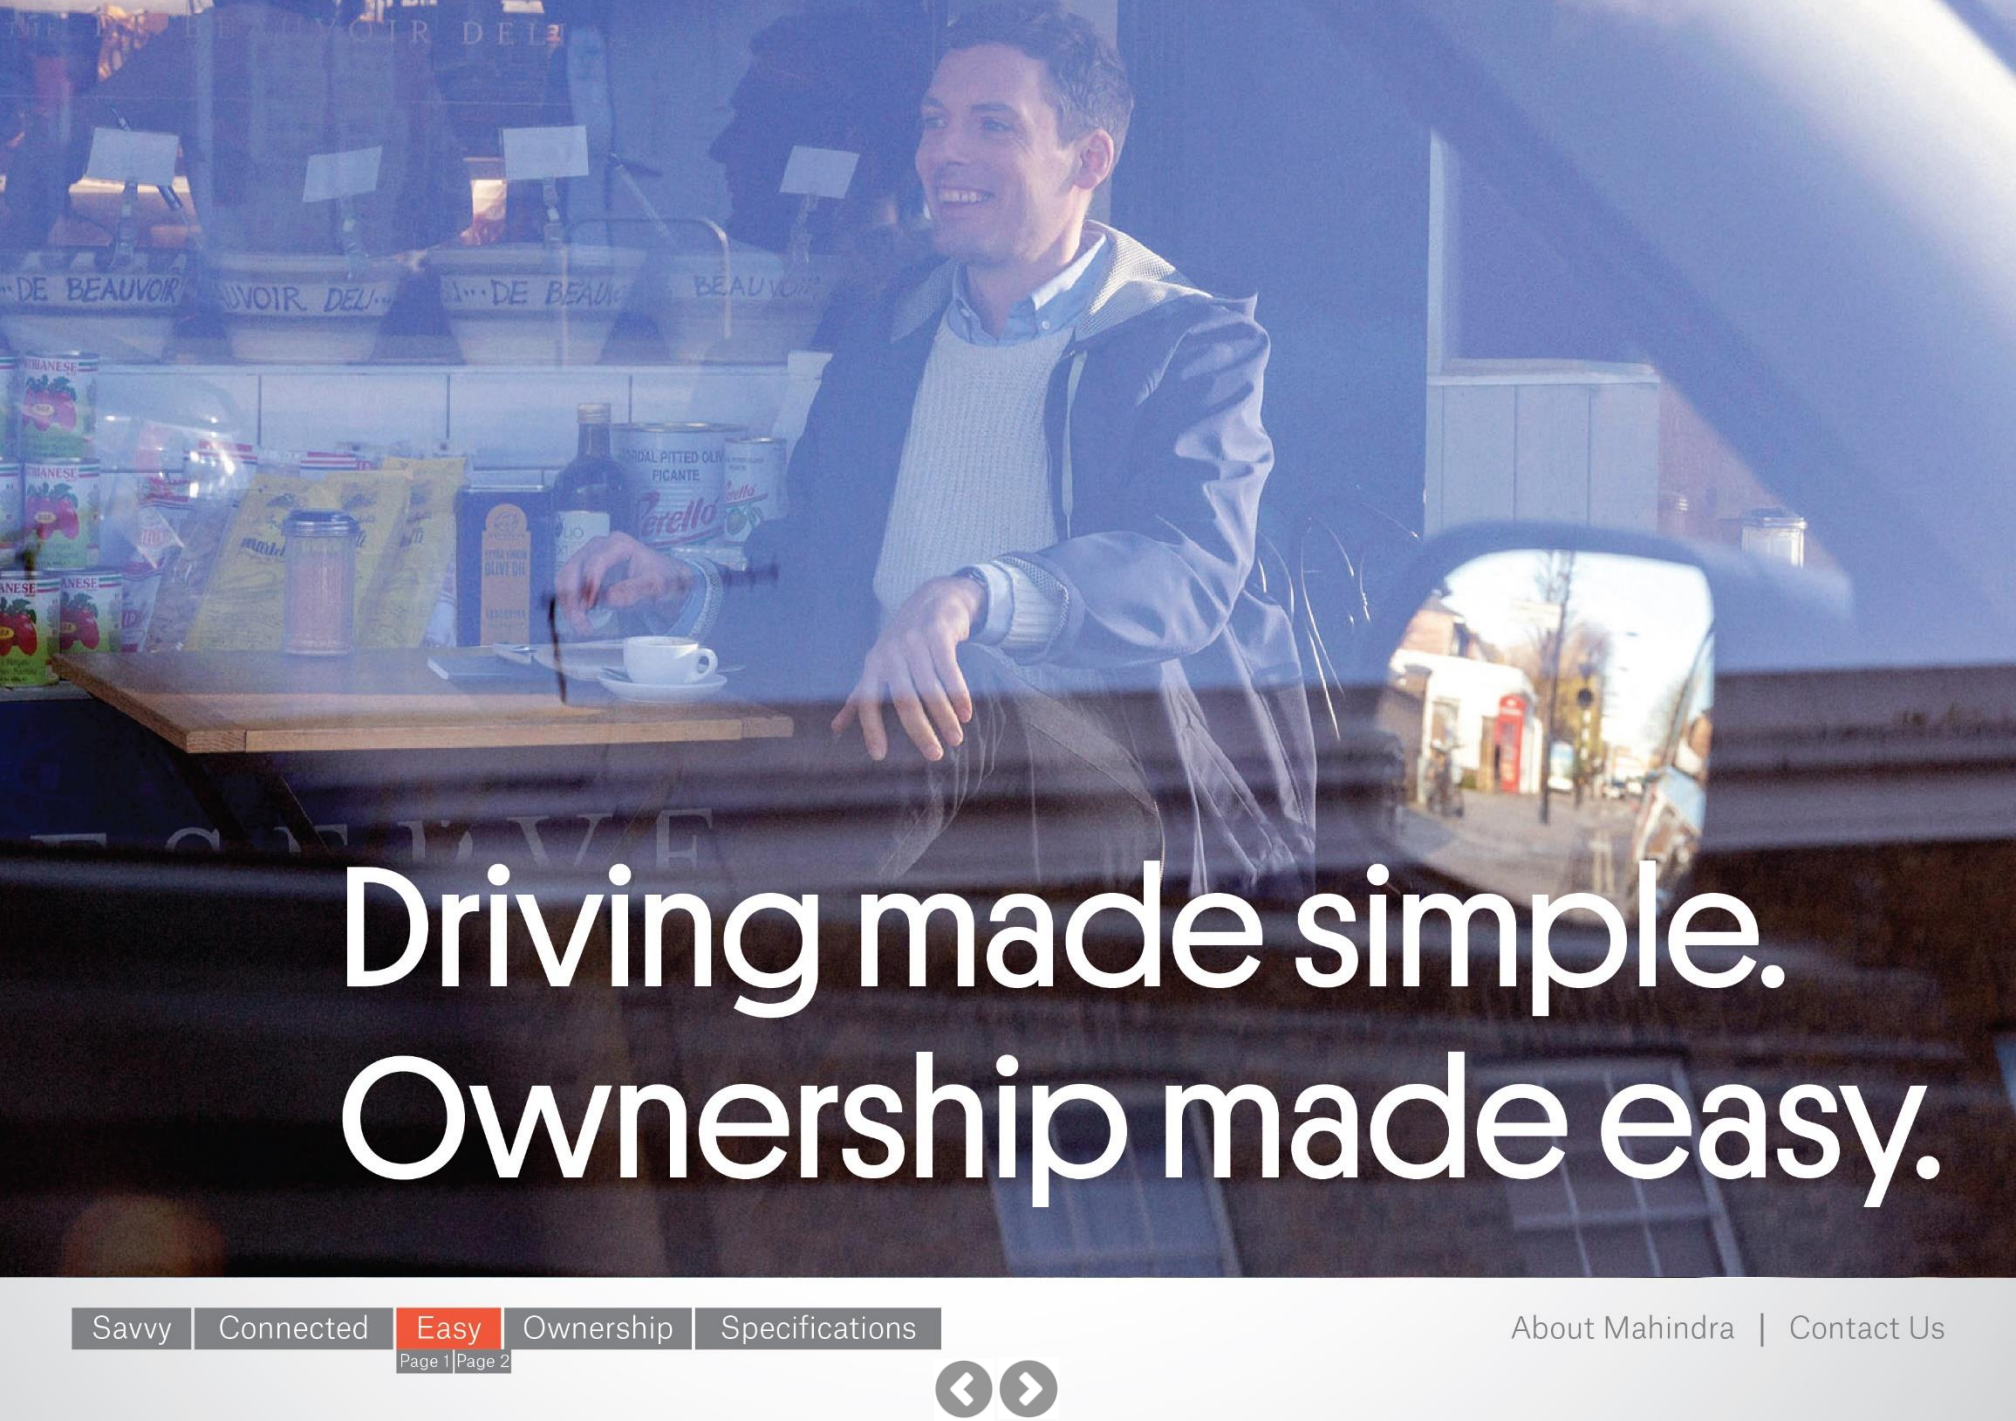

## Everything to Hand

The e<sub>20</sub>'s steering wheel enables you to control the infotainment centre without taking your hands off the wheel. Adjust the volume, mute/unmute, change music track, switch from radio to bluetooth to DAB, all safely and effortlessly.

## In-car health checks direct from Formula E

Just like the Mahindra Formula E race car, the e<sub>20</sub> sends frequent 'heartbeats' of data via partner Vodafone back to our remote monitoring station, where they are checked to ensure everything is working optimally.

# Driving made simple. Ownership made easy.

## 3 point turns? Try 1 point turns

Thanks to the tiny 3.85 metre turning circle. If a sixpence still existed the e<sub>2</sub>o would turn on it.

## Room at the top, and at the back

The tall-boy design of the e<sub>2</sub>o gives fantastic visibility and road presence, whilst the tardis-like rear cabin offers surprisingly spacious leg room for adults and giraffes. Don't take our word for it, go for a stretch yourself.

## Eyes in the back of your head

Parking and reversing are made easier with rear facing camera.

## ISOfix your valuables

Equipped with ISOfix, the generous rear seat compartment allows you to lock in your child's car seat securely and is the safest, easiest and quickest way to fit a child car seat correctly.

