

Saab 95
Griffin Edition

Saab 9-5 Griffin Edition.

More than enough is just enough.

The Saab 9-5 is one of our most treasured models of all time. As a tribute we have designed a special Griffin Edition with an even higher level of driving inspiration. As always, there's lots of innovative versatility and impressive real-life safety. And an exciting all-turbo engine range to choose from. So if you really want to enjoy true driving exhilaration, welcome in for a close look at the Saab 9-5 Griffin Edition.

Boosted in more than one way.

Turbocharging comes as standard in the Saab 9-5 Griffin Edition. And so do the agility and the impressive response – fine-tuned for fast bends and long-distance comfort. All in a spacious car filled with ingenious utility and lots of convenient features. Welcome to explore a car that's designed to boost your driving experience. Every day on the road.

Dual-zone ACC.

Automatic Climate Control with different temperatures for driver and front passenger. Including electrostatic and carbon filters that help clean the incoming air.

Saab Infotainment.

As standard. Includes AM/FM stereo tuner with RDS, steering wheel controls, MP3-compatible CD player and AUX connection for your MP3 player.

More function. Greater looks.

Scandinavian design is crystal-clear. It's all about form following function. Expressing the inner qualities of the object in a pure and minimalistic way. So, in the Saab 9-5 Griffin Edition we have added lots of function.

Bi-xenon headlights.

As standard on Vector Griffin Edition. Provide much stronger, more daylight-like light. Supplemented with halogen lights on high beam to further improve visibility.

Headlight washers.

As standard. Powerful high-pressure jets help keep the lenses clean.

Front foglights.

As standard. Give a broad low beam that improves visibility on curving roads and in foggy conditions.

The beauty of advanced aerodynamics.

The design says a lot. Sleek, aerodynamic, inspiring and purposeful. On the Saab 9-5 Griffin Edition we've fine-tuned the exterior even further with matt metal-finish front trim and specially selected alloy wheels. Yet we've found room for some under-skin enhancements as well. Try a Saab 9-5 Griffin Edition and find out what true driving inspiration means.

Electrically adjustable front seats.

As standard on Vector Griffin Edition.
Electrically operated driver's seat is standard on Linear Griffin Edition.

Sports leather-trim steering wheel.

3-spoke with thick leather grip with contrasting stitching that matches the handbrake and manual gear lever.
(Standard on Vector Griffin Edition)

Heated front and rear seats.

Can be regulated in two stages in the front seats. In the rear seat the cushion has automatic temperature control.

Alloy wheels.

17-inch 5-spoke alloy wheels with performance tyres.
(Standard on Vector Griffin Edition)

Ready to pilot.

The moment you take off in a Saab 9-5 Griffin Edition you'll sense that special spirit. Echoing the inspiration obtained from our unique aircraft heritage. A focused behind-the-wheel experience in a cockpit-like driver's environment. With instant power at hand and a sensational feeling of control. Supported by innovative systems designed to assist your driving. Intuitive, reassuring and rewarding. And above all, fun-to-drive qualities that are also vital for safer driving.

Experience the cockpit.

The ergonomic driver's environment in the Saab 9-5 is perfectly designed around you, like a cockpit. The most frequently used controls are within convenient reach. You have a commanding view of the instruments and the road ahead. The cockpit also integrates innovative solutions like the ComSense concept and the unique Saab Night Panel – features designed to help you stay a more focused driver.

ComSense – system designed to reduce distraction by briefly delaying warning messages when the brakes or turn indicators are activated. Helps you stay focused, for example when you turn, overtake or brake.

Night Panel – designed to facilitate night driving. Press a button and the instrument panel except for the speedometer fades out. When attention is needed the relevant instrument lights up.

Steering wheel controls – for the infotainment system and the SCC 2. Gearshifting paddles for the optional Sentronic transmission (not TiD).

SCC 2 – Saab Car Computer 2. Integrated in the speedometer. Shows outdoor temperature, fuel consumption, estimated distance on remaining fuel, distance to destination, estimated time of arrival and speed warning.

