Mazda 626

The stylish performer.

The Mazda design philosophy of "functional elegance" has found its truest expression in the all-new Mazda 626.

Never before has so much style and grace been presented in such an elegant functional form.

And yet Mazda engineering is more than skin deep.

The styling is fresh, modern and distinctive and

at the same time the wind tunnel perfected aerodynamic design contributes to the exceptional high speed stability and fuel economy. On the move the new Mazda 626 brushes aside the air with only a whisper to mark its passing.

The 2 litre overhead cam four cylinder engine is smooth and responsive and is matched with a sophisticated road-hugging suspension for exciting road performance.

This is the car for the man who demands the satisfaction of driving purely for pleasure.

All the comforts of home.

The light, airy and roomy interior of the Mazda 626 is supremely comfortable for 5 adults.

Slim pillars, low waistline and the wrap around rear window give a large glass area for exceptional visibility on the road. For the driver, a four-way adjustable seat with control for thigh and lumbar support as well as length and recline means drivers of all sizes can find their ideal driving position in the new Mazda 626.

All controls, instruments, and warning lights on the neat and unobtrusive dashboard are ideally placed for maximum efficiency. The total effect is relaxing and reassuring for total comfort with safety.

As you would expect, the new Mazda 626 is packed with extra features that reflect thoughtful design and show that Mazda quality and value are designed in, not added on.

For example the laminated windscreen, side window demister, 3-speed power boosted ventilation and energy absorbing steering column inside and steel belted radial ply tyres outside. Not obvious, but its nice to know that they are there.

**For that something extra
the exclusive alternative.**

For the man who really know style and shows it—the superbly stylish Mazda 626 2 door hardtop.

The freedom of a sleek manoeuvrable sports coupe with ideal front/rear weight distribution. And with the unique feature of split fold down rear seat backs you have unequalled carrying capacity for this class of car. To the driver of a car such as this, all round performance means

more than a high top speed.

With a sophisticated 4 link suspension system including variable rate springs and gas filled shock absorbers in the rear, the 626 hardtop has the sort of road manners usually only found in cars of twice the price.

And the special features that set this car apart from the crowd include cloth seat inserts, an exclusive design four-spoke padded steering

wheel to let them know who is in control,
AM/FM stereo radio and halogen headlights
plus the driver's seat with adjustments for lumbar
and thigh support.

The "Little Bit Extra" is standard with Mazda.

Mazda is always searching for ideas to make our cars just that little bit better. And now here is a feature which combines the best of sedan and hatchback.

Two individual fold-down rear seat backs ① can be positioned to provide a large flat storage space extending all the way from the back of the front seat to the back of the car. A unique feature: Fold down one seat back to allow

the full length to be used and still provide seating in the back for one or two persons. Think of the exciting possibilities all this extra space will allow.

Pockets on the front doors ② and pockets on the rear of the front seats ③ hold a variety of small articles.

The boot ④ was thoughtfully designed to hold a large amount of luggage and sports equipment.

A remote control boot release ⑤ activated

Deluxe and Super Deluxe model only

from the driver's seat provides added convenience for loading.

A divided, locking glove compartment ⑥ securely holds important articles.

An easy-to-read tachometer ⑦ helps you obtain even engine performance from your Mazda 626.

And extra storage space ⑧ is available for small items in the centre console which doubles

as an armrest.

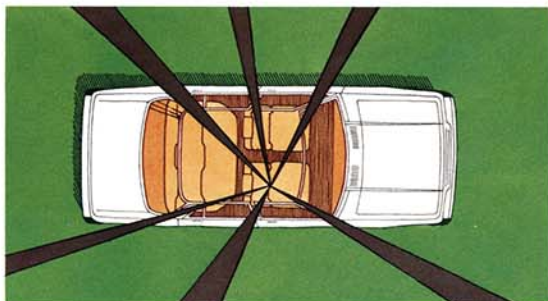

An electronic check-panel ⑨ groups various warning lights together to instantly signal operating information.