## As easy as charging your smartphone

Charge at home or at workplace by simply plugging your e<sub>2</sub>o into any 16 amp socket. A full charge takes 9 hours, With a top-up rate of roughly 1 mile every 8 minutes. Plug it in the night and have a full tank every morning.

## Rapid charging for those extended range journeys

Rapid charging is available on the e<sub>2</sub>o TechX and allows your battery pack to fill up more quickly. A full charge (0-95%) takes about 90 minutes, top up at a rate of roughly 1 mile every one and a half minutes. It effectively doubles your daily range and enables you to venture out further on those occasional longer journeys.

## Busy ? We come to you

Nobody enjoys driving their car to the service centre, so for more than 90% of warranty repairs and 100% of servicing, Mahindra mobile engineers come to you to maintain your e<sub>2</sub>o. For total peace of mind, 1 year's roadside assistance and breakdown recovery is included in the price.

As you  
drive it.

# OWNERSHIP

## Charging

The e<sub>2</sub>o City and the e<sub>2</sub>o TechX are fitted with a standard charging port. A full charge takes 9 hours using either the 3-pin charge cable supplied (for charging using ordinary domestic /workplace 220/240V 16 amp sockets) or the Type 2 cable suitable for charging at public charge points (additional cost).

The e<sub>2</sub>o TechX is fitted with a second, rapid DC (CHAdEMO) port. The CHAdEMO chargers have a fixed charging cable that connects to the e<sub>2</sub>o's rapid charging port, and there are approximately 1500 CHAdEMO rapid charging points around the UK. Rapid charging charges the e<sub>2</sub>o at approximately 1 mile every one and a half minutes (empty to 95% charge in 90 minutes).

Please note that charge times may vary. For an up to date map of charge points please refer to [zap-map.com](http://zap-map.com)

## My e<sub>2</sub>o

My e<sub>2</sub>o button at the top right side of the website page is the place where you will enter your personal details and find your vehicle documentation including the QuickStart guide, Warranty manual, and Service history. Detailed support material can also be found on the e<sub>2</sub>o TechX infotainment centre.

## Warranty, annual service and roadside assistance

For your convenience, Mahindra provides mobile service support for 90% of maintenance under warranty and for all annual servicing of your e<sub>2</sub>o. Every new e<sub>2</sub>o is supported with a Mahindra 3-year / 60,000 miles warranty plus an optional 2-year battery extended warranty. In the event of a problem after delivery of your e<sub>2</sub>o, simply call the Mahindra Customer Hotline on 0330 1599115. In some circumstances you may be requested to drive your e<sub>2</sub>o to one of our regional workshops.