Cruise control – keeps the car at the speed you set.

ACC – Automatic Climate Control. Different temperatures for driver and front passenger. Electrostatic/carbon filter cleans the incoming air from particles down to 0.004 mm in size. Effective against dust, soot, pollen, certain bacteria and several harmful gases.

SPA – Saab Parking Assistance. Alerts you when you get close to an object behind the car. Helps when parking in tight spots.

Improve your position.

Can a seat affect the way you drive? Absolutely. That's why Saab has a history of developing class-leading seats with innovative world-firsts. Seats that integrate function and ergonomics with warmth and inspiration. Like in the Saab 9-5 Griffin Edition, where the seat is both powered and heated. All so you can drive with greater confidence and control, helping to keep you more alert. For the ultimate behind-the-wheel experience, opt for our new top-of-the-line Premium natural leather sports seats. Once seated you'll probably wish you had a long, twisting road ahead.

Ventilated sports seats.

Saab was the first car manufacturer to introduce heated seats. No surprise then that the Saab 9-5 was the first car with ventilated seats. Perforated leather and fans in the backrest and seat squab help keep your body cool.

Sports seats.

Body-hugging sports seats come as standard, featuring pronounced side and thigh support for enthusiastic driving. And the front seats also feature SAHR – our award winning active head restraints. The new leather-faced upholstery above is available in the Vector Griffin Edition.

Premium natural leather sports seats.

Touch and you'll feel it. Sit and you'll sense it. The amazing quality sensation in our top-of-the-line all-leather sports seats. Featuring exclusive leathers with different patterns that create inspiring contrasts, along with thick stitching that accentuates the unique design. The sensation is complemented by partial leather door trim. Prepare for a very special driving experience. Every day.

Engage all of your senses.

It only takes a few minutes in the Saab 9-5 Griffin Edition to appreciate its agility, sportiness and consistent behaviour. Obvious fun-to-drive factors. But for us, outstanding roadholding and controlled handling are also essentials for impressive driving safety. The Saab 9-5 features a well-balanced and responsive chassis, fine-tuned for sharp handling combined with exceptional on-road comfort. In addition, the advanced Electronic Stability Program and a range of other electronic systems help boost driving excitement and safety even further.

Sports exhaust.

With bright-polished oval endpipe providing a dynamic look and a powerful sound.

Control and handling.

Standard equipment

- Front McPherson struts
- Multi-link rear axle
- Twin tube gas shock absorbers all round
- Front and rear anti-roll bars
- Disc brakes all round, ventilated at the front
- Anti-lock Braking System (ABS)
- Electronic Brake-force Distribution (EBD)
- Traction Control System (TCS)
- Electronic Stability Program (ESP®)
- Power-assisted rack and pinion steering
- Integrated front foglights
- High-pressure headlight washers
- Windscreen wipers with variable speed
- High-pressure windscreen washers
- Rear window wiper/washer*
- Heated exterior rear-view mirrors
- Steering wheel adjustable for reach and rake
- Saab Parking Assistance (SPA)

Optional equipment

- Lowered sports chassis
- Body-levelling*
- Bi-xenon headlights**
- Auto-dimming mirrors**
- Electrically foldable door mirrors
- Tyre Pressure Monitoring System (TPMS)
- Rain sensor for windscreen wipers**

* SportCombi only. ** Standard on Vector Griffin Edition.

Equipment may vary from one market to another. For more detailed information, please see the separate brochure: Saab 9-5 Equipment and Price. Available at your Saab dealer.

Powerful brakes – with robustly dimensioned discs, ventilated at the front. The most powerful models have extra-large ventilated discs all round and more powerful rear callipers.

ABS – Anti-lock Braking System. Designed to allow firm braking with steering ability.

EBD – Electronic Brake-force Distribution. Designed to distribute brake force between the front and rear wheels depending on how the car is loaded.