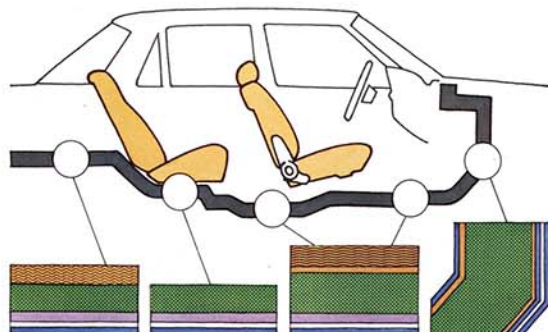

Deluxe and Super Deluxe model only

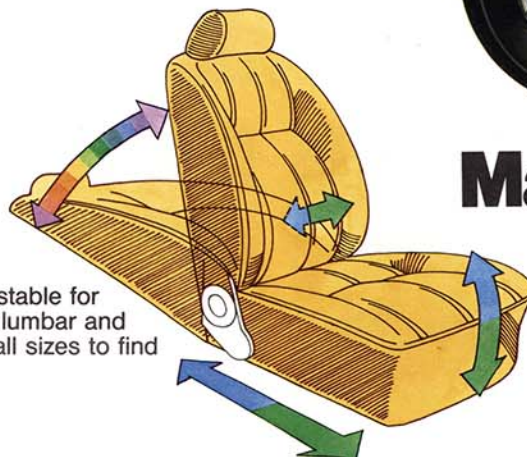

Super Deluxe model only

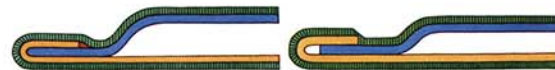

Thin front pillars, low waistline, wrap around rear window and laminated windscreen minimize blind spots providing excellent visibility in all directions for maximum driving safety.

Extensive sound deadening materials and body insulation together with a computer designed vibration free body structure are employed to create an exceptionally quiet vehicle interior.