Your e<sub>2</sub>o requires a service annually or every 10,000 miles, whichever is the sooner, which for your convenience is performed on a mobile basis. If you live within 20 miles of our service centre in Hayes, Middlesex, you may be requested during busy times to bring your e<sub>2</sub>o here for servicing, and you may also request to have your e<sub>2</sub>o serviced at our service centre in Hayes, Middlesex.

Your new e<sub>2</sub>o is automatically covered free of charge for roadside assistance and breakdown recovery for one year from the date of delivery. After the first year you can continue the cover at your cost. e<sub>2</sub>o owners call 08000 737 283 for breakdown assistance.

Contact your Customer Consultant for further information on any of the above.

# OWNERSHIP

## Replacement parts

We carry a full stock of Mahindra replacement parts for your e<sub>2</sub>o. These are normally available by courier within 24 hours, delivered to a Mahindra mobile engineer who will undertake the work for you either under warranty or for a labour charge if your e<sub>2</sub>o is out of warranty. For further information, contact your Customer Consultant.

## Body shop

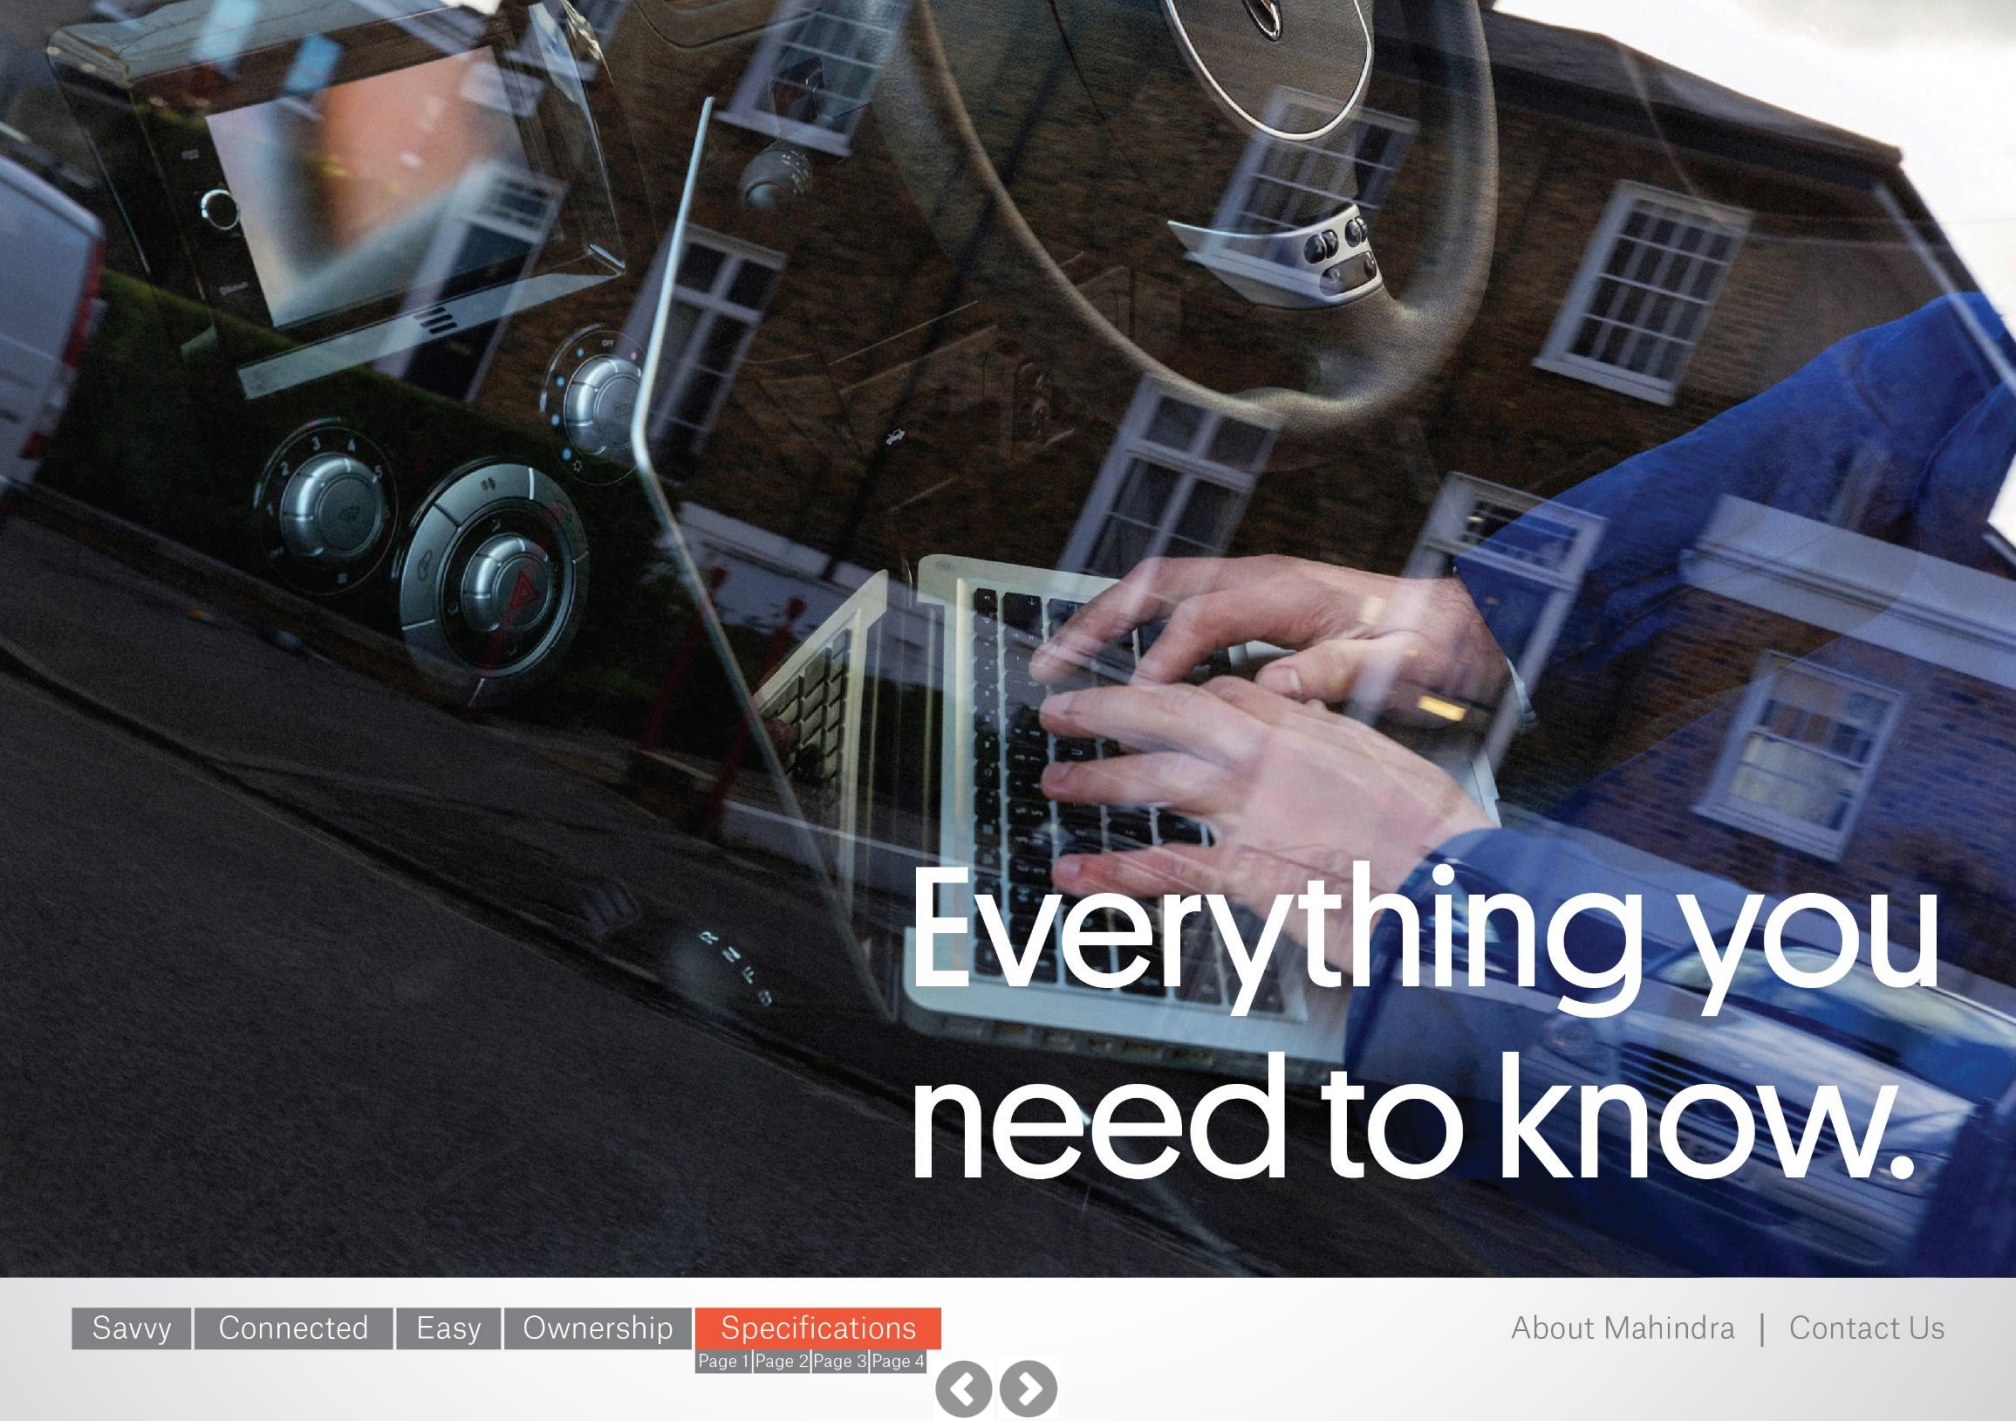