TCS – Traction Control System. Helps reduce spinning on slippery surfaces by distributing drive force to the wheel with the best grip. Integrated in the ESP® system.

ESP® – Electronic Stability Program. Helps reduce skidding and improves steering ability on slippery surfaces. Brakes one or more wheels and, if necessary, reduces the throttle opening. If desired, ESP® can be switched off.

Auto-dimming mirrors – automatically dim reflecting light from behind. Available for the interior and exterior mirrors.

TPMS – Tyre Pressure Monitoring System. Gives a warning message in the Saab Car Computer displaying which tyre has low pressure.

Rain sensor – starts the windscreen wipers automatically. Adjusts wiper speed to suit the rain's intensity.

High-pressure washers – three washer nozzles, each with two high-pressure jets, help keep the windscreen clean.

Multi-link rear axle – with independent suspension and three links for each wheel designed to provide precise wheel control. Gives a certain degree of passive steering in curves and alerts you as you approach the limits of grip.

Chassis tuning – springs, shock absorbers and anti-roll bars are fine-tuned for a crisp, firm response.

Sports chassis – lowered 10 mm to provide enhanced stability and agility. Firmer springs and stiffer shock absorbers mean better body control, cornering and braking.

Body-levelling – automatically keeps the car at optimal height when carrying heavy loads or when towing. (SportCombi only)

Bi-xenon headlights – provide much more daylight-like light compared to halogen lights. With auto-adjusting beam length as you drive. On high beam, the bi-xenon lights are supplemented with halogen lights to further extend the beam.

Headlight washers – powerful high-pressure jets help keep the lenses clean.

Saab Turbo

Power when you need it the most.

Press the accelerator in the Saab 9-5 Griffin Edition and you'll experience the perfection of inspiring yet responsible performance. A result of our revolutionary turbo engine technology combined with cutting-edge expertise in developing powerful yet efficient engines with respect for nature. For example the low-emission 150 hp turbodiesel and our innovative BioPower engines running on bioethanol. Whatever your preference, you can count on power, vitality and impressive mid-range torque – for rapid acceleration and faster overtaking.

Saab BioPower

Release the power of nature.

We invented BioPower technology to let you enjoy the pleasure of driving with a cleaner conscience. It is the first flex-fuel solution to produce significantly more power when running on 85 per cent renewable bioethanol (E85)*. You'll get an inspiring 25–30 extra horsepower and even more torque, so count on faster response for quicker overtaking.

The 2.3t BioPower engine.

Runs on petrol, E85 bioethanol or any mixture of the two. Produces 210 hp when you fill up with bioethanol. Top speed: 235 km/h. Zero to 100 km/h: 7.9 sec. 80–120 km/h in fifth gear: 11.0 sec. Combined fuel consumption when running on petrol: 8.9 l/100 km, CO₂ 212 g/km, (Sedan, 5-speed manual).

*With E85 bioethanol, 85% of the fuel is made from renewable resources. This means a reduced contribution of CO₂ to the atmosphere compared to driving on petrol and it also helps to reduce reliance on fossil fuels.

Fuel consumption and emission figures measured according to the 1999/100 EC directive. Please visit www.saab.com for the latest information.
*5th gear, manual. **Available on certain markets. Performance figures with E85 fuel. There are as yet no agreed EC directives governing the measurement of fuel consumption and CO₂ emissions when driving on E85 bioethanol fuel, so the figures showed refer to driving on petrol.

Engine and transmission.