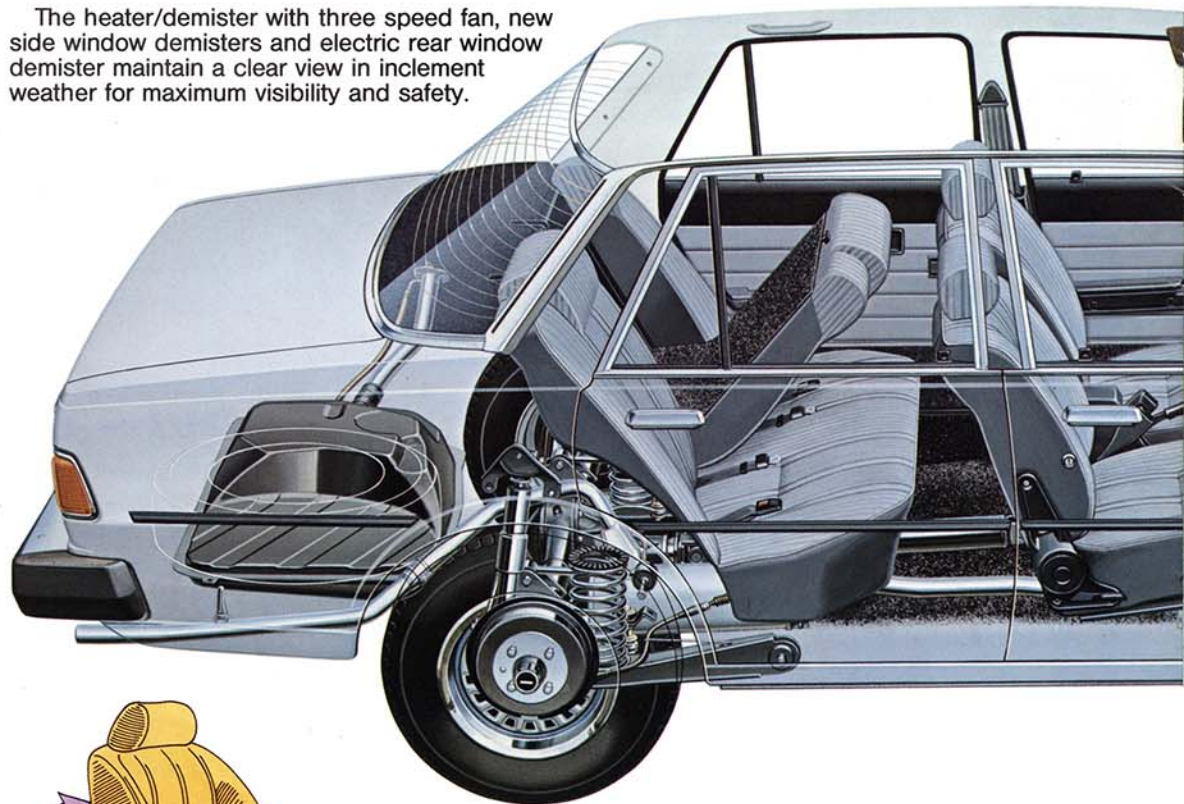

Front bucket seats are fully adjustable for length and recline, with adjustable lumbar and thigh support to enable drivers of all sizes to find their ideal driving position.

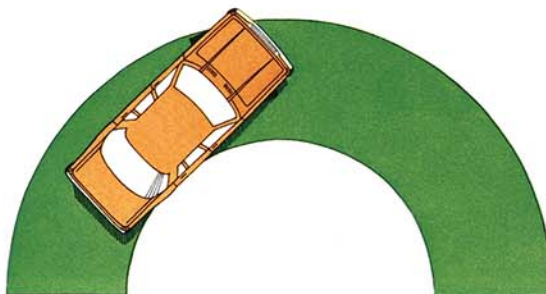

At places where two metallic surfaces meet and where paint may not be completely uniform, any gap between the panel edges is covered with plastic sealer, and rust preventive measures are taken.

The heater/demister with three speed fan, new side window demisters and electric rear window demister maintain a clear view in inclement weather for maximum visibility and safety.

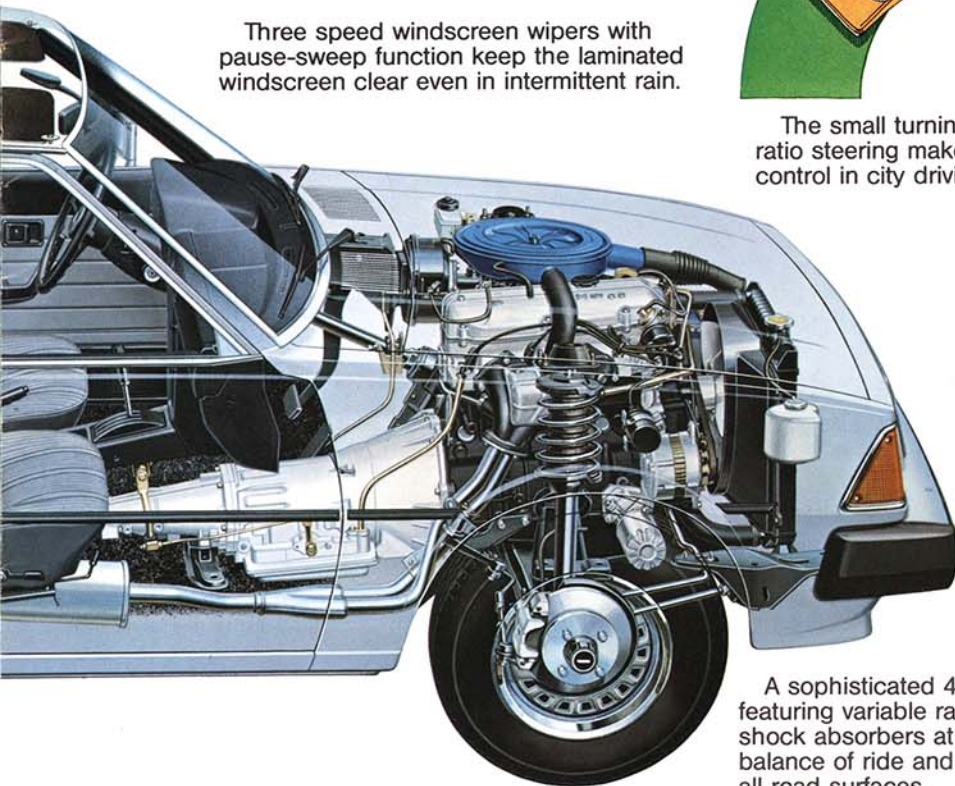

Mazda's combination for success.

Three speed windscreen wipers with pause-sweep function keep the laminated windscreen clear even in intermittent rain.