The e<sub>2</sub>o features scratch and dent-resistant ABS body panels. However, in the event that repair work is required for body panels or to other parts of your e<sub>2</sub>o, please call the Mahindra aftersales hotline on 0330 1599115.

## Aftersales Service Area

Aftersales service and warranty support is provided in mainland England and Wales. Additional charges apply for other areas of Great Britain. Aftersales support is not provided in Northern Ireland.

Contact a Customer Consultant to discuss your requirements or call the aftersales hotline on 0330 1599115.

## Assembly

- Located not far from Electronic City, Bangalore, India, the Mahindra e<sub>2</sub>o assembly plant is one of the world's most energy-efficient manufacturing plants and the first automobile plant to receive Platinum rating from the India Green Building Council.
- Solar powered, rainwater harvested, naturally lit, cooled and ventilated, Forbes described it as "inspired by trees, vertical gardens and noiseless technology, the Mahindra factory resembles a futuristic retreat rather than a manufacturing facility".

## Structure

- The e<sub>2</sub>o is a compact 3-door hatchback. Featuring a tall-boy design for superior visibility, the e<sub>2</sub>o seats 4 adults in comfort, and is constructed around a tubular steel space frame, with large front crumple zone and dual side impact beams, on to which are bonded (not welded) colour impregnated dent-resistant ABS plastic body panels, materials, a process that is much less polluting than steel panels sprayed with paint. The result is a low carbon, lightweight yet strong, maneuverable, and highly energy-efficient city car.

## Safety

- M1 class European Community Whole Vehicle Type Approval (EC WVTA) by the UK Vehicle Certification Agency.
- Dual front air bags; anti lock braking system (ABS); electronic stability and traction control (ESC), emergency brake assist, electronic brake distribution, speed limiter.
- Emergency locking retractor seat belts (ELR), rear ISOFix child seat fixings, adjustable front and rear head rests.
- Tyre pressure monitoring system (TPMS), daytime running lights, and central door locking.

## Connectivity

- Blue LED console instrument cluster including state of charge and distance to empty.
- e<sub>2</sub>o Remote™ app that enables cabin pre-heat and pre-cool, charge start/stop, remote door lock/unlock and Trip Planner™ journey planning.
- Blaupunkt 6.2" touchscreen infotainment system with range remaining maps, satellite navigation system, charge point finder, driver information system, Bluetooth, Wi-Fi hotspot connection, MP3/iPod connectivity, DAB/FM/AM radio, USB port; steering wheel with infotainment controls.
- Always-on telematics system for remote diagnostics and driver alerts.