Standard equipment

- Turbocharger
- Saab Trionic (Not TiD)
- Intercooler
- Twin overhead camshafts
- 4 valves per cylinder
- Electronic engine management
- Coil-on-plug ignition (Not TiD)
- Sequential multi-point fuel injection (Not TiD)
- Common-rail, second generation (TiD only)
- Multiple direct injection (TiD only)
- Particle filter (TiD only)
- Visible exhaust pipe
- Manual 5-speed gearbox

Engine range

- 2.0t (150 hp/110 kW/240 Nm)
- 2.3t (185 hp/136 kW/280 Nm)
- 2.3T (260 hp/191 kW/350 Nm)
- 1.9 TiD (150 hp/110 kW/320 Nm)
- 2.0t BioPower (180 hp/132 kW/280 Nm)
- 2.3t BioPower (210 hp/154 kW/310 Nm)

Optional equipment

- Sentronic 5-speed automatic transmission (Not TiD)
- 5-speed automatic transmission (TiD only)

Equipment may vary from one market to another. For more detailed information, please see the separate brochure: Saab 9-5 Equipment and Prices. Available at your Saab dealer.

Turbocharging – gives our engines high torque from low and medium revs. The high-performance 2.3T engine offers a massive 350 Nm of torque from just 1800 r/min. With manual transmission you also get an overboost function that pumps out no less than 370 Nm for 20 seconds.

Advanced turbodiesel – 150 hp engine equipped with second-generation common-rail technology, multiple direct injection, twin overhead camshafts and VNT turbo (Variable Nozzle Turbine). It also features the most advanced diesel particle filter on the market – self-cleaning and maintenance-free.

Sentronic 5-speed – automatic transmission that allows manual gear-changes using paddles on the steering wheel. The current gear is indicated on the instrument panel. (Not TiD)

Saab Trionic – an advanced management system for 4-cylinder turbo petrol engines, developed by Saab. Analyses combustion through ionisation measurement.

Bioethanol (E85) – a renewable fuel produced from a variety of biomass sources such as sugar cane and sugar beet. When used in vehicles, it is mixed with 15 per cent petrol to improve cold-starting ability. Driving on E85 instead of regular petrol means a reduced contribution of CO₂ to the atmosphere and it also helps reduce reliance on fossil fuels.

BioPower engines – pioneering engines giving you more power when running on bioethanol (E85) instead of petrol. In the 2.0t BioPower, power output rises from 150 to 180 hp and torque is increased from 240 to 280 Nm. In the 2.3t BioPower, power output soars from 185 to 210 hp and torque is increased from 280 to 310 Nm. (Available on certain markets)

BioPower technology – a Saab innovation based on advanced Saab turbo technology and our unique Saab Trionic engine management system that automatically adjusts for the type of fuel. Allows us to take advantage of the higher octane rating of E85 fuel, making the engine more efficient.

Scandinavian surprise.

Saab cars are developed where other manufacturers come to test their cars. Up here in Scandinavia, a demanding climate and icy roads offer excellent settings for tough tests. For us, these are perfectly normal conditions. It's what our safety engineers experience on their way to work. No wonder the very design of a Saab is shaped around crash avoidance. In addition to the crash tests required by authorities around the world we run a whole range of our own tests. Most of them based on common real-life collision scenarios. Including moose impacts.

Best in its class.

Saab 9-5 Sedan. Ranked 43 per cent better than the average car in the Midsize Luxury class. US Highway Loss Data Institute (HLDI) study (2007).

Best in its class.

Saab 9-5. Ranked best in its class in the Swedish Insurance Company Folksam report "How Safe is Your Car?" (2007).

Maximum rating: Good.

Saab 9-5. For Saab Active Head Restraints (SAHR) in Britain's Thatcham insurance research centre crash tests.

Five-star safety.

Standard equipment

- 3-point seatbelts, all seats
- Seatbelt pre-tensioners/load limiters, front
- Dual-stage airbags, front
- Head/thorax side airbags, front
- Side-impact protection structure
- Anti-submarining, front and rear seats
- Saab Active Head Restraints (SAHR), front
- Adjustable rear head restraints
- Active seatbelt reminder, front
- Break-away pedals
- Child security rear door locks
- Child seat anchorage points, rear
- Isofix child seat anchorage points, rear
- Load intrusion protection
- Load-securing eyelets (Sedan only)
- CargoTracks™, load-anchoring rails (SportCombi only)
- Cargo net (SportCombi only)
- Load nets (SportCombi only)

Options and Accessories

- Integrated child seat
- Child seats
- Baby insert for child seat
- Booster cushion
- Cargo guard (SportCombi only)

Equipment may vary from one market to another. For more detailed information, please see the separate brochure: Saab 9-5 Equipment and Prices. Available at your Saab dealer.