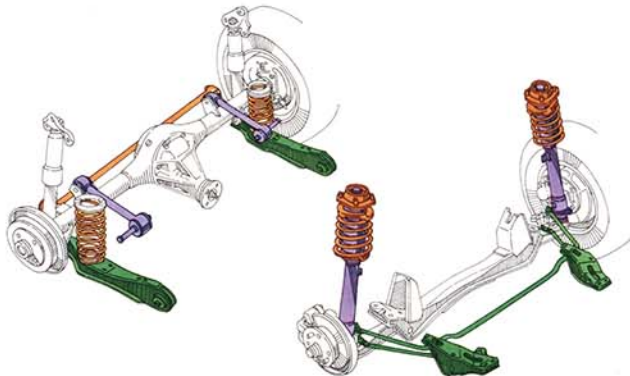

The small turning circle coupled with variable ratio steering make the Mazda 626 easy to control in city driving situations.

A sophisticated 4 link suspension system featuring variable rate springs and gas filled shock absorbers at the rear offers the optimum balance of ride and handling characteristics on all road surfaces.

Safe braking is assured by the use of a dual circuit power assisted braking system. A pressure proportioning valve between the front disc and rear drums together with steel belted radial tyres ensures straight line braking even under most severe conditions.

In the new Mazda 626 range of 4 door sedan and the 2 door hardtop, the super deluxe sedan and 2 door hardtop have a five speed manual transmission with overdrive as standard.

SPECIFICATIONS

Mazda 626 Sedan Standard (Model: CB2MS) Mazda 626 Hardtop Super Deluxe* (Model: CB2MS)
Mazda 626 Sedan Deluxe* (Model: CB2MS)

ENGINE

Type 4-cylinder, in-line, OHC
Cooling System Water-cooled
Bore & Stroke 80mm x 98mm
Displacement 1970cc
Carburettor Down-draft, 2-stage, 2-barrel type
Compression Ratio 8.6
Fuel Pump Electric

DRIVE TRAIN

(Manual transmission)

Clutch Single dry plate, diaphragm
Transmission 4-speed, fully synchronized
Gear Ratios 1st: 3.214 2nd: 1.818 3rd: 1.296
4th: 1.000 Rev: 3.461
Transmission 5-speed, fully synchronized*
Gear Ratios 1st: 3.214 2nd: 1.818 3rd: 1.296
4th: 1.000 5th: 0.860 Rev.: 3.461

(Automatic transmission)

Clutch Torque converter
Transmission 3-speed, automatic
Gear Ratios 1st: 2.458 2nd: 1.458
3rd: 1.000 Rev.: 2.181

Final Drive Rear wheel drive
Final Drive Ratio 3.636

CHASSIS & SUSPENSION

Frame Semi-monocoque
Suspension, Front .. Strut type with coil springs and tension rod
Rear ... 4-link type with coil springs and lateral rods

Shock Absorber, Front Hydraulic, double acting type
Rear .. Gas filled, hydraulic double acting type

STEERING

Type Recirculating ball & nut
Variable Ratio 19.5-23.5:1
Turning Radius (approx.) 4.8m

BRAKES

Type, Front Hydraulic disc brakes with power assist
Rear Hydraulic drum brakes with power assist
Emergency Brake Mechanical, on rear wheels

WHEELS & TYRES

Wheel Size 5J x 13, 5-1/2J x 13*
Tyre Size, Front & Rear 165 SR-13 steel-belted radial,
185/70 SR-13 steel-belted radial* *

DIMENSIONS & WEIGHT

Wheelbase 2510mm
Track, Front 1370mm
Rear 1380mm
Overall Length 4290mm, 4305mm*, 4380mm*
Overall Width 1660mm
Overall Height 1370mm, 1345mm*
Curb Weight (approx.) 1075kg, 1080kg* 1085kg (A/T)

CAPACITY

Fuel Tank 55 lit.
Battery 12V 45A/h
Alternator 50A

Standard Equipment

[On all models]

Split Fold-down Rear Seat
Reclining Front Bucket Seats
Adjustable Lumbar / Thigh Support for driver's seat
Steel-belted Radial Tyres
Front Disc Brakes
Laminated Windscreen
Tachometer
Electric Clock
Rear Heated Window