## Comfort and Convenience

- Mahindra smartfob with Push-Button Start keyless authentication system
- Direct drive 'automatic' transmission
- Reversing camera
- LuxPack comprising leather seats and alloy wheels
- Electronic power steering, '1 point turn' 3.85m turning radius for ease of parking and manoeuvrability
- Follow-me-home headlights, electric side mirrors, front electric power windows
- Air conditioning
- Under-bonnet front storage, one touch fold-flat rear seats, rear washer/wiper
- First year roadside assistance and breakdown recovery, Mahindra mobile servicing and warranty support (our technicians come to you, so you don't have to waste a day driving to and from or hanging around at a service centre)

## Performance

- Zero vehicle emissions, ultra low power station emissions when charged at home at night from the grid (approximately one third to one half the emissions of the cleanest diesels), virtually none when charged using electricity from renewable sources (typically rooftop solar)
- 72V powertrain with usable 13.9 kWh maintenance free 69 cell lithium-ion battery pack, NEDC range 79 miles plus up to 8 miles Revive<sup>®</sup> emergency remote refueling. Top speed 63 mph; nippy instant EV torque with Boost mode for extra power and regenerative braking for free extra miles.

Note: The NEDC range quoted of 79 miles plus up to 8 additional miles of Revive<sup>®</sup> is the official range under ideal driving conditions. As a general guide, the typical drivable range is 60-70 miles during warmer months and 50-60 miles during colder months, with up to 8 miles of Revive<sup>®</sup>. Note that this is an approximate guide only and that the range of electric cars is affected by the way you drive, cold weather, hilly terrain, use of the cabin heater or other auxiliaries, weight of passengers or goods in the car, and according to the age and condition of the batteries.

## Charging

- Standard charge port (9 hours full charge) using the 3-pin cable supplied with the car for charging at any standard domestic/workplace 220/240v 16 amp socket, or Type 2 cable (additional cost at checkout) for charging at the rapidly growing UK charging network. Rapid (CHAdeMO) charge port (empty to 95% charge in 90 minutes) for charging at any rapid charge point, currently around 1500 charge points across the UK.
- Revive<sup>®</sup> remote emergency refuelling (up to 8 miles), at the touch of a button from your smartphone or the infotainment centre.
- e<sub>2</sub>o Remote™ app enabling remote start/stop charging (and many other remote features).

## Weight and dimensions

- Length 3278 mm x Width 1575 mm x Height 1570 mm
- Gross Vehicle Weight 1262 kg
- Minimum ground clearance 172 mm
- Turning radius 3.85 m
- Tyre size 165/60 R14/79T

## About Mahindra UK

Mahindra is committed to improving air quality in UK cities by making zero-emission electric cars accessible to all urban motorists. By selling directly to customers online, rather than via expensive dealer showrooms, the Mahindra e<sub>2</sub>o closes the price gap between diesel and electric cars. By optimising vehicle weight and performance for city usage, the e<sub>2</sub>o slashes fuel costs to under £10 per month for e<sub>2</sub>o owners that charge at home at night and drive the national average of 7,900 miles per year.

## About Mahindra

The Mahindra Group focuses on enabling people to rise through solutions that power mobility, drive rural prosperity, enhance urban lifestyles and increase business efficiency.

A USD 16.9 billion multinational group based in Mumbai, India, Mahindra provides employment opportunities to over 200,000 people in over 100 countries. Mahindra operates in the key industries that drive economic growth, enjoying a global leadership position in tractors while also expanding rapidly in the utility vehicles, information technology, financial services and vacation ownership sectors. In addition, Mahindra enjoys a strong presence in the agribusiness, aerospace, components, consulting services, defence, energy, industrial equipment, logistics, real estate, retail, steel, commercial vehicles and two wheeler industries.

In 2015, Mahindra & Mahindra was recognized as the Best Company for CSR in India in a study by the Economic Times. In 2014, Mahindra featured on the Forbes Global 2000, a comprehensive listing of the world's largest, most powerful public companies, as measured by revenue, profit, assets and market value. The Mahindra Group also received the Financial Times 'Boldness in Business' Award in the 'Emerging Markets' category in 2013.