Interacting safety systems – crumple zones, safety cage, airbags, seatbelts and the active head restraint (SAHR) are just some of the safety systems designed to help protect you and your passengers. They interact to absorb and distribute impact energy efficiently, thus offering a high level of real-life safety.

Dual-stage front airbags – designed to register the crash force and monitor whether the belt is being used. The system adjusts airbag deployment to suit, either to the maximum or with lower pressure.

Five stars – top rating in the European New Car Assessment Program (Euro NCAP) crash tests. For more information about the independent Euro NCAP safety institute, please visit www.euroncap.com.

Side airbags – high, two-part side airbags fitted in the front seat's backrest help protect both the head and thorax.

Child seats – available from Saab Genuine Accessories for all ages up to ten years. The optional integrated child seat for the rear seat is suitable for children between about three and ten.

CargoTracks™ – in the Saab 9-5 SportCombi allow you to secure different types of load. Together with the sturdy backrest, you can count on world-class load-shifting protection.

Broad front structure – designed to protect in frontal crashes from a variety of angles and objects. Crash boxes and front beams are designed to deform in a controlled manner to help absorb the impact energy.

Reinforced doors – featuring side-impact beams and overlapping sills to help prevent door intrusion into the cabin.

Safety cage – in high-tensile steel. Designed to shield the occupants. Sandwiched between crumple zones front and rear that help absorb and dissipate crash forces.

Robust B-pillar – designed to work as a pendulum and bend inwards at the bottom to lead crash forces away from the occupants.

Detach.

Extending ski/board holder.
Slides out from the car roof for easy loading and unloading. Holds six pairs of skis or four snowboards. Lockable.

Sporty, spirited design. No wonder the Saab 9-5 Griffin Edition is ready to support an active life. With innovative convenience that integrates smoothly with your daily needs. At work, with your family and friends or on the way to your next activity. If you opt for the versatile SportCombi version, you get even more space and utility. And with the right accessories you can add another dimension of flexibility that allows you to really get the most out of every day. Just go where you want and bring what you like – whatever the season.

For loads of fun.

A few moments with the Saab 9-5 SportCombi and you'll appreciate just how easy it is to bring along the gear you need. With our wide range of accessories you can customise the luggage compartment just the way you want. What you can't fit inside you can easily carry outside. The integrated roof rails make it easy to attach special holders for everything from kayaks to bikes and skis. And for even bigger items, just fit a towbar – fixed or removable.

Integrated roof rails.

Come as standard in black. Matt metal-finish is optional. (SportCombi only)

Roof rack, C-track.

Quick-release fasteners for easy fitting. Made of anodised aluminium. (SportCombi only)

Roof box.

With low-profile aerodynamic design. Read more about roof boxes and other accessories in the Saab Genuine Accessories brochure.

Flexible space.

554 litres (VDA) of cargo space expand to 1528 litres (VDA) when you fold the rear seat backrest in the SportCombi.

Easy loading.

Wide opening, hidden gas struts, recessed bumper and flat floor.

Cargo guard.

Metal guard that separates the passenger and luggage compartments. Gives the occupants added protection.

Cargo space divider.

Fitted together with the cargo guard. Convenient when travelling with pets.

Parcel shelf.

Rigid shelf that protects the luggage compartment from prying eyes. Easy to fold and remove.

Body-levelling.

Automatically keeps the car at optimal height. Provides added driving comfort and stability when carrying heavy loads or when towing. (SportCombi only)

CargoTracks™.

Load-anchoring rails in the luggage compartment floor. The optional movable eyelets make it easy to secure loads using straps or nets.

Towbars.

Choose between a fixed and a removable/lockable towbar. Preferably combined with body-levelling.

Versatility and convenience.

Standard equipment

- Roof rails**
- Rear seat split/fold (60/40)
- Ski hatch*
- Parcel shelf**
- Adjustable front armrest/storage
- Integrated cup holder in instrument panel
- Rear cup holders
- 12 V power outlets, on centre console and rear centre console
- CargoTracks™**
- Load securing eyelets*
- Storage pockets in front and rear doors
- Net pocket, passenger side of centre console
- Storage tray**
- Cargo net**
- Floor net
- Interior mats

Options and Accessories

- 12 V power outlet, luggage area**
- Cargo guard and space divider**
- Cargo mats
- Storage box
- Roof racks
- Ski/board holders
- Ski/luggage boxes
- Bike holders for roof rack and towbar
- Kayak/canoe/surfboard holders
- Towbars

* Sedan only. ** SportCombi only.

Read more about how you can customise your Saab 9-5 in the Saab Genuine Accessories brochure.

Equipment may vary from one market to another. For more detailed information, please see the separate brochure: Saab 9-5 Equipment and Prices. Available at your Saab dealer.

Bike holder with lift – the bike is inserted at door height, then lifted with the help of gas-filled struts and secured to the roof rack. Lockable. (SportCombi only)

Roof rack, C-track – quick-release fasteners for easy fitting. Made of anodised aluminium. (SportCombi only)

Ski hatch – in the rear seat to accommodate long items. (Sedan only)

Cargo mat – made of rubber. Protects the carpeting from dirt, water and wear.

Scratch protection/seating mat – rolls out from the luggage compartment to protect the bumper. Easily removed for use as a waterproof seating mat.

Cargo nets – for the side and floor in the luggage compartment. Keeps light items in place. Floor cargo net for SportCombi only.

Split/fold rear seat – dividable 60/40. Expands luggage capacity when you need more space.

Storage tray – keeps smaller items protected under the luggage compartment floor. (SportCombi only)

Bike holder, towbar-mounted – space for two bikes (three with an adapter). Fold-down function for easy access to the luggage compartment. Number plate holder and lighting.

Bag holder – mounted under the parcel shelf. Four hooks for holding shopping bags in place in the luggage compartment.

Remote central locking
– control buttons integrated in the key.

Courtesy lights – with dome-lamp and theatre dimming.

Heat absorbing glass
– in all windows. Reduces heat from solar radiation.

Rear air vents – for the ACC. Fresh air for rear seat passengers.

Cup holder – available in the rear seat. Unfolds to accommodate two cups.

Heated rear seats
– electrical heating of the rear seat cushion with temperature control.

Dividable sun visors
– allow you to have one sun visor in front of you and one alongside the window.

Sunroof – made of glass, with interior shade. Electrically operated. (Optional)

Driver's seat memory
– with three different memory settings for driver's seat and door mirrors. (Optional)

Adjustable front armrest – covers a large storage compartment.

Cup holder – integrated in the instrument panel.

Cooled glove box – for soft drinks or anything you want to keep cool.

harman/kardon® Sound System.
With eight loudspeakers including separate subwoofer in the SportCombi and nine loudspeakers in the Sedan. (Standard on the Vector Griffin Edition)

Sound machine.

The infotainment system for the Saab 9-5 Vector Griffin Edition has a range of advanced features you'll learn to appreciate in a minute. Just follow your instinct and press a steering wheel button to operate it – convenient and safer. Or plug in your MP3 player and enjoy your favourite music from the powerful harman/kardon® Sound System.

Point of interest.

Store your favourite hot spots in the integrated navigation system and the car knows exactly how to get there next time. The navigation system is also like a personal travel guide that can keep you updated with the latest traffic situation. Disruption ahead? Your guide automatically chooses a new route and updates your time of arrival. Whether it's just downtown or a trip around Europe. Italian food nearby? Your guide knows and gives detailed information about the restaurant and directs you to the entrance. As well as to another 1,000,000 points of interest. So, what's your interest?

5-spoke High Split.
17-inch alloy wheels, available
from Saab Genuine Accessories.

Audio, navigation and communication.

Standard equipment

- Saab Infotainment with CD player
- Premium 150 Sound System (Linear Griffin Edition)
- harman/kardon® Sound System (Vector Griffin Edition)
- Audio control buttons in the steering wheel
- Radio antenna, integrated in the rear window

Options and Accessories

- Saab Infotainment with CD changer (integrated 6-disc)
- Saab Infotainment Plus with DVD navigation
- CD changer, 6-disc, luggage compartment (standard with Saab Infotainment Plus)
- Telephone holder
- Bluetooth™ handsfree kit
- Handsfree preparation for mobile phone

Navigation – included in Saab Infotainment Plus. Utilises GPS, the DVD system and TMC. Voice guidance and clear directions in different perspectives on the large colour touchscreen. Address book for storing favourite destinations.

TMC – Traffic Message Channel. Reports traffic disruptions to the navigation system. Enables dynamic route guidance – a new route and time of arrival are automatically calculated.

DVD disc – with maps and facts covering most of Europe. Detailed information about 1,000,000 points of interest, including hotels, restaurants, recreation sites, filling stations and much more.

MP3/AUX connection – allows you to plug your MP3 player or other portable audio equipment into the car's audio system. (Saab Infotainment and Saab Infotainment CD Changer.)

Steering wheel controls – for convenient and safer operation of the infotainment system.

Saab Infotainment – includes AM/FM stereo tuner with RDS, MP3-compatible CD player and AUX connection for your MP3 player and other portable audio equipment. Can be combined with the 150 sound system.

Saab Infotainment CD Changer – includes AM/FM stereo tuner with RDS, MP3-compatible 6-disc single-slot fascia mounted CD changer and AUX connection for your MP3 player and other portable audio equipment. Can be combined with the 150 and harman/kardon® sound systems.

Saab Infotainment Plus – includes AM/FM stereo tuner with RDS, MP3-compatible CD player, 6-disc CD changer in the luggage compartment, 6.5" colour touchscreen and navigation. Can be combined with the 150 and harman/kardon® sound systems.

Premium 150 Sound System – seven loudspeakers and a total amplifier output of 150 W.

Six-disc CD changer – installed in the luggage compartment, standard with Saab Infotainment Plus.

Telephone holder – suitable for most makes of mobile phone.

Mobile phone preparation – with the optional handsfree function you can hear incoming calls via the audio system and adjust volume with the steering wheel controls. Includes external antenna for better reception.

Bluetooth™ handsfree kit – automatically connects your Bluetooth™-enabled phone with a handsfree function. Keep the phone in your pocket and operate it with voice commands and buttons on the control panel. The call is heard with high quality through the speakers of the audio system.

harman/kardon® Sound System – with eight loudspeakers including separate subwoofer (SportCombi) and nine loudspeakers including two subwoofers (Sedan) and a total amplifier output of 200 W.

Bluetooth™ is a trademark owned by Bluetooth SIG, Inc., USA and licensed to Saab Automobile AB.

Equipment may vary from one market to another. For more detailed information, please see the separate brochure: Saab 9-5 Equipment and Prices. Available at your Saab dealer.

Choose your Griffin Edition.

We've tried to make your choice quite easy. There are just two models to choose from, with loads of equipment included as standard. Still, you do of course have to select between the Sedan and the SportCombi, the engine that suits you best, your favourite colour, your accessories and so on. Explore all the possibilities and design your own car at www.saab.com.

Saab 9-5 Linear Griffin Edition

Saab 9-5 Vector Griffin Edition

Saab 9-5 Linear Griffin Edition

On the outside the 10-spoke alloy wheels, foglights and bi-xenon headlights add a discreet edge to the clean lines. Inside you are met by sports seats with textile upholstery and tinted metallic trim accents. For additional comfort the driver’s seat is electrically operated and both front and rear seats are heated.
